## DEPARTMENT OF HOMELAND SECURITY

### Office of the Secretary

#### Published Privacy Impact Assessments on the Web

**AGENCY:** Privacy Office, DHS. **ACTION:** Notice of publication of Privacy Impact Assessments.

**SUMMARY:** The Privacy Office of the Department of Homeland Security is making available twelve Privacy Impact Assessments on various programs and systems in the Department. These assessments were approved and published on the Privacy Office's Web site between April 1, 2009, and June 30, 2009.

**DATES:** The Privacy Impact Assessments will be available on the DHS Web site until December 14, 2009, after which they may be obtained by contacting the DHS Privacy Office (contact information below).

## FOR FURTHER INFORMATION CONTACT:

Mary Ellen Callahan, Chief Privacy Officer, Department of Homeland Security, Washington, DC 20528, or e-mail: pia@dhs.gov.

SUPPLEMENTARY INFORMATION: Between April 1, 2009, and June 30, 2009, the Chief Privacy Officer of the Department of Homeland Security (DHS) approved and published twelve Privacy Impact Assessments (PIAs) on the DHS Privacy Office web site, www.dhs.gov/privacy, under the link for "Privacy Impact Assessments." These PIAs cover twelve separate DHS programs. Below is a short summary of those programs, indicating the DHS component responsible for the system, and the date on which the PIA was approved. Additional information can be found on the Web site or by contacting the Privacy Office.

System: FireGround Compass. Component: Science and Technology.

Date of approval: April 1, 2009. The DHS Science and Technology Directorate (S&T) TechSolutions Program contracted with G&H International Services, Inc. to perform operational testing and evaluations on the FireGround Compass for first responder firefighter applications. Halcyon Products designed the FireGround Compass, a navigational device that helps firefighters reestablish their orientation within a burning or smoke-filled building should they become lost or disoriented. The purpose of this project is to test the features, functions, and operational readiness of the FireGround Compass through human testing of the equipment. S&T conducted a PIA for this project because G&H International collected the personally identifiable information (PII) of firefighter volunteers during the testing of the device.

System: Security and Video Quality for the Public Safety Statement of Requirements Project.

Component: Science and Technology. Date of approval: April 1, 2009.

The Security and Video Quality for the Public Safety Statement of Requirements project is a research and development effort funded by the DHS S&T. S&T is funding Noblis Inc., a nonprofit science and technology organization, through a cooperative agreement to conduct several research efforts, one of which is to examine facial recognition requirements in emergency response operations. S&T is conducting a PIA because research staff will use images collected from individuals during this research project. This PIA will only cover the research and testing activities conducted during this project.

*System:* Comprehensive Exit Program: Air Exit Pilot.

Component: US-VISIT.

Date of approval: May 20, 2009.

The United States Visitor and Immigrant Status Indicator Technology (US-VISIT) Program is implementing a new pilot phase of a comprehensive exit program for integrating non-U.S. citizen departure with existing arrival information. The Exit Program requires the collection of minimal biometric and biographic data from covered aliens, enabling US-VISIT Entry/Exit matching, identity verification, and cross-checking against a list of subjects of interest. This PIA is conducted because US-VISIT collects PII on non-U.S. citizens.

*System:* Compliance Tracking and Management System.

Component: U.S. Citizenship and Immigration Services.

Date of approval: May 22, 2009.
