### Federal Energy Regulatory Commission

#### 18 CFR Part 35

[Docket No. RM09-24-000; Order No. 727]

#### Interest Rates for Refunds

Issued October 15, 2009.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Final rule.

**SUMMARY:** The Commission is revising its regulations governing the interest rates used in calculating refunds. Because the Federal Reserve no longer publishes Statistical Release G. 13, which was previously referenced in the Commission's regulations, and Statistical Release G. 13 has been superseded by Statistical Release H. 15, this Final Rule revises the Commission's regulations to now reference the Federal Reserve's Statistical Release H. 15.

**DATES:** *Effective Date:* This rule is effective October 22, 2009.

#### SUPPLEMENTARY INFORMATION:

Before Commissioners: Jon Wellinoff, Chairman; Sudeen G. Kelly, Marc Spitzer, and Philip D. Moeller.

#### I. Discussion

1. The Commission is revising its regulations governing the interest rates used in calculating refunds to reflect a change in the Federal Reserve's publications. Currently, the regulations reference the Federal Reserve's Statistical Release G. 13 for the calculation of the average prime rate for each calendar quarter used in determining refunds.<sup>1</sup> The Federal Reserve no longer publishes Statistical Release G. 13, and Statistical Release G. 13 has been superseded by Statistical Release H. 15.<sup>2</sup> Accordingly, this Final Rule revises the Commission's regulations to now refer to the Federal Reserve's Statistical Release H. 15. The methods for calculating refunds or for determining the applicable interest rates are not being altered in any way.

#### II. Information Collection Statement

2. The Office of Management and Budget's (OMB) regulations require that OMB approve certain information collection requirements imposed by agency rule.<sup>3</sup> This Final Rule does not contain information collection requirements and is not subject to OMB approval.

#### III. Environmental Analysis

3. The Commission is required to prepare an Environmental Assessment or an Environmental Impact Statement for any action that may have a significant adverse effect on the quality of the human environment.<sup>4</sup> Issuance of this Final Rule does not represent a major federal action having a significant adverse effect on the quality of the human environment under the Commission's regulations implementing the National Environmental Policy Act of 1969. Part 380 of the Commission's regulations lists exemptions to the requirement to draft an Environmental Analysis or Environmental Impact Statement. Included is an exemption for

procedural, ministerial or internal administrative actions and management.<sup>5</sup> This rulemaking is exempt under that provision.

#### IV. Regulatory Flexibility Act

4. The Regulatory Flexibility Act of 1980 (RFA)<sup>6</sup> generally requires a description and analysis of final rules that will have significant economic impact on a substantial number of small entities. This final rule makes a ministerial correction to the regulations, correcting the reference to a Federal Reserve Statistical Release. The Commission certifies that it will not have a significant economic impact on a substantial number of small entities. An analysis under the RFA is not required.

5. In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the Internet through the Commission's Home Page (<http://www.ferc.gov>) and in the Commission's Public Reference Room during normal business hours (8:30 a.m. to 5 p.m. Eastern time) at 888 First Street, NE., Room 2A, Washington, DC 20426.

The full text of this document is available on eLibrary in PDF and Microsoft Word format for viewing, printing, and/or downloading. E-mail the Public Reference Room at [public.referenceroom@ferc.gov](mailto:public.referenceroom@ferc.gov).

#### VI. Effective Date

8. These regulations are effective October 22, 2009. In accordance with 5 U.S.C. 553(d)(3), the Commission finds that good cause exists to make this Final Rule effective immediately. It corrects an out-of-date reference in the Commission's regulations to reflect a change in the Federal Reserve's Statistical Releases. It will not

significantly and adversely affect persons appearing before the Commission. There is therefore no reason to make this rule effective at a later time.

9. The Commission is issuing this rule as a Final Rule without a period for public comment. Under 5 U.S.C. 553(b), notice and comment procedures are unnecessary where a rulemaking concerns only agency procedure and practice, or where the agency finds that notice and comment are unnecessary.<sup>7</sup> The Commission finds that notice and comment are unnecessary because the Commission is merely correcting a reference to a no longer published Federal Reserve Statistical Release. No new burden or regulatory requirement is imposed on regulated entities or the general public. Instead, this Final Rule merely updates an out-of-date reference in the Commission's regulations to reflect a change in the Federal Reserve's Statistical Releases.

#### Standards of Conduct for Transmission Providers

Issued October 15, 2009.

**AGENCY:** Federal Energy Regulatory Commission, DOE.

**ACTION:** Final rule; order on rehearing and clarification.

**SUMMARY:** The Federal Energy Regulatory Commission (Commission) generally reaffirms its determinations in Order No. 717, but grants rehearing on and clarifies certain provisions. Order No. 717–A aims to make the Standards of Conduct clearer and to refocus the rules on the areas where there is the greatest potential for abuse. The order addresses requests for rehearing and clarification of the following issues: Applicability of the Standards of Conduct to transmission owners with no marketing affiliate transactions; whether the Independent Functioning Rule applies to balancing authority employees; which activities of transmission function employees or marketing function employees are subject to the Independent Functioning Rule; whether local distribution companies making off-system sales on nonaffiliated pipelines are subject to the Standards of Conduct; whether the Standards of Conduct apply to a pipeline's sale of its own production; applicability of the Standards of Conduct to asset management agreements; whether incidental purchases to remain in balance or sales of unneeded gas supply subject the company to the Standards of Conduct; applicability of the No Conduit Rule to certain situations; and applicability of the Transparency Rule to certain situations.

**DATES:** *Effective Date:* This rule will become effective November 23, 2009.
