

Hospitals). However, the actual cost to each respondent varies due to the type of respondent (hospital versus CPSC contractor), size of hospital, and regional differences in wages and overhead. Therefore, the actual annual cost for any given respondent may vary between \$2,600 at a small rural hospital and \$75,000 at a large metropolitan hospital which are compensated by the CPSC.

The Commission staff also obtains information about incidents involving consumer products from approximately 17,415 persons annually. The staff conducts face-to-face interviews at incident sites with approximately 915 persons each year. On average, an on-site interview takes approximately 5 hours. The staff will also conduct approximately 3,500 in-depth investigations by telephone. Each in-depth telephone investigation requires approximately 20 minutes. Additionally, the Commission's hotline staff interviews approximately 4,000 persons each year about incidents involving selected consumer products. These interviews take an average of 10 minutes each. Each year, the Commission also receives information from about 9,000 persons who complete forms requesting information about product-related incidents or injuries. These forms appear on the Commission's Internet Web site, <http://www.cpsc.gov>, and are printed in the *Consumer Product Safety Review* and other Commission publications. The staff estimates that completion of a form takes about 12 minutes.

The Commission staff estimates that this collection of information imposes a total annual burden of 7,724 hours on all respondents: 4,118 hours for face-to-face interviews; 1,155 hours for in-depth telephone interviews; 661 hours for responses to Hotline interviews; and 1,790 hours for completion of written forms.

The Commission staff estimates the value of the time of respondents to this collection of information at \$29.31 per hour (Bureau of Labor Statistics, June 2009, Total Compensation, All workers). At this valuation, the estimated annual cost to the public of this information collection will be approximately \$226,390.

The annual cost to the Federal government for this collection of information is estimated to be approximately \$6.4 million per year. This estimate includes \$1.5 million in compensation to NEISS respondents. The estimate also includes approximately \$4.9 million for 354 professional staff months to oversee NEISS operation, prepare

questionnaires, interviewer guidelines, and other instruments and instructions used to collect the information, conduct face-to-face and telephone interviews; and evaluate responses obtained from interviews and completed forms. Each staff month is estimated to cost the Commission approximately \$13,859. This is based on an average wage rate of \$55.97 (the equivalent of a GS-14 Step 5 employee) with an addition 30 percent added for benefits (Bureau of Labor Statistics, June 2009, percentage total benefits for all civilian management, professional, and related employees).

C. Request for Comments

The Commission solicits written comments from all interested persons about the proposed collection of information. The Commission specifically solicits information relevant to the following topics:

- Whether the collection of information described above is necessary for the proper performance of the Commission's functions, including whether the information would have practical utility;
- Whether the estimated burden of the proposed collection of information is accurate;
- Whether the quality, utility, and clarity of the information to be collected could be enhanced; and
- Whether the burden imposed by the collection of information could be minimized by use of automated, electronic or other technological collection techniques, or other forms of information technology.

Dated: November 24, 2009.

Todd A. Stevenson,
Secretary, Consumer Product Safety Commission.

The Honorable Nancy Pelosi
Speaker
U.S. House of Representatives
Washington, DC 20515

Dear Madam Speaker:

Pursuant to the reporting requirements of Section 36(b)(1) of the Arms Export Control Act, as amended, we are forwarding herewith Transmittal No.09-60, concerning the Department of the Air Force's proposed Letter(s) of Offer and Acceptance to Italy for defense articles and services estimated to cost \$63 million. After this letter is delivered to your office, we plan to issue a press statement to notify the public of this proposed sale.

Sincerely,

Beth M. McCormick
Deputy Director

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATIONItaly – MQ-9 Unmanned Aerial Vehicles

The Government of Italy has requested a possible sale of two unarmed MQ-9 Unmanned Aerial Vehicles (UAVs), one (1) Mobile Ground Control Station, maintenance support, engineering support, test equipment, ground support, operational flight test support, communications equipment, technical assistance, personnel training/equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$63 million.

Italy is a major political and economic power in NATO and a key democratic partner of the United States in ensuring peace and stability around the world.

Italy requests these capabilities to provide for the defense of deployed troops, regional security, and interoperability with the United States. This program will increase Italy's ability to contribute to future NATO, coalition, and anti-terrorism operations that the U.S. may undertake. By acquiring this capability, Italy will be able to provide greater protection for its forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region. Italy will have no difficulty absorbing these additional aircraft into its armed forces.

The principal contractors will be:

General Atomics Aeronautical Systems, Inc.	San Diego, California
Raytheon Space and Airborne Systems	El Segundo, California
General Atomics Lynx Systems	San Diego, California

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Italy.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 09-60

Notice of Proposed Issuance of Letter of Offer
Pursuant to Section 36(b)(1)
of the Arms Export Control Act

Annex
Item No. vii

(vii) Sensitivity of Technology:

1. The MQ-9 Unmanned Aerial Vehicle is Unclassified. The highest level of classified information required for training, operation, and maintenance is Secret. The MQ-9 is a long-endurance, high-altitude, remotely operated aircraft that can be used for surveillance, military reconnaissance, and targeting missions. Real-time missions are flown under the control of a pilot in a Ground Control Station (GCS). A data link is maintained that uplinks control commands and downlinks video with telemetry data. The data link can be a C-Band Line-of-Sight (LOS) communication or Ku-Band Over-the-Horizon Satellite Communication (SATCOM). Autonomous missions are preprogrammed by pilots in the GCS and are flown under the control of an onboard suite of redundant computers and sensors. Payload imagery and data are downlinked to a GCS. A pilot initiates autonomous missions once the aircraft is airborne and lands the aircraft when the mission is completed. Pilots can change preprogrammed mission parameters as often as required. The aircraft can also be handed off to other strategically placed ground- or sea-based Ground Control Stations. The MQ-9 is designed to carry 800 pounds of internal payload with maximum fuel and can carry multiple mission payloads aloft. The MQ-9 will be configured for the following payloads: Electro-Optical/Infrared (EO/IR), Synthetic Aperture Radar (SAR), Electronic Support Measures (ESM), Signals Intelligence (SIGINT), laser designators, and various weapons packages, but will be sold in a deweaponized state. The MQ-9 systems will include the following components:

a. The Ground Control Station (GCS) can be either fixed or mobile. The fixed GCS is enclosed in a customer-specified shelter. It incorporates workstations that allow operators to control and monitor the aircraft, as well as record and exploit downlinked payload data. The mobile GCS allows operators to perform the same functions and is contained on a mobile trailer. Workstations in either GCS can be tailored to meet customer requirements. The GCS, technical data, and documents are Unclassified.

b. The General Atomics AN/DPY-1 Synthetic Aperture Radar/Ground Moving Target Indicator (SAR/GMTI) system provides all-weather surveillance, tracking and targeting for military and commercial customers from manned and unmanned vehicles. The AN/DPY-1 operates in the Ku band, using an offset-fed dish antenna mounted on a three-axis stabilized gimbal. It has a large field of regard: 5-60 degrees in depression, \pm (45-135) degrees in squint in SAR mode, and \pm (0-175) degrees in squint in GMTI mode. The AN/DPY-1 has 0.1 to 3 meter resolution in stripmap mode and can image up to a 10-km wide swath (at 3 meter resolution). Swaths from multiple passes are combined for wide-area surveillance. The AN/DPY-1 SAR/GMTI radar system and technical data/documents are Unclassified.

c. The Raytheon Multi-Spectral Targeting System (MTS-B) is a multi-use infrared (IR), electro-optical (EO), and laser detecting ranging-tracking set, developed and produced for use by the U. S. Air Force in Predator B. This advanced EO and IR system provides long-range surveillance, high altitude, target acquisition, tracking, range finding, and laser designation.

2. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

- (viii) Date Report Delivered to Congress: 18NOV09

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATIONIraq – Light and Medium Utility Helicopters

The Government of Iraq has requested a possible sale of up to 15 AgustaWestland AW109 Light Utility Observation helicopters, or alternatively, 15 Bell Model 429 Medical Evacuation and Aerial Observation helicopters, or 15 EADS North America UH-72A Lakota Light Utility helicopters; and, up to 12 AgustaWestland AW139 Medium Utility helicopters, or alternatively, 12 Bell Model 412 Medium Utility helicopters, or 12 Sikorsky UH-60M BLACK HAWK helicopters equipped with 24 T700-GE-701D engines. Also included: spare and repair parts, publications and technical data, support equipment, personnel training and training equipment, ground support, communications equipment, U.S. Government and contractor provided technical and logistics support services, tools and test equipment, and other related elements of logistics support. The estimated cost is \$1.2 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

This proposed sale will advance Iraqi efforts to develop a strong national military and police authority. A well-equipped and trained military and police/border force patrol authority and counter-terrorism force will help ensure that Iraq can continue to sustain its democratically-elected government, assist in stabilizing the various provinces, and prevent an overflow of unrest into the provinces, cities, and towns within Iraq.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be:

AgustaWestland Helicopter Company	Philadelphia, PA
Bell Helicopter Textron, Inc.	Ft Worth, TX
EADS North America	Arlington, VA
Sikorsky Aircraft Corporation	Stratford, CT
General Electric	Lynn, MA

Implementation of this proposed sale will require the assignment of U.S. Government and contractor representatives to Iraq for an extended period to assist in the delivery and deployment of the helicopters.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Dated: November 25, 2009.

Mitchell S. Bryman,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 5001-06-C

DEPARTMENT OF DEFENSE

Department of the Army

[Docket ID: USA-2009-0033]

Privacy Act of 1974; System of Records

AGENCY: Department of the Army, DoD.

ACTION: Notice to Add a System of Records.

SUMMARY: The Department of the Army is proposing to add a system of records to its existing inventory of records systems subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended.

DATES: The proposed action will be effective on December 31, 2009 unless comments are received that would result in a contrary determination.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.

- *Mail:* Federal Docket Management System Office, 1160 Defense Pentagon, Washington, DC 20301-1160.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions from members of the public is to make these submissions available for public viewing on the Internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: Mr. Leroy Jones at (703) 428-6185.

SUPPLEMENTARY INFORMATION: The Department of the Army systems of records notices subject to the Privacy Act of 1974, (5 U.S.C. 552a), as amended, have been published in the **Federal Register** and are available from the address above.

The proposed system report, as required by 5 U.S.C. 552a(r) of the Privacy Act of 1974, as amended, was submitted on November 24, 2009, to the House Committee on Oversight and Government Reform, the Senate Committee on Homeland Security and Governmental Affairs, and the Office of Management and Budget (OMB)

pursuant to paragraph 4c of Appendix I to OMB Circular No. A-130, 'Federal Agency Responsibilities for Maintaining Records About Individuals', dated February 8, 1996 (February 20, 1996, 61 FR 6427).

Dated: November 24, 2009.

Patricia L. Toppings,

OSD Federal Register Liaison Officer, Department of Defense.

SYSTEM NAME:

Army Behavioral Health Integrated Data Environment (ABHIDE).

SYSTEM LOCATION:

U.S. Army Center for Health Promotion and Preventive Medicine, 5158 Blackhawk Road, Aberdeen Proving Ground, Maryland 21010-5403.

CATEGORIES OF INDIVIDUALS COVERED BY THE SYSTEM:

Active duty Army including National Guard and Reserves, and retired Army personnel.

CATEGORIES OF RECORDS IN THE SYSTEM:

Personal Information: Patient or individual's name, rank/grade, military status, address, date of birth, color, height, weight, place of birth, Social Security Number (SSN), duty stations, employment and job related information and history; deployment information, high school graduation date and location; highest level of education; other education, training and school information including courses and training completion; drug and alcohol screening results, treatment information and progress reports; casualty information including date and location of death and manner of death. Benefits eligibility, enrollment, designations and status information, appointment dates and locations, referrals, inpatient/outpatient care dates, diagnoses, medications ordered and received.

Legal Information: Criminal investigations, date and location of incident, offense committed, Uniform Code of Military Justice Actions, codes for the type of crime, location of investigation, year and date of offense, names and personal identifiers of persons who have been subjects of electronic surveillance, suspects, subjects and victims of crimes, report number which allows access to records noted above; and domestic violence actions including type and date of incident. Exemptions claimed for the system: Investigative material compiled for law enforcement purposes may be exempt pursuant to 5 U.S.C. 552a(k)(2). However, if an individual is denied any right, privilege, or benefit for which he

would otherwise be entitled by Federal law or for which he would otherwise be eligible, as a result of the maintenance of such information, the individual will be provided access to such information except to the extent that disclosure would reveal the identity of a confidential source.

Note: Records of identity, diagnosis, prognosis, or treatment of any client/patient, irrespective of whether or when he/she ceases to be a client/patient, maintained in connection with the performance of any alcohol or drug abuse prevention and treatment function conducted, regulated, or directly or indirectly assisted by any department or agency of the United States, shall, except as provided therein, be confidential and be disclosed only for the purposes and under the circumstances expressly authorized in 42 U.S.C. 290dd-2. This statute takes precedence over the Privacy Act of 1974 in regard to accessibility of such records except to the individual to whom the record pertains. This statute takes precedence over the Privacy Act of 1974 to the extent that disclosure is more limited. However, access to the record by the individual to whom the record pertains is governed by the Privacy Act.

Note: This system of records contains individually identifiable health information. The DoD Health Information Privacy Regulation (DoD 6025.18-R) issued pursuant to the Health Insurance Portability and Accountability Act of 1996, applies to most such health information. DoD 6025.18-R may place additional procedural requirements on the uses and disclosures of such information beyond those found in the Privacy Act of 1974 or mentioned in this system of records notice. This information will not be used for benefit determination or access to classified information, retention and other action to or about the individual.

AUTHORITY FOR MAINTENANCE OF THE SYSTEM:

10 U.S.C. 3013, Secretary of the Army; DoD Instruction 6490.2E, Comprehensive Health Surveillance; DoD Instruction 6015.23, Delivery of Healthcare at Military Treatment Facilities (MTFs); DoD Instruction 1300.18, Personnel Casualty Matters, Policies, and Procedures; Army Regulation 40-66, Medical Record Administration and Health Care Documentation; Army Regulation 195-2, Criminal Investigation Activities; Army Regulation 600-85, Army Substance Abuse Program; Army Regulation 600-8-104, Military Personnel Information Management/Records; Army Regulation 608-18, The Family Advocacy Program; 42 U.S.C. 290dd-2, Substance Abuse and Mental Health Services; and E.O. 9397 (SSN), as amended.
