

submission. Applicant may use EFS-Web to file part of the international application and to obtain the international application number and the confirmation number, and then file the remainder of the international application on the same day as one or more follow-on submissions using EFS-Web, in order to secure the same filing date for all parts of the international application. However, applicant is not permitted to file part of the international application electronically via EFS-Web, and then file the remainder of the international application on paper to secure a filing date of all parts of the international application.

In the situation where applicant needs to file a sequence listing that is over one hundred megabytes, applicant may use EFS-Web to file the international application without the sequence listing to obtain the international application number and the confirmation number, and then file the sequence listing on compact discs on the same day by using Express Mail from the USPS in accordance with 37 CFR 1.10, or hand delivery, in order to secure the same filing date for all parts of the international application. However, USPS Express Mail and hand-carried submissions may not contain PDF files and must fully comply with the guidelines for filing a sequence listing on electronic media as set forth in MPEP § 1823.02, except that only one copy of the sequence listing is required, and applicant need not make any reference to AI Part 8 or AI § 801. The sequence listing must be a single document, but the document may be split using software designed to divide a file, that is too large to fit on a single compact disc, into multiple concatenated files. If the user breaks up a sequence listing into multiple concatenated files so that it may be submitted on multiple compact discs, the compact discs must be labeled to indicate their order (*e.g.*, “1 of X”, “2 of X”).

d. Fee Determination for International Applications Containing a Sequence Listing: The calculation of the international filing fee for an international application, including a sequence listing, filed via EFS-Web is determined based on the type of sequence listing file. A sequence listing filed in an ASCII text file will not be included in the page count of the international application. A sequence listing filed in a PDF file will be included in the page count of the international application. Therefore, the page count for an EFS-Web filed application containing both a PDF and text format sequence listing will be

determined by the number of pages of the PDF sequence listing.

J4. Follow-on Submissions for International Applications: As noted above, a sequence listing in an ASCII text file, as well as additional PDF files, may be submitted in one or more follow-on submissions, via EFS-Web. Such follow-on submissions will form part of the international application if filed on the same date on which the international application was filed. Note that follow-on submissions of PDF files (including, but not limited to, PDF sequence listings) may change the number of pages in the international application and therefore may affect the international filing fee.

EFS-Web may also be used to submit a sequence listing in an ASCII text file after the international filing date in response to a requirement under 37 CFR 1.821(h) and PCT Rule 13ter. Such sequence listing will not form part of the international application as set forth in PCT Rule 13ter.1(e).

J5. Policy of Annex F of the PCT Administrative Instructions: EFS-Web employs a Web-based approach to document submission which is different from the Annex F “wrapped, bundled and signed package” approach. Thus EFS-Web does not meet Annex F requirements. See Annex F of the PCT Administrative Instructions located at [<http://www.wipo.int/pct/en/texts/>].

Dated: October 21, 2009.

David J. Kappos,

Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office.

DEPARTMENT OF COMMERCE

International Trade Administration

[A-570-949]

Wire Decking from the People's Republic of China: Postponement of Preliminary Determination of Antidumping Duty Investigation

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

EFFECTIVE DATE: October 27, 2009.

FOR FURTHER INFORMATION CONTACT: Frances Veith or Trisha Tran, AD/CVD Operations, Office 8, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-4295 or (202) 482-4852, respectively.

SUPPLEMENTARY INFORMATION:

Postponement of Preliminary Determination

On June 25, 2009, the Department of Commerce (“the Department”) initiated an antidumping duty investigation on wire decking from the People’s Republic of China.¹ The notice of initiation stated that, unless postponed, the Department would issue its preliminary determination no later than 140 days after the date of issuance of the initiation, in accordance with section 733(b)(1)(A) of the Tariff Act of 1930, as amended (“the Act”). The preliminary determination is currently due no later than November 12, 2009.

On October 15, 2009, petitioners, AWP Industries, Inc., ITC Manufacturing, Inc., J&L Wire Cloth LLC, Nashville Wire Products Mfg. Co., Inc., and Wireway Husky Corporation (collectively, “Petitioners”), made a timely request, pursuant to 19 CFR 351.205(b)(2) and (e), for a 50-day postponement of the preliminary determination, in order to allow additional time for the Department to review respondents’ sections C and D questionnaire submissions.² Because there are no compelling reasons to deny the request, in accordance with section 733(c)(1)(A) of the Act, the Department is postponing the deadline for the preliminary determination by 50 days.

An extension of 50 days from the current deadline of November 12, 2009, would result in a new deadline of January 1, 2010. However, since January 1, 2010, falls on a federal holiday, a non-business day, the deadline for the preliminary determination will now be due no later than January 4, 2010, the next business day. The deadline for the final determination will continue to be 75 days after the date of the preliminary determination, unless extended.

This notice is issued and published pursuant to section 733(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: October 20, 2009.

Ronald K. Lorentzen,

Acting Assistant Secretary for Import Administration.
