FEDERAL COMMUNICATIONS COMMISSION**47 CFR Part 64****[CG Docket No. 03–123; DA 08–2808]****Telecommunications Relay Services and Speech-to-Speech Services for Individuals With Hearing and Speech Disabilities**

AGENCY: Federal Communications Commission.

ACTION: Final rule; extension of waiver.

SUMMARY: In this document, the Consumer and Governmental Affairs Bureau (Bureau) extends for an additional year waivers of certain Telecommunications Relay Services (TRS) mandatory minimum standards for Video Relay Service (VRS) and Internet Protocol Relay (IP Relay). The waived TRS mandatory minimum standards are: One-line voice carry over (VCO); VCO-to-teletypewriter (TTY); VCO-to-VCO; one-line hearing carry over (HCO); HCO-to-TTY; HCO-to-HCO; call release; pay-per-call (900) calls; types of calls; equal access to interexchange carriers; and speech-to-speech (STS). Also, in this document, the Bureau grants a limited extension of the waiver of the speed dialing requirement for IP Relay. The Bureau extends the waivers for one year (four months in the case of speed dialing for IP Relay) because the record demonstrates that it is technologically infeasible for VRS and IP Relay providers to offer these services at this time.

DATES: The waivers of certain TRS mandatory minimum standards for VRS and IP Relay will expire on January 1, 2010, except the limited extension of the waiver of the speed dialing requirement for IP Relay, which expired on May 1, 2009.

ADDRESSES: Parties may submit documentation related to the waivers, identified by [CG Docket No. 03–123 and/or DA 08–2808], by mail, to: Dana Wilson, Consumer and Governmental Affairs Bureau, Disability Rights Office, 445 12th Street, SW., Room 3–C418, Washington, DC 20554.

Synopsis

1. The Commission, in various orders, has waived several TRS mandatory minimum standards for VRS and IP Relay either because, as Internet-based services, it is not technologically feasible to meet the requirement or, in the case of VRS, because VRS is a video-

based service and the communication is via sign language and not text. Most recently, in the *2007 TRS Waiver Order*, the Commission extended certain waivers until January 1, 2009. See *Telecommunications Relay Services and Speech-to-Speech Services for Individuals with Hearing and Speech Disabilities*, CG Docket No. 03–123, Order, adopted and released on December 26, 2007, published at 73 FR 9031, February 19, 2008 (*2007 TRS Waiver Order*). These waivers were conditioned on the filing of annual reports, due April 16, 2008, addressing whether it was necessary for the waivers to remain in effect. All VRS and IP Relay providers have filed reports detailing their progress in meeting the waived requirements. The Bureau reviewed these reports in reaching the conclusions below.

2. *One-line VCO, VCO-to-TTY, and VCO-to-VCO.* VCO is a type of traditional TTY-based TRS that can be used by persons with a hearing disability but who can speak. See 47 CFR 64.601(27); 47 CFR 64.604(a)(3)(v). The Commission waived these requirements for IP Relay providers because the voice leg of a VCO call could not be supported over the Internet. The Commission similarly waived these requirements for VRS. The Bureau extends the waivers of these requirements for one year. The Bureau notes that the April 16, 2008 waiver reports reflected that VRS and IP Relay providers cannot provide these services because the Internet cannot support the voice leg of a VCO call with the necessary call quality. These waivers were again conditioned on the filing of reports, due April 16, 2009, addressing whether it is necessary for the waivers to remain in effect.

3. *One-line HCO, HCO-to-TTY, and HCO-to-HCO.* One-line HCO is a type of traditional TTY-based TRS that can be used by persons with a speech disability but who can hear. See 47 CFR 64.604(9); 47 CFR 64.604(a)(3)(v). For the same reason the Commission waived the VCO requirements for IP Relay, it did so with respect to the HCO requirements. The Commission similarly waived these requirements for VRS. Consistent with the Bureau's treatment of VCO, and for the same reasons, the Bureau extends the waivers of these requirements for one year. The Bureau also notes that the April 16, 2008 waiver reports reflected that VRS and IP Relay providers could not provide these services. These waivers were also conditioned on the filing of reports, due April 16, 2009, addressing whether it is necessary for the waivers to remain in effect.
