

from June 20, 2008 to August 18, 2008. During that time, the NPS distributed nearly 150 hard copies and compact discs of the draft. The draft was also made available at Park headquarters, on the Internet, and at area libraries. Four public meetings were held on July 21, 22, 23, and 24, 2008, attended by a total of 24 persons. Comments were received from 33 persons on the document during the public review period. Comments from individuals, groups, and public agencies on the alternatives, the preferred alternative, and the environmentally preferable alternative were considered.

Alternative B, both the NPS preferred and environmentally preferable alternative, was selected because it will effectively reduce and maintain the herd size to target population goals while preserving the current natural distribution and movement of elk in and out of the Park. It will also reduce adverse impacts to elk (from stress), bison, prairie dogs, black-footed ferrets, air quality, and soils from carcass disposal. It will also provide expanded hunting opportunities outside the Park and make full use of elk meat (versus wasting the resource), and will not increase elk-to-elk contact of potentially CWD-infected animals in corral situations.

Alternative B, the selected alternative, focuses on the hunting of elk on public

and private lands outside the Park to reduce and maintain the Park's elk population. Movable sections of fence (gates) will be installed along the boundary fence to allow elk, but not bison, movement. The gates will be closed during hunting seasons to minimize elk reentry into the Park. Hazing may be used to ensure the appropriate number of elk leave the Park. The South Dakota Department of Game, Fish, and Parks will administer the hunt, issue all hunting permits, and retain all fees.
