SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g. new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. National Institute for Literacy

Type of Review: New.

Title: Understanding Effective K-3 Reading Programs Based on Scientific Reading Research.

Frequency: One time.

Affected Public: Businesses or other for-profit; State, Local, or Tribal Gov't, SEAs or LEAs.

Reporting and Recordkeeping Hour Burden:

Responses: 87.

Burden Hours: 1,037.

Abstract: The National Institute for Literacy (NIFL) is authorized under the No Child Left Behind Act, Public Law 107-110, Part B, Subpart 1, Section 1207 to “ * * identify and disseminate information about schools, local educational agencies, and State educational agencies that have effectively developed and implemented classroom reading programs that meet the requirements of this subpart (Reading First) * * ” To carry out this authorized activity, the NIFL is first conducting a set of case studies, identifying Schools with Effective Reading Programs, to be implemented by a research team from Education Development Center, Inc. (EDC). The NIFL then will publish findings from the case studies as a report and print and distribute it widely among educators and administrators working with children in kindergarten through third grades as well as reading researchers. The NIFL needs to collect the information proposed in this package to be able to describe in reasonable detail the school- and classroom-based reading strategies employed by schools with high-performing students. The NIFL understands its statutory charge to mean providing information that explains what the schools did and how they did

it rather than general information from sources such as school Web sites. While the findings from case studies should not be construed as guidance to schools seeking to improve their K-3 students' reading outcomes, the information from this study may bring to light detail that contributes to deeper understanding of effective reading instruction and informs future research on K-3 reading instruction.
