SUPPLEMENTARY INFORMATION:

Title: 30 CFR 254, Oil-Spill Response Requirements for Facilities Located Seaward of the Coast Line.

OMB Control Number: 1010-0091.

Abstract: The Federal Water Pollution Control Act (FWPCA), as amended by the Oil Pollution Act of 1990 (OPA), requires that a spill-response plan be submitted for offshore facilities prior to February 18, 1993. The OPA specifies that after that date, an offshore facility may not handle, store, or transport oil unless a plan has been submitted. This authority and responsibility are among those delegated to the Minerals Management Service (MMS) by Executive Order 12777. Regulations at 30 CFR 254 establish requirements for spill-response plans for oil-handling

facilities seaward of the coast line, including associated pipelines.

The MMS uses the information collected under 30 CFR 254 to determine compliance with OPA by owners/operators. Specifically, MMS needs the information to:

- Determine effectiveness of the spill-response capability of owners/operators.
- Review plans prepared under the regulations of a State and submitted to MMS to satisfy the requirements to ensure that they meet minimum requirements of OPA.
- Verify that personnel involved in oil-spill response are properly trained and familiar with the requirements of the spill-response plans and to witness spill-response exercises.
- Assess the sufficiency and availability of contractor equipment and materials.
- Verify that sufficient quantities of equipment are available and in working order.
- Oversee spill-response efforts and maintain official records of pollution events.
- Assess the efforts of owners/operators to prevent oil spills or prevent substantial threats of such discharges.

No proprietary, confidential, or sensitive information is collected. However, we will protect any information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and its implementing regulations (43 CFR part 2) and under regulations at 30 CFR parts 250, 251, and 252. Responses are mandatory.

Frequency: On occasion, monthly, annually, biennially, and triennially.

Estimated Number and Description of Respondents: Respondents comprise owners or operators of facilities located in both State and Federal waters seaward of the coast line and oil spill response companies.

Estimated Reporting and Recordkeeping "Hour" Burden: The estimated annual hour burden for this information collection is a total of 35,070 hours. In calculating the burdens, we assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden.

To comply with the public consultation process, on May 1, 2009, we published a **Federal Register** notice (74 FR 20332) announcing that we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. In addition, 30 CFR 254.9 displays the OMB control number, specifies that the public may comment at anytime on the collection of information required in the 30 CFR 254 regulations, and provides the address to which they should send

comments. We have received no comments in response to those efforts.
