

subject contract was substantial. In regard to price linkage, the final settlement of the NWR contract is based, in part, on the final settlement price of the NYMEX's physically-delivered natural gas contract, where the NYMEX is registered with the Commission as a designated contract market ("DCM"). In regard to material price reference, while it did not specifically address the natural gas contracts under review, the ECM Study stated that, in general, market participants view the ICE as a price discovery market for certain natural gas contracts. Natural gas contracts based on actively-traded hubs are transacted on the ICE's electronic trading platform, with the remainder being completed over-the-counter and potentially submitted for clearing by voice brokers. In addition, the ICE sells its price data to market participants in a number of different packages which vary in terms of the hubs covered, time periods, and whether the data are daily only or historical. For example, the ICE offers the "West Gas End of Day" and "OTC Gas End of Day" data packages with access to all price data or just 12, 24, 36, or 48 months of historical data.

### III. Request for Comment

In evaluating whether an ECM's agreement, contract, or transaction performs a significant price discovery function, section 2(h)(7) of the CEA directs the Commission to consider, as appropriate, four specific criteria: Price linkage, arbitrage, material price reference, and material liquidity. As it explained in Appendix A to the Part 36 rules,<sup>6</sup> the Commission, in making SPDC determinations, will apply and weigh each factor, as appropriate, to the specific contract and circumstances under consideration.

As part of its evaluation, the Commission will consider the written data, views, and arguments from any ECM that lists the potential SPDC and from any other interested parties. Accordingly, the Commission requests comment on whether the ICE's NWR contract performs a significant price discovery function. Commenters' attention is directed particularly to Appendix A of the Commission's Part 36 rules for a detailed discussion of the factors relevant to a SPDC determination. The Commission notes that comments which analyze the contracts in terms of these factors will be especially helpful to the determination process. In order to determine the relevance of comments received, the Commission requests that commenters explain in what capacity

are they knowledgeable about one or several of the subject contracts.

### IV. Related Matters

#### A. Paperwork Reduction Act

The Paperwork Reduction Act of 1995 ("PRA")<sup>7</sup> imposes certain requirements on federal agencies, including the Commission, in connection with their conducting or sponsoring any collection of information, as defined by the PRA. Certain provisions of final Commission rule 36.3 impose new regulatory and reporting requirements on ECMs, resulting in information collection requirements within the meaning of the PRA; OMB previously has approved and assigned OMB control number 3038-0060 to this collection of information.

#### B. Cost-Benefit Analysis

Section 15(a) of the CEA<sup>8</sup> requires the Commission to consider the costs and benefits of its actions before issuing an order under the Act. By its terms, section 15(a) does not require the Commission to quantify the costs and benefits of such an order or to determine whether the benefits of such an order outweigh its costs; rather, it requires that the Commission "consider" the costs and benefits of its action. Section 15(a) further specifies that the costs and benefits shall be evaluated in light of five broad areas of market and public concern: (1) Protection of market participants and the public; (2) efficiency, competitiveness, and financial integrity of futures markets; (3) price discovery; (4) sound risk management practices; and (5) other public interest considerations.

The bulk of the costs imposed by the requirements of Commission Rule 36.3 relate to significant and increased information-submission and reporting requirements adopted in response to the Reauthorization Act's directive that the Commission take an active role in determining whether contracts listed by ECMs qualify as SPDCs. The enhanced requirements for ECMs will permit the Commission to acquire the information it needs to discharge its newly-mandated responsibilities and to ensure that ECMs with SPDCs are identified as entities with the elevated status of registered entity under the CEA and are in compliance with the statutory terms of the core principles of section 2(h)(7)(C) of the Act. The primary benefit to the public is to enable the Commission to discharge its statutory obligation to monitor for the presence of SPDCs and extend its oversight to the trading of SPDCs.

Issued in Washington, DC, on October 14, 2009 by the Commission.

**SUPPLEMENTARY INFORMATION:** On August 14, 2008, the Consumer Product Safety Improvement Act of 2008 (Pub. L. 110-314) became law. Section 212 of the CPSIA amended the Consumer Product Safety Act (CPSA) to create a new section 6A, titled "Publicly Available Consumer Product Safety Information Database." Section 6A(a)(1) of the CPSA states that the Commission, subject to appropriations, shall "establish and maintain a database on the safety of consumer products, and other products or substances" regulated by the Commission. The statute declares that the database must be publicly available, searchable, and accessible through the Commission's Web site.

The Commission will conduct a public hearing on November 10, 2009, to hear oral comments from interested parties concerning the Commission's establishment of a searchable consumer product safety incident database.

Persons who desire to make oral presentations at the hearing on November 10, 2009, should register online at <http://www.cpsc.gov/cgibin/dbmeeting.aspx> or, send an e-mail, call, or write Todd A. ## DEPARTMENT OF EDUCATION

### Notice of Proposed Information Collection Requests

**AGENCY:** Department of Education.

**SUMMARY:** The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, invites comments on the proposed information collection requests as required by the Paperwork Reduction Act of 1995.

**DATES:** Interested persons are invited to submit comments on or before December 21, 2009.

**SUPPLEMENTARY INFORMATION:** Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. OMB invites public comment.

The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology.
