What is the purpose of this Advance Notice of Proposed Rulemaking (ANPRM)?

This ANPRM gives you an opportunity to send us comments and suggestions on whether and how we might update and revise the listings and other criteria in sections 10.00 and 110.00 for evaluating impairments that affect multiple body systems. We last published final rules revising the criteria that we use to evaluate impairments that affect multiple body systems on August 30, 2005. 70 FR 51252. We are publishing this ANPRM as part of our ongoing effort to ensure that our criteria reflect the latest advances in medicine.

On which rules are we inviting comments and suggestions?

You can find our current rules on which we are inviting comments and suggestions on the Internet at the following locations:

- Sections 10.00 and 110.00 are in the Listing of Impairments in appendix 1 to subpart P of part 404 of our regulations at http://www.ssa.gov/OP_Home/cfr20/404/404-ap10.htm or at <http://www.ssa.gov/disability/professionals/bluebook/>.

Who should send us comments and suggestions?

We invite comments and suggestions from people who apply for or receive benefits from us, members of the general public, advocates and organizations who represent people who have impairments that affect multiple body systems, State agencies that make disability determinations for us, experts in the evaluation of impairments that affect multiple body systems, and researchers.

What should you comment about?

We are interested in any comments and suggestions on how we might revise sections 10.00 and 110.00 of our listings. For example, we are interested in knowing if:

- You have concerns about any of the provisions in the current impairments that affect multiple body systems listings, such as whether you believe we should change any of our criteria or whether you believe a listing is difficult to use or to understand.
- You would like to see our impairments that affect multiple body systems listings include something that

is not currently included, such as other impairments, additional medical technologies, specific laboratory studies, or new medical criteria.

- You believe our impairments that affect multiple body systems listings should include functional criteria and what those criteria should be.

Will we respond to your comments from this notice?

We will not respond directly to the comments you send in response to this ANPRM. After we have considered all comments and suggestions, as well as information about advances in medical knowledge, treatment, and methods of evaluating impairments that affect multiple body systems, and our program experience using the current listings, we will determine whether we should revise any of the listings or other criteria in sections 10.00 or 110.00. If we decide to propose specific revisions, we will publish a Notice of Proposed Rulemaking in the **Federal Register** and you will have a chance to comment on the revisions we propose.
