

prepared, stocking will continue to follow guidelines that ensure expansion of habitats for native amphibians and fish. In areas without ABMPs, trout stocking will be based on site-specific evaluations of risk to native, sensitive, or legally protected species. Where appropriate surveys have yet to be completed, stocking will be suspended until the appropriate evaluations have been completed. ABMPs or other similar plans may be developed and implemented prior to reinitiation of stocking in those locations. Depending on the specific location, such plans could include eradication of nonnative fish from water bodies currently or formerly harboring sensitive native species, genetic analysis of native fish to determine degree of hybridization, cessation of nonnative trout stocking in waters occupied by native trout populations, and implementation of measures consistent with FWS recovery plans and CDFG management plans. Stocking of Mad River steelhead will continue with measures intended to reduce the interaction between hatchery reared fish and naturally reproducing populations and consistent with the Draft Hatchery and Genetic Management Plan submitted to the National Marine Fisheries Service. The Fishing in the City and Classroom Aquarium Education Programs will continue under uniform protocols developed to ensure that stocking locations are properly screened to protect native, sensitive, and legally protected species. Implementation of Program activities following development of any ABMPs or uniform protocols for the Fishing in the City and Classroom Aquarium Education Programs may require additional, site-specific NEPA compliance tiered from the EIR/EIS.

#### *Continuation of Interim Program Provisions Alternative*

Under the Continuation of Interim Program Provisions Alternative, FWS will continue to provide funding for operations of CDFG's 14 trout hatcheries and the Mad River Hatchery for steelhead, and associated stocking of fish produced at those hatcheries, consistent with the court-ordered prohibitions and exceptions on fish stocking that were put into place for the interim period between the date of the court order and completion of the EIR/EIS. The interim provisions prohibit stocking nonnative fish in any California fresh water body where surveys have demonstrated the presence of 25 specified amphibian or fish species, or where a survey for those species has not yet been completed. The order does not address the stocking of

native fish into native waters. Exceptions to the prohibitions include stocking in human-made reservoirs larger than 1000 acres; stocking in human-made reservoirs less than 1000 acres that are not connected to a river or stream, are not within California red-legged frog critical habitat, or are not where California red-legged frogs are known to exist; stocking as required for state or federal mitigation; stocking for the purpose of enhancing salmon and steelhead populations and funded by the Commercial Trollers Salmon Stamp; stocking of steelhead from the Mad River Hatchery into the Mad River Basin; CDFG's Aquarium in the Classroom program; stocking actions to support scientific research; and stocking done under an existing private stocking permit or to be completed under a new permit with terms similar to one that was issued in the last 4 years. The Fishing in the City and Classroom Aquarium Education Programs will continue under uniform protocols developed to ensure that stocking locations are properly screened to protect native, sensitive, and legally protected species.

#### *Continuation of Existing Program Alternative*

The Continuation of Existing Program Alternative (consistent with the CEQA No Project Alternative) is continuation of SFRA funding for the existing Fish Hatchery and Stocking Program. The hatcheries' operation and stocking activities undertaken by CDFG over the past 5 years would continue unchanged (some activities may be inconsistent with the court-ordered prohibitions and exceptions), and the SFRA funding process for these activities will continue as it has over the same period.

#### *No Action Alternative*

Under the No Action Alternative, FWS would not approve SFRA grant funds to be used by CDFG to support actions associated with operations of the CDFG Fish Hatchery and Stocking Program. Because of State statutory and public trust requirements related to the hatchery program, CDFG would attempt to continue to implement its State hatchery program, seeking other funding sources to replace the Federal funds.

The Tribe’s limited waiver of sovereign immunity is clarified and narrowed to include only disputes arising under the compact. The State similarly waives its sovereign immunity, including a specific waiver of the State’s Eleventh Amendment immunity from suit for the purposes of enforcing the compact.
