[Docket No. EL10-8-000]

Town of Edinburg, Indiana, Complainant, v. Indiana Michigan Power Agency, Respondent; Notice of Complaint

November 2, 2009.

Take notice that on October 29, 2009, pursuant to sections 206 and 211A of the Federal Power Act, 16 U.S.C. 824e, and 824j-i, and Rule 206 of the Commission's regulations, 18 CFR 385.206, the Town of Edinburg, (Complainant), filed a formal complaint against the Indiana Municipal Power Agency (Respondent) alleging that the Respondent is in violation of section 211A of the Federal Power Act for failure to charge Complainant a comparable transmission rate and resulting discriminatory overcharges against Complainant of at least \$1.98 million for the period 2003 through 2009.

The Complainant certifies that copies of the complaint were served on the contacts for the Respondent as listed on the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to

become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2144-038—Washington]

City of Seattle, WA; Notice of Designation of Commission Staff as Non-Decisional

November 2, 2009.

Commission staff member James Hastreiter (Office of Energy Projects, 503-552-2760; james.hastreiter@ferc.gov) is hereby designated as "non-decisional" staff and assigned to participate in settlement discussions and provide guidance on the Commission's policies and authorities for the Boundary Hydroelectric Project in the above-referenced proceeding.

As "non-decisional" staff, Mr. Hastreiter will not participate in an advisory capacity in the Commission's review of any offer of settlement or settlement agreement, or deliberations concerning the disposition of the relicense application in the above-referenced proceeding.

Different Commission "advisory staff" will be assigned to review any offer of settlement or settlement agreement, and to process the relicense application, including providing advice to the Commission with respect to the agreement and the application. Non-decisional staff and advisory staff are prohibited from communicating with one another concerning the merits of the settlement and the relicense application.

Kimberly D. Bose,
Secretary.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER10-90-000]

Lonestar Energy Partners LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

October 30, 2009.

This is a supplemental notice in the above-referenced proceeding of Lonestar Energy Partners LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR

Part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC, 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR Part 34, of future issuances of securities and assumptions of liability, is November 19, 2009.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Nathaniel J. Davis, Sr.,
Deputy Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8979-1]

Notice of a Project Waiver of Section 1605 (Buy American Requirement) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the City of Washburn, ND

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The EPA is hereby granting a project waiver of the Buy American requirements of ARRA Section 1605 under the authority of Section 1605(b)(2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality to the City of Washburn, ND for the Zenon ZeeWeed 1000 membrane filter manufactured by General Electric Water & Process Technologies for a capacity of 1.7 MGD. This is a project-specific waiver and only applies to the use of the specified product for the ARRA-funded project being proposed. Any other ARRA project that may wish to use the same product must apply for a separate waiver based on project-specific circumstances. These membrane filters are manufactured in Canada, and meet the City of Washburn's performance specifications and requirements. The Acting Regional Administrator is making this determination based on the review and recommendation of EPA Region 8's Technical & Financial Services Unit. The City of Washburn has provided sufficient documentation to support its request. The Assistant Administrator of the Office of Administration and Resources Management has concurred on this decision to make an exception to Section 1605 of ARRA. This action permits the purchase of the Zenon ZeeWeed 1000 membrane filter for the Surface Water Treatment Plant upgrades being implemented by the City of Washburn that may otherwise be prohibited under Section 1605(a) of the ARRA.

DATES: *Effective Date:* October 23, 2009.

FOR FURTHER INFORMATION CONTACT: Jody Ostendorf, ARRA Coordinator, (303) 312-7814, or Brian Friel, SRF Coordinator, (303) 312-6277, Technical & Financial Services Unit, Water Program, Office of Partnerships & Regulatory Assistance, U.S. EPA Region 8, 1595 Wynkoop St., Denver, CO 80202.

SUPPLEMENTARY INFORMATION: In accordance with ARRA Section 1605(c) and pursuant to Section 1605(b)(2) of Public Law 111-5, Buy American requirements, EPA hereby provides notice that it is granting a project waiver to the City of Washburn for the Zenon ZeeWeed 1000 model of submerged membranes which are manufactured in Canada.

Section 1605 of the ARRA requires that none of the appropriated funds may be used for the construction, alteration, maintenance, or repair of a public building or public work unless all of the iron, steel, and manufactured goods used in the project are produced in the United States, or unless a waiver is provided to the recipient by the head of the appropriate agency, in this case EPA. A waiver may be provided if EPA determines that (1) applying these requirements would be inconsistent with the public interest; (2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron, steel, and the relevant manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

This manufactured good will be used as part of the City of Washburn's Surface Water Treatment Plant renovation. The City of Washburn states that only ZeeWeed 1000 submerged membranes meet the specific needs of this project. Because this is a renovation of an existing facility, the specifications appropriately require a technology that can be retrofitted to the existing filter basin. The City provided a copy of the contractor's specifications that state the product must be manufactured by Zenon Environmental, Inc. or equivalent because this reflects the parameters of the existing filter basin as to the technology being replaced, and the product must also meet certain performance standards for pH, turbidity, temperature, alkalinity, hardness, sodium, sulfate, chloride, iron and manganese.

The City also provided a letter from an engineer with the State of North Dakota asserting a lack of domestic alternatives to the Zenon ZeeWeed 1000 submerged membranes. The letter states, "that the Zenon ZeeWeed 1000 membrane filter will be required to be used in Washburn and Valley City water treatment plant renovations because:

1. The Washburn and Valley City water treatment plant renovation projects will be using the existing infrastructure (existing filter bays) which require using the compact
