Background and Summary

Purpose

NIFA is considering releasing the
Request for Applications (RFAs) for all
three Tribal College Programs on the
same day in mid December 2009 with
the due date for application submission
on the same day in early March 2010.
The peer review panel for each of the
programs will be conducted during
early May 2010. For existing grantees,
the RFA will request all applicants
provide evidence of a college plan or
roadmap showing that active projects
funded through any of the three 1994
Tribal Colleges programs are being
utilized in a coordinated manner within
the college's land grant office or mission
area. In addition, existing grantees will
be asked to numerically indicate any
recruiting, retention, course or degree
enrollments, internships, outreach
clients or graduation rates, or other
indicators of program activity in the
food and agriculture initiatives
supported by active grants from the
aforementioned programs.

The purpose of the grant programs is
designed to build the land-grant
capability in institutional teaching,
research, and extension capacities of the
eligible institutions in the following
three major goals:

(1) To advance cultural diversity of
the food and agricultural scientific and
professional work force by attracting
and educating more students from
underrepresented groups;

(2) To strengthen linkages among the
1994 Institutions, other colleges and
universities, USDA, and private
industry; and

(3) To enhance the quality of teaching,
research, and extension programs at the
1994 Institutions to enable them to
better serve their students and
communities by building capacity to
provide science based information and
decision making to solve problems and
take advantage of opportunities—thus
establishing them as relevant partners in
the U.S. food and agricultural sciences
higher education system.

In developing the FY 2010 1994
Tribal College RFAs, NIFA plans to
consider all stakeholder input and the
written comments received in response
to this notice.
