Nasdaq notes that similar functionality has previously [sic] approved for other markets.<sup>7</sup>

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

Nasdaq does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, as amended.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

No written comments were either solicited or received.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) by its terms does not become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>8</sup> and Rule 19b-4(f)(6) thereunder.<sup>9</sup>

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative for 30 days after the date of filing. However, Rule 19b-4(f)(6)(iii) permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission

<sup>8</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>9</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to provide the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has fulfilled this requirement.

waive the 30-day operative delay so that the benefits of this functionality to Nasdaq market participants expected from the rule change can be implemented on or about November 2, 2009, when the Exchange expects to have the technological changes in place to support the proposed rule change. The Commission believes that waiving the 30-day operative delay<sup>10</sup> to make this functionality available on November 2, 2009 is consistent with the protection of investors and the public interest. The Commission notes that the proposal is similar to rules of other exchanges.<sup>11</sup> Therefore, the Commission designates the proposal operative on November 2, 2009.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

#### 4757. Book Processing

System orders shall be executed through the Book Process set forth below:

(1)–(2) No Change.

(3) Exception: Anti-Internalization—Market participants may direct that quotes/orders entered into the System not execute against quotes/orders entered under the same MPID. In such a case, *a market participant may elect from the following options;*

(i) if the interacting quotes/orders from the same MPID are equivalent in size, both quotes/orders will be cancelled back to their entering parties. If the interacting quotes/orders from the same MPID are not equivalent in size, share amounts equal to size of the smaller of the two quotes/orders will be cancelled back to their originating parties with the remainder of the larger quote/order being retained by the System for potential execution[.]; or (ii) *regardless of the size of the interacting quotes/orders, cancelling the oldest of them in full.*

(b) No Change.

(c) No Change.

### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the

proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

#### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

##### 1. Purpose

The Exchange is proposing to provide an additional alternative to its voluntary anti-internalization functionality. Under the proposal, market participants will be given an additional option when entering quotes and orders using the same market participant identifier ("MPID") that they do not wish to have automatically interact with each other in the System. This option will direct the System to not execute any part of the interacting quotes/orders from the same MPID and, instead, cancel the oldest of the interacting quotes/orders back to the entering party.

Anti-internalization processing is available only on an individual MPID-wide basis with only a single option being allowed per MPID. Market participants direct that a particular version of anti-internalization processing be applied to a particular MPID, which is then applied by the system to all quotes/orders entered using that MPID.

Anti-internalization functionality is designed to assist market participants in complying with certain rules and regulations of the Employee Retirement Income Security Act ("ERISA") that preclude and/or limit managing broker-dealers of such accounts from trading as principal with orders generated for those accounts. It can also assist market participants in reducing execution fees potentially resulting from the interaction of executable buy and sell trading interest from the same firm. The Exchange notes that use of the functionality does not relieve or otherwise modify the duty of best execution owed to orders received from public customers. As such, market participants using anti-internalization functionality will need to take appropriate steps to ensure that public customer orders that do not execute because of the use of anti-internalization functionality ultimately receive the same execution price (or better) they would have originally obtained if execution of the order was not inhibited by the functionality.

##### 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,<sup>5</sup> in general, and with Sections [sic] 6(b)(5) of the Act,<sup>6</sup> in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. The Exchange notes that similar functionality has previously [sic] approved for other markets.<sup>7</sup>

#### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act, as amended.

#### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

### III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change: (1) Does not significantly affect the protection of investors or the public interest; (2) does not impose any significant burden on competition; and (3) by its terms does not become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest, the proposed rule change has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>8</sup> and Rule 19b-4(f)(6) thereunder.<sup>9</sup>

<sup>8</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>9</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to provide the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has fulfilled this requirement.

<sup>3</sup> 17 CFR 240.19b-4(f)(6).

<sup>4</sup> Changes are marked to the rules of NASDAQ OMX BX, Inc. found at: <http://nasdaqomxbx.cchwallasstreet.com>.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative for 30 days after the date of filing. However, Rule 19b-4(f)(6)(iii) permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the 30-day operative delay so that the benefits of this functionality to Exchange market participants expected from the rule change can be implemented on or about November 2, 2009, when the Exchange expects to have the technological changes in place to support the proposed rule change. The Commission believes that waiving the 30-day operative delay<sup>10</sup> to make this functionality available on November 2, 2009 is consistent with the protection of investors and the public interest. The Commission notes that the proposal is similar to rules of other exchanges.<sup>11</sup> Therefore, the Commission designates the proposal operative on November 2, 2009.

At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
