Docket No. 08-ANE-103]

**Establishment of Class E Airspace;
Nantucket, MA**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action establishes Class E Airspace at Nantucket Memorial Airport, Nantucket, MA, by establishing Class E Surface airspace designated as an extension to Class D airspace. DATES: Effective 0901 UTC, February 11, 2010. The Director of the Federal Register approves this incorporation by reference action under title 1, Code of Federal Regulations, part 51, subject to the annual revision of FAA Order 7400.9 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

History

On February 12, 2009, the FAA proposed to amend Title 14 Code of Federal Regulations (14 CFR) part 71 by establishing the Class E airspace extending upward from the surface at Nantucket Memorial Airport, Nantucket, MA (74 FR 7011). Interested parties are invited to participate in this rulemaking proceeding by submitting written comments on the proposal to the FAA. No comments objecting to the proposal were received.

Class E surface airspace designations as extensions to Class D (Class E4 airspace) are published in Paragraph 6004 of FAA Order 7400.9T, signed August 27, 2009, and effective September 15, 2009, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document will be published subsequently in the Order.

The Rule

This amendment to Title 14, Code of Federal Regulations (14 CFR) part 71 establishes Class E airspace at Nantucket, MA. This action provides adequate Class E airspace (IFR) operations at Nantucket Memorial Airport. Area Navigation (RNAV) Global Positioning System (GPS) (SIAPs) have been developed for Nantucket Memorial Airport, and as a result, Class E surface airspace is required to the northeast of the airport, designated as an extension of the Class D surface area.

The FAA has determined that this proposed regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore, (1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.
