[Public Notice: 6813]

RIN 1400-AC52

Amendment to the International Arms Traffic in Arms Regulations: U.S. Government Transfer Programs and Foreign-Owned Military Aircraft and Naval Vessels

AGENCY: Department of State.

ACTION: Proposed rule.

SUMMARY: The Department of State is proposing to amend Section 126.6 of the International Traffic in Arms Regulations (ITAR) pertaining to U.S. Government transfer programs and foreign-owned military aircraft and naval vessels. Section 126.6 is being amended to clarify the particular circumstances when a license is not required by the Directorate of Defense Trade Controls.

DATES: The Department of State will accept comments on this proposed rule until January 25, 2010.

ADDRESSES: Interested parties may submit comments within 60 days of the date of the publication by any of the following methods:

- *E-mail:*

DDTCResponseTeam@state.gov with an appropriate subject line.

- *Mail:* Department of State, Directorate of Defense Trade Controls, Office of Defense Trade Controls Policy, ATTN: Regulatory Change, 126.6, SA-1, 12th Floor, Washington, DC 20522-0112.

Director Charles B. Shotwell, Office of Defense Trade Controls Policy, Department of State, Telephone (202) 663-2792 or Fax (202) 261-8199; E-mail DDTCResponseTeam@state.gov. ATTN: Regulatory Change, 126.6.

SUPPLEMENTARY INFORMATION: Section 126.6 of the ITAR specifies when a license from the Directorate of Defense Trade Controls is not required for certain specified U.S. Government transfer programs and exports involving foreign-owned military aircraft and naval vessels. The title of this particular section has been changed from “Foreign-owned military aircraft and naval vessels, and the Foreign Military Sales program” to “U.S. Government transfer programs and foreign-owned military aircraft and naval vessels” to more accurately describe its coverage. Section 126.6 is being amended to clarify the particular circumstances when a license is not required by the Directorate of Defense Trade Controls. Current regulatory language was implemented when the U.S. Government executed these programs with mostly U.S. Government personnel. Over the years the U.S. Government, especially the Department of Defense, has expanded operations and migrated to utilization of the Defense Transportation System as well as commercial carriers to, in some instances, fully replace government transportation systems and personnel. As a result, U.S. Customs and Border Protection was unclear as to which programs were U.S. Government programs and, therefore, which items were qualified to be exported from the United States without an associated export license. The proposed changes address this issue. Also, the proposed amendment addresses in more detail the export requirements involving the Foreign Military Sales program and extends the exemption to exports pursuant to section 1206 of the National Defense Authorization Act for Fiscal Year 2006, as amended and extended, or section 1206 of the National Defense Authorization Act for Fiscal Year 2008. It further delineates requirements, authorized periods for license exemptions, documentary requirements, and the applicable terms and conditions relating to the U.S. Government’s transfer and/or loan of defense articles to foreign governments or international organizations.

Applicability of 5 U.S.C. 553 and Executive Order 12866 is under discussion with the Office of Management and Budget.

The applicability of the Regulatory Flexibility Act is contingent on the

applicability of 5 U.S.C. 553, which will be determined at a later time.

Unfunded Mandates Act of 1995

This proposed amendment does not involve a mandate that will result in the expenditure by State, local, and Tribal governments, in the aggregate, or by the private sector, of \$100 million or more in any year and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Therefore, in accordance with Executive Order 13132, it is determined that this amendment does not have sufficient federalism implications to require consultations or warrant the preparation of a federalism summary impact statement. The regulations implementing Executive Order 12372 regarding intergovernmental consultation on Federal programs and activities do not apply to this proposed amendment.

Background and Explanation of Provisions

The proposed amendments to the Treasury Regulations incorporate the 1997 and 1998 amendments to section 7430 of the Internal Revenue Code relating to awards of attorneys fees. These amendments were enacted as part of the Taxpayer Relief Act of 1997, Public Law 105-34, 111 Stat. 788, and the IRS Restructuring and Reform Act of 1998, Public Law 105-206, 112 Stat. 685.

The Taxpayer Relief Act of 1997 (TRA) contained several amendments to section 7430 that are addressed in the proposed amendments to the regulations. First, the TRA provided that a taxpayer has ninety days after the date the IRS mails to the taxpayer a final decision determining tax, interest or penalty, to file an application with the IRS to recover administrative costs. Second, a taxpayer has ninety days after the date the IRS mails to the taxpayer, by certified or registered mail, a final adverse decision regarding an award of administrative costs, to file a petition with the Tax Court. Third, the TRA clarified the application of the net worth requirements by providing that individuals filing joint returns should be treated as separate taxpayers for purposes of determining net worth. The TRA added trusts to the list of taxpayers subject to the net worth requirements and also specified the date on which the net worth determination should be made.

The TRA also added section 7436 to the Code, which gives the Tax Court jurisdiction in certain employment tax cases. Under section 7436, if the IRS determines in connection with an audit that (1) one or more individuals performing services for the taxpayer are employees of the taxpayer or (2) the taxpayer is not entitled to relief from employment taxes under section 530 of the Revenue Act of 1978 with respect to the individual(s), and the IRS sends a Notice of Determination of Worker Classification (NDWC) to the taxpayer by certified or registered mail, the taxpayer may petition the Tax Court to determine (1) whether the IRS's determination, as set forth in the NDWC, is correct and (2) the proper amount of employment tax under the determination. Various restrictions on

assessment and collection in section 6213 apply to a section 7436 proceeding in the same manner as if the NDWC were a notice of deficiency. Section 7436(d)(2) provides that section 7430 applies to proceedings brought under section 7436.

The proposed amendments reflect the changes outlined in this preamble. Additional clarifying changes address the calculation of net worth. First, the regulation specifies that net worth will be calculated using the fair market value of assets to provide a more accurate assessment of a taxpayer's actual and current net worth as of the administrative proceeding date. Second, the regulation specifies which net worth and size limitations apply when a taxpayer is an owner of an unincorporated business. Third, the regulation has been amended to clarify the net worth requirement in cases involving partnerships subject to the unified audit and litigation procedures of sections 6221 through 6234 of the Code (the TEFRA partnership procedures).

The IRS Restructuring and Reform Act of 1998 (RRA) also contained several amendments affecting section 7430. First, the RRA increased the hourly rate limitation from \$110 per hour to \$125 per hour. Second, two special factors were added that may be considered to increase an attorney's hourly rate: Difficulty of the issues presented and local availability of tax experts. Third, the RRA added a provision that requires a court to consider whether the IRS has lost cases with substantially similar issues in other circuit courts of appeal in deciding whether the IRS's position was substantially justified. Fourth, the RRA created an exception to the requirement that to recover attorneys fees, the taxpayer must have paid or incurred the fees. The exception provides that if an individual who is authorized to practice before the Tax Court or the IRS is representing the taxpayer on a *pro bono* basis, then the taxpayer may petition for an award of reasonable attorneys fees in excess of the amounts that the taxpayer paid or incurred, as long as the fee award is ultimately paid to the individual or the individual's employer. Fifth, the period for recovery of reasonable administrative costs was extended to include costs incurred after the date on which the first letter of proposed deficiency, commonly known as a 30-day letter, is mailed to the taxpayer. The regulations clarify, however, that a taxpayer may be eligible to recover reasonable administrative costs from the date of the 30-day letter only if at least one issue (other than recovery of
