

Description: Supplement to Section 204 Application of Midwest Independent Transmission System Operator, Inc.

Filed Date: 10/28/2009.

Accession Number: 20091028-5087.

Comment Date: 5 p.m. Eastern Time on Monday, November 09, 2009.

Take notice that the Commission received the following open access transmission tariff filings:

Docket Numbers: OA08-81-002.

Applicants: NorthWestern Corporation.

Description: NorthWestern Corporation submits an errata to its 9/18/09 filing in compliance with the FERC 9/3/09 Letter Order etc.

Filed Date: 10/22/2009.

Accession Number: 20091026-0288.

Comment Date: 5 p.m. Eastern Time on Thursday, November 12, 2009.

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They

are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Nathaniel J. Davis, Sr.,

Deputy Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EL10-7-000]

Power and Water Resources Pooling Authority, Complainant v. Pacific Gas and Electric Company, Respondent; Notice of Complaint

October 29, 2009.

Take notice that on October 21, 2009, the Power and Water Resources Pooling Authority (PWRPA) filed a formal complaint against Pacific Gas and Electric Company (PG&E) pursuant to section 206 of the Federal Power Act, 16 U.S.C. 824e, and Rule 206 of the Commission's Rules of Practice and Procedure, 18 CFR 385.206, alleging that PG&E has unjustifiably refused to provide wholesale distribution service to PWRPA, an eligible customer under PG&E's open-access Wholesale Distribution Tariff on file with the Commission. PWRPA requests fast-track processing of the complaint and seeks an order requiring PG&E to provide an interconnection and wholesale distribution service for delivery of power to one of PWRPA's retail customers, Glenn-Colusa Irrigation District, not later than January 1, 2010.

PWRPA certifies that copies of the complaint were served on the contacts for PPG&E as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer

and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on November 10, 2009.

Kimberly D. Bose,

Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 10828-007]

Fairfax County Water Authority; Notice of Availability of Final Environmental Assessment

October 29, 2009.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879), the Commission has reviewed an application, filed January 15, 2009, to surrender the project license for the Occoquan River Hydroelectric Project, FERC Project No. 10828. The Environmental Assessment (EA) analyzes the environmental impacts of the proposed license surrender, decommissioning of hydroelectric facilities, and various dam safety related repairs, and concludes that approval of the application, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the

human environment. The project is located on the Occoquan River in Prince William and Fairfax Counties, Virginia.

The EA was written by staff in the Office of Energy Projects, Federal Energy Regulatory Commission (Commission). A copy of the EA is attached to a Commission order titled "Order Modifying and Accepting Surrender of License" issued October 29, 2009, and is on file with the Commission and available for public inspections. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3372, or for TTY, (202) 502-8659.

Kimberly D. Bose,
Secretary.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Office of Energy Efficiency and Renewable Energy

Fuel Storage Performance Requirements for Early Market Cell Applications

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy (DOE).

ACTION: Notice of request for information; notice of public meeting.

SUMMARY: The U.S. Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy (EERE) has issued a Request for Information (RFI) seeking input from prospective fuel cell system users, fuel cell component and system suppliers and other stakeholders on performance and cost requirements for fuel storage subsystems for near-term, early market fuel cell applications (e.g., for mobile applications such as fork lifts, stationary back-up power, portable power, etc). This RFI is intended to be "fuel neutral" with the focus on defining the fuel storage needs and requirements for early market fuel cell applications to facilitate successful market transformation in a competitive environment. This information will be used by DOE in a preliminary assessment and ultimate determination of the storage system performance requirements. A public Workshop on the same topic will be held the afternoon of November 16th, in

conjunction with the Fuel Cell Seminar, Nov 16-20, Palm Springs, CA.

DATES:

- *November 16, 2009—DOE Workshop: Fuel Storage Performance Requirements for Early Market Fuel Cell Applications*

- *December 15, 2009—Deadline for Responses to This RFI*

ADDRESSES: The RFI is posted on: http://www1.eere.energy.gov/hydrogenandfuelcells/news_detail.html?news_id=1556.

Responses and questions may be submitted to

StorageTargets2009@ee.doe.gov.

The DOE Workshop on Fuel Storage Performance Requirements will be the afternoon of November 16, 2009 in conjunction with the Fuel Cell Seminar to be held at the Palm Springs Convention Center and associated hotels, Palm Springs, CA, USA.

FOR FURTHER INFORMATION CONTACT: Dr. Sara Dillich, Hydrogen Storage Team Lead, Fuel Cells Technologies Program; EE-2H; 1000 Independence Ave., SE.; Washington, DC 20585; (202) 586-9995. More information on DOE's hydrogen storage program, targets and current research information can be found at <http://www1.eere.energy.gov/hydrogenandfuelcells/storage/>.

SUPPLEMENTARY INFORMATION:

Background

The EERE Fuel Cell Technologies Program seeks to advance the development and deployment of fuel cells for power generation in a variety of stationary, portable, and transportation applications. In support of this goal, EERE funds a broad range of hydrogen and fuel cell technologies research, development and demonstration (RD&D) activities.

The Program is currently working to identify appropriate performance and cost requirements for fuel storage subsystems for near-term, early markets for fuel cells. The requirements will be driven by consumer/user expectations for the various applications, rather than by the operating parameters or constraints of specific technologies. Cost and performance requirements and their accompanying time-based targets will be set with industry and market input and will help guide the RD&D required for improvements in physical storage systems and/or solid state storage materials, designs, and systems.

RFI Guidelines

Comments in response to this RFI must be provided as an attachment to an e-mail message addressed to StorageTargets2009@ee.doe.gov. All

responses to this RFI should be delivered electronically to the aforementioned e-mail address using Microsoft Word (.doc) format and/or the fillable table. DOE would prefer that responses to this RFI, in addition to those provided in the fillable table, be no more than one page in length *per each application category* with a five page total maximum. Commercial product descriptions, marketing information and technical presentations/publications should not be included in response to this RFI.

According to 10 CFR 1004.11, any person submitting information that he or she believes to be confidential and exempt by law from public disclosure should submit two copies: one copy of the document including all the information believed to be confidential, and one copy of the document with the information believed to be confidential deleted. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Disclaimer

DOE will not reimburse costs associated with preparing any documents for this RFI. Note that the intent of this RFI is to provide an opportunity for stakeholders to submit input on targets, and will not lead directly to a Funding Opportunity Announcement.

For more information about the DOE Fuel Cell Technologies Program and related storage activities visit the Program's Web site at <http://www.hydrogen.energy.gov> and <http://www.eere.energy.gov/hydrogenandfuelcells>.

Issued in Washington, DC on November 2, 2009.

Sunita Satyapal,

Acting Program Manager, DOE-EERE Fuel Cell Technologies Program.
