Title: Exchange Network Grants Progress Report (Renewal).

ICR Numbers: EPA ICR No. 2207.03, OMB Control No. 2025-0006.

ICR Status: This ICR is scheduled to expire on November 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, are listed in 40 CFR part 9 and are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable.

Abstract: This notice announces the collection of information related to the U.S. EPA Environmental Information Exchange Network (EIEN) Grant Program. The EPA Office of Environmental Information provides funding to EPA's Exchange Network partners: states, territories, and federally recognized Indian tribes to support the development of the EIEN. The EIEN is an Internet and-standards-based, secure information system that supports the electronic collection, exchange, and integration of data among its partners. Funding for the Grant Program has been

provided through annual congressional appropriations for the EPA.

To enhance the quality and overall public benefit of the Network, EPA proposes to collect information from the EIEN grantees about how they intend to ensure quality in their projects and the environmental outcomes and outputs from their projects. The proposed Quality Assurance Report is intended to provide a simple means for grant recipients to describe how quality will be addressed throughout their projects. The Administrative Terms and Conditions that accompany the grant provide guidance on how to prepare the Quality Assistance Report. As a stipulation of their award, grant recipients are to submit the report within ninety days of grant award.

Grantees are currently required to submit semi-annual progress reports as a stipulation of their award. In these reports, grantees outline project goals, activities required to meet these goals, and outputs and outcomes of activities to date.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1.5 hours for the Semi-Annual Report Form per response and 1 hour per Quality Assurance Form per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements that have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: State, Tribal, and Territorial Environmental Offices receiving EIEN grants.

Estimated Number of Respondents: 225.

Frequency of Response: Twice for the Semi-Annual Report Form; Once for the Quality Assurance Form.

Estimated Total Annual Hour Burden: 733.

Estimated Total Annual Cost: \$37,000 includes \$0 annualized capital or O&M costs and \$37,000 annual labor costs.

Dated: October 23, 2009.

Title: Emission Guidelines for Large Municipal Waste Combustors Constructed on or before September 20, 1994 (Renewal).

ICR numbers: EPA ICR No. 1847.05, OMB Control No. 2060-0390.

ICR status: This ICR is scheduled to expire on November 30, 2009. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and are displayed either by

publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The ICR is a renewal of current data collection and reporting requirements for large municipal waste combustors (MWC)s subject to 40 CFR part 60, subpart Cb emission guidelines. The subpart Cb guidelines are maximum achievable control technology (MACT) based standards that were adopted in 1995 and were fully implemented by year 2000. The data collected by the ICR are intended to monitor the compliance status of large MWCs subject to these MACT standards. The data collection is a mandatory requirement (Clean Air Act section 114(a)(1)).

The emission guidelines require initial notifications, performance tests, and periodic reports. Owners or operators of large MWCs also are required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Owners or operators of large MWCs must maintain all files for least five years.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 1,725 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Large Municipal Waste Combustors.

Estimated Number of Respondents: 81.

Frequency of Response: Annual, semiannual.

Estimated Total Annual Hour Burden: 394,954.

Estimated Total Annual Cost: \$50,588,150, which includes labor costs
