Title, Associated Form; and OMB Number: Industrial Capabilities Questionnaire; DD Form 2737; OMB Number 0704-0377.

Needs and Uses: As part of its responsibilities to facilitate a diverse, responsive, and competitive industrial base, the Department of Defense (DoD) requires accurate, pertinent, and up to date information as to industry's ability to satisfy defense needs. The Industrial Capabilities Questionnaire will be used by all Services and the Defense Logistics Agency to gather business, industrial capability (employment, skills, facilities, equipment, processes, and technologies), and manufactured end item information to conduct required industrial assessments and to support DoD strategic planning and decisions. Such data is essential to the Department of Defense for peacetime and wartime industrial base planning. All DD Form 2737 data submitted to the Department of Defense, Military Services or Defense Agencies are treated as Proprietary Company Confidential information and protected from release to other parties.

Affected Public: Business or other for-profit.

Annual Burden Hours: 12,800.

Number of Respondents: 153,600.

Responses per Respondent: 1.

Average Burden per Response: 12 hours.

Frequency: Annually.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are industry professionals who provide information to the requesting DoD agency on the industrial capabilities associated with the subject facility being reviewed. The DoD agencies were directed to solicit only those data elements within this form necessary to conduct the particular planning or assessment task at hand. This approach is used to minimize the burden for data requests on industry and limit the retention of in-house data to that essential to supporting defense decisions and plans. A significant portion of this information will be collected electronically and, with appropriate measures to protect sensitive data, will be made available to authorized users in the Department to support a wide variety of industrial

capability analyses. These analyses are used to support cost effective acquisition of defense systems and key troop support/consumable items, assess the implications of changes in defense spending on industry, development of responsive logistics support efforts, and industrial preparedness planning and readiness analyses. The lack of accurate, current and relevant industry capability information will adversely impact the integrity of the Department's decisions and planning efforts.

Proposed Collection; Comment Request

AGENCY: Office of the Under Secretary of Defense (Personnel and Readiness), DoD.

ACTION: Notice.

In compliance with Section 3506(c)(2)(A) of the *Paperwork Reduction Act of 1995*, the Office of the Under Secretary of Defense (Personnel and Readiness) announces the following proposed extension of a public information collection and seeks public comment on the provisions thereof. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by January 4, 2010.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *Mail:* Federal Docket Management System Office, 1160 Defense Pentagon, Washington, DC 20301-1160.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the Office of the Under Secretary of Defense (Personnel and Readiness) (Military Community and Family Policy) Office of Communication, *Attn:* Isabel Hodge, 4000 Defense Pentagon Rm 2E335, Washington, DC 20301-4000 or call at (703) 697-2476.

Title, Associated Form, and OMB Control Number: Exceptional Family Member Program, Family Member Medical Summary Form; DD Form 2792 and Special Education/Early Intervention Summary Form; DD Form 2792-1; OMB Control Number 0704-0411.

Needs and Uses: This information collection requirement is necessary to screen members of military families to determine if they have special medical or educational conditions so that these conditions can be taken into consideration when the Service member is being assigned to a new location with his/her family. The information is used by the personnel system to identify special considerations for future assignments. The DD Form 2792, *Family Member Medical Summary*, associated with this information collection, will also be used by civilian personnel offices to identify family members of civilian employees who have special needs in order to advise the civilian employee of the availability of service in the location where they will be potentially employed. Local and state school personnel will complete DD Form 2792-1, *Special Education/Early Intervention Summary*, for children requiring special educational services. The DD Form 2792 and DD Form 2792-1 is also used by TRICARE Managed Care Support Contractors to support a family member's application for further entitlements, and other Service-specific programs that require registration in the Exceptional Family Member Program.

Affected Public: Individuals or households; State, local or tribal government.

Annual Burden Hours: 15,909.
Number of Respondents: 35,360.
Responses per Respondent: 1.
Average Burden Per Response: 30 minutes.

Frequency: Tri-annually.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The Military Departments of the Department of Defense screen all family members prior to a Service member and Federal employee being assigned to an overseas location and to some assignments in the United States. DD Form 2792, *Family Member Medical Summary*, and/or DD Form 2792-1, *Special Education/Early Intervention Summary*, will be completed for family members who have been identified with a special medical and/or educational need to document the medical and/or educational needs and service requirements. Their needs will be matched to the resources available at the overseas location to determine the feasibility of receiving appropriate services in that location. The information is used by the Military Service's personnel offices for purposes of assignment only. DD Form 2792 and/or DD 279201 will also be completed for family members of civilian employees to document their special health and/or educational needs in order to advise the civilian employee of the availability of the needed services. The DD Form 2792 and DD Form 2792-1 is also used by TRICARE Managed Care Support Contractors to support a family member's application for further entitlements, and other Service-specific programs that require registration in the Exceptional Family Member Program.

Title; Associated Form; and OMB Number: Retired Troops to Nurse Teachers Survey; OMB Control Number 0720-TBD.

Needs and Uses: The 2008 National Defense Authorization Act (Conference Report) gives impetus to this study, which calls for an evaluation of the provision in the Troops to Nurse Teachers (TNT) Act of 2008. Specifically, DoD will examine the feasibility and merits of this

congressional proposal that outlines a program to encourage former military nurses to take faculty positions in nursing schools, for the purpose of encouraging more nurse graduates to consider military service. The Department will survey military nurses who are on active duty but close to retirement eligibility (20 years of service), or recently retired. The primary purpose of collecting data from this group is to determine what factors would attract a retiree to teach nursing. The survey will also cover civilian nursing school students to determine what incentives might entice them to seek positions in the military.

Affected Public: Individuals or households.

Annual Burden Hours: 576.

Number of Respondents: 1,744.

Responses per Respondent: 1.

Average Burden per Response: .33 (20 minutes).

Frequency: One Time.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

The purpose of this study is to respond to the 2008 National Defense Authorization Act (Conference Report) to evaluate the provision in the Troops to Nurse Teachers (TNT) Act 2008 that encourages retired military nurses to become nurse educators. This study gives impetus for a one-time and voluntary data collection effort that yields timely and objective information that can be used to help inform DoD policy makers about the critical need for increasing and maintaining the supply of military nurses. Specifically, the study will examine the feasibility and merits of the Congressional proposal to create incentives for former military nurses to take faculty positions in nursing schools, for the purpose of encouraging more nurse graduates to consider military service. In doing so, the study will evaluate the retired nursing provision in the context of the broader issue of military nurse supply. RAND will survey military nurses who are on active duty but close to retirement eligibility (20 years of service), or recently retired. The primary purpose of collecting data from this group is to determine what factors would attract a retiree to teach nursing. The process will also involve a survey of current civilian nursing school students who are in their last year of an accredited BSN degree program, and are eligible to enter the military upon graduation. The primary purpose for collecting data from students is to explore what factors may or may not influence them to join the military,
