BILLING CODE 4810-25-P

DEPARTMENT OF THE TREASURY

Departmental Offices; Privacy Act of 1974, as Amended

AGENCY: Departmental Offices, Treasury.

ACTION: Final Notice of Proposed New Privacy Act System of Records for the Home Affordable Modification Program.

SUMMARY: The U.S. Department of the Treasury proposed in August 2009 to establish a new System of Records under the Privacy Act known as “Home Affordable Modification Program—Treasury/DO.” This system of records would be established primarily to administer the Home Affordable Modification Program and related homeownership preservation programs (“HAMP”). This notice is to inform the public that one submitter has provided comments in response to the proposed Privacy Act notice published on August 3, 2009, at 74 FR 38484, and that minor changes have been made to the proposed notice in light of these comments.

DATES: Confirmation of effective date: September 14, 2009.

FOR FURTHER INFORMATION CONTACT: Theodore R. Kowalsky, Manager, Data & Information Technology, Office of Fiscal & Financial Agents, Department of the Treasury, 1500 Pennsylvania Avenue,

NW., Washington, DC 20220, 202-927-9445 or at Ted.Kowalsky@do.treas.gov.

SUPPLEMENTARY INFORMATION: The Department established HAMP, pursuant to the Emergency Economic Stabilization Act of 2008 (Pub. L. 110-343) (the “EESA”), to enable eligible homeowners who have a record of making timely mortgage payments, but are experiencing hardships in doing so, to modify the principal amounts and interest rates of their mortgage loans. This new System of Records will provide Treasury and its Financial Agents with access to certain information about mortgage borrowers and their respective home mortgage loans that is necessary to administer the HAMP.

Comments were received from one submitter in response to the proposed Privacy Act notice. Minor changes have been made to the proposed Privacy Act Notice in light of these comments. The Department does not believe that these modifications impact the original effective date for this notice (September 14, 2009), or the active implementation of this System of Records. Accordingly, we are publishing this Final Notice of a Privacy Act System of Records. This Final Notice also includes several new HAMP production and backup system locations which are managed by or on behalf of the Federal National Mortgage Association (“Fannie Mae”) and the Federal Home Loan Mortgage Corporation (“Freddie Mac”), both of which have been designated as Financial Agents of the Department.

The Department received comments from one submitter concerning thirteen of the fifteen routine uses set forth in the proposed system of records, the “Home Affordable Modification Program Records—Treasury/DO.” These comments generally expressed concern that the routine uses for the proposed System of Records were too broadly defined and would unduly invade the privacy of HAMP applicants. The submitter also suggested that the Department should seek express written consent from loan modification applicants before making any use of personally identifiable information (“PII”) in execution of the HAMP. No comments were received regarding routine uses (1), (8), (12) or (15).

In addressing these comments, it is important to note first that the HAMP is a Department program aimed at incentivizing mortgage servicers to modify borrower loans, thereby reducing the financial burden on millions of homeowners across the United States. The majority of the routine use clauses in this System of

Records Notice are aimed at disclosing borrower information in an effort to effectively manage and appropriately monitor the performance of loan servicers in meeting their obligations under the HAMP program. Notably, in order to participate in the HAMP, all borrowers must agree to a mandatory consent provision which expressly authorizes the disclosure of information to Fannie Mae, Freddie Mac, the Department, and entities related to the HAMP program.

After careful consideration of the comments received, the Department concludes that routine uses (2), (4), (6), (7), (9), (11), and (14) will remain unchanged. The Department believes that these routine uses are consistent with the statutory authority of the Department of the Treasury to carry out the HAMP consistent with its mandate under the EESA. Additionally, routine use (4) is required by the Office of Management and Budget (“OMB”) for all agency systems of records, as set forth in OMB’s supplementary guidance issued on November 21, 1975.

With regard to routine use (14), the Department believes that this routine use is consistent with the policies and requirements established by OMB in OMB Memorandum M-07-16, “Safeguarding Against and Responding to the Breach of Personally Identifiable Information [PII],” dated May 22, 2007. This OMB memorandum directs each federal agency to develop and publish a routine use in order to be able to disclose information regarding a breach to individuals affected by it, as well as to persons and entities that are in a position to assist the agency in preventing or minimizing any harm from a breach. The language of routine use (14) is identical to the language set forth in OMB’s memorandum. In addition to publishing the routine use, agencies are also required to implement the processes outlined in M-07-16 by establishing an agency response team consisting of senior officials. We also note that OMB Memorandum M-06-19, “Reporting Incidents Involving Personally Identifiable Information and Incorporating the Cost for Security in Agency Information Technology Investments,” instructs agencies to report incidents involving PII to the U.S. Computer Emergency Readiness Team within one hour of discovering the incident and advises agencies not to distinguish between actual and suspected incidents. The Department needs to be able to share information about a breach with appropriate persons and entities in order to mitigate the harmful effects of the unauthorized disclosure of confidential or private
