

In the second report the Commission will compare the exporting activity of SMEs in the United States and the European Union, identify barriers to exporting noted by U.S. SMEs and strategies used by SMEs to overcome special constraints and reduce trade costs, and identify the benefits to SMEs from increased export opportunities including those arising from free trade agreements and other trading arrangements. The USTR requested that the Commission transmit this report by July 6, 2010.

In the third report the Commission will, among other things, examine U.S. SMEs engaged in providing services, including the characteristics of firms that produce tradable services, growth in services exports, and the differences between SME and large services exporters. It will also examine U.S. goods and services exports by SMEs and identify trade barriers that may disproportionately affect SME export performance, as well as possible linkages between exporting and SME performance. In addition, the report will identify how data gaps might be overcome to enhance our understanding of SMEs in service sector exports. The USTR requested that the Commission transmit this report by October 6, 2010.

**Public Hearing:** The Commission does not plan to hold a public hearing in connection with this investigation, but expects to hold one or more hearings in the course of preparing the second and/or third reports. The time and place of those hearings will be announced at a later date.
