**Greenville Metals, Inc., Powder
Division, Transfer, PA; Notice of
Affirmative Determination Regarding
Application for Reconsideration**

By application dated October 19, 2009, a petitioner requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on September 28, 2009. The Notice of Determination will soon be published in the **Federal Register**.

The initial investigation resulted in a negative determination based on the finding that imports of powdered metals did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred.

In the request for reconsideration, the petitioner provided additional information regarding customers of the subject firm and imports of powdered metals.

The Department has carefully reviewed the request for reconsideration and the existing record and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 20th day of October 2009.

for Reconsideration**

By application dated September 30, 2009, the petitioners requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on September 10, 2009. The Notice of Determination will soon be published in the **Federal Register**.

The investigation revealed that the subject firm did not shift production of solid fragrance compacts to foreign countries during the period under investigation.

In the request for reconsideration, the petitioner alleged that workers of the subject firm also designed and fabricated jewelry master models and that the subject firm shifted production of master models to China.

ACTION: Notice.

SUMMARY: The Department of Labor (DOL), as part of its continuing effort to reduce paperwork and respondent burden conducts a preclearance consultation to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA 95) [44 U.S.C. 3506(c)(2)(A)]. This helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed.

The American Recovery and Reinvestment Act of 2009 (The Recovery Act), Division A, Title VIII, of Public Law 111-5, added a temporary funding increase for an Indian and Native American youth program component, requiring the collection of some additional data elements to ETA Form 9085. In addition, this information must now be collected monthly to properly account for Recovery Act funds.

This notice utilizes standard clearance procedures in accordance with the Paperwork Reduction Act of 1995 and 5 CFR 1320.12. This information collection follows an emergency review that was conducted in accordance with the Paperwork Reduction Act of 1995 and 5 CFR 1320.13. SUPPLEMENTARY INFORMATION:

I. Background

Each Indian and Native American (INA) grantee receiving WIA Section 166 funds to administer the Comprehensive Services Program (CSP) is required to submit a CSP Report (ETA Form 9084) on a quarterly basis.

Grantees receiving WIA Section 166 Supplemental Youth Services Program (SYSP) funds currently submit SYSP Report (ETA Form 9085) semi-annually. However, the request to modify and extend the existing ETA Form 9085 report submitted each quarter by INA grantees is based on the following:

The ETA requires the collection and reporting of data on eligible persons served under the WIA, Section 166 SYSP to assess the performance and delivery of services. The recent release of additional funds under the Recovery Act is intended to serve a greater number of youth and requires the collection and reporting of participant data to evaluate program performance.

INA grantees are now required to submit quarterly participant data reports on all youth served by the SYSP (see Frequency of Reporting below) and to distinguish between youth served with Recovery Act funds and youth served with regular WIA Section 166 funds and report "Recovery Act" youth through a supplemental (monthly) youth report. In this supplemental report, INA grantees report aggregate counts of all Recovery Act youth participants, including the characteristics of participants, the number of participants in summer employment, services received, attainment of a work readiness skill, required by the Recovery Act, and successful completion of summer youth employment.

The Recovery Act made it necessary to create additional fields in ETA Form 9085 because of: (1) A change in eligibility, increasing the age limit to 24; and (2) an emphasis on using funds for summer employment. By aligning Recovery Act with regular program reporting in ETA Form 9085, the grantees are reporting critical information with a minimal additional burden.

Changes to Youth Reporting

Changes made to the SYSP Report (ETA Form 9085) are provided below. Copies of ETA Forms 9084 and 9085 can
