

subject firm manufactured iron casting components for various industries. The Department requested an additional list of customers of the subject firm and conducted a customer survey to determine whether imports of iron casting components negatively impacted employment at the subject firm.

The survey of the subject firm's major declining customers revealed that the customers increased their imports of iron casting components while decreasing purchases from the subject firm from 2007 to 2008.

In accordance with Section 246 the Trade Act of 1974 (26 USC 2813), as amended, the Department of Labor herein presents the results of its investigation regarding certification of eligibility to apply for alternative trade adjustment assistance (ATAA) for older workers.

In order for the Department to issue a certification of eligibility to apply for ATAA, the group eligibility requirements of Section 246 of the Trade Act must be met. The Department has determined in this case that the requirements of Section 246 have been met.

A significant number of workers at the firm are age 50 or over and possess skills that are not easily transferable. Competitive conditions within the industry are adverse.

### Conclusion

After careful review of the additional facts obtained on reconsideration, I conclude that increased imports of articles like or directly competitive with those produced at Belcher-Robinson Foundry, Alexander City, Alabama, contributed importantly to the declines in sales or production and to the total or partial separation of workers at the subject firm. In accordance with the provisions of the Act, I make the following certification:

All workers of Belcher-Robinson Foundry, Alexander City, Alabama, who became totally or partially separated from employment on or after March 30, 2008, through two years from the date of this certification, are eligible to apply for adjustment assistance under Section 223 of the Trade Act of 1974, and are eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed in Washington, DC, this 21st day of October 2009.

**Elliott S. Kushner,**

*Certifying Officer, Division of Trade Adjustment Assistance.*

### NUCLEAR REGULATORY COMMISSION

[Docket No. NRC-2009-0454]

#### Agency Information Collection Activities: Proposed Collection; Comment Request

**AGENCY:** U.S. Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of pending NRC action to submit an information collection request to the Office of Management and Budget (OMB) and solicitation of public comment.

**SUMMARY:** The NRC invites public comment about our intention to request the OMB's approval for renewal of an existing information collection that is summarized below. We are required to publish this notice in the **Federal Register** under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. *The title of the information collection:* NRC Form 664, General Licensee Registration;
2. *Current OMB approval number:* 3150-0198;
3. *How often the collection is required:* Annually;
4. *Who is required or asked to report:* General Licensees of the NRC who possess certain generally licensed devices subject to annual registration authorized pursuant to 10 CFR 31.5.
5. *The number of annual respondents:* 840
6. *The number of hours needed annually to complete the requirement or request:* 280 hours annually (840 respondents x 20 minutes per form).
7. *Abstract:* NRC Form 664 is used by NRC general licensees to make reports regarding certain generally licensed devices subject to annual registration. The registration program allows NRC to better track general licensees, so that they can be contacted or inspected as necessary, and to make sure that generally licensed devices can be
