

the option of paying a fee to offset the entire budgetary cost to the Federal Government. As a result, the DOT hereby announces that it is exploring the potential of implementing a pilot program under which the DOT would accept applications for projects where the borrowers are willing and able to pay a fee to offset the entire subsidy cost of TIFIA credit assistance. The purpose of this pilot program would be to extend credit, consistent with policy objectives, to qualified projects that the DOT otherwise might not select for TIFIA assistance merely due to insufficient budgetary resources. This pilot program would be undertaken under authority of 23 U.S.C. 603(a)(7), 603(e), (604)(b)(9), and 49 CFR 80.17(c), which allow successful applicants to pay a fee to reduce the cost to the Federal Government associated with the credit assistance provided to the project. Such a project would be evaluated based on satisfaction of the same TIFIA selection criteria, as clarified in this notice, which apply to all applicants.

The DOT will take all comments regarding the potential pilot program into consideration and, if it decides to proceed with the pilot program, may revise some elements of this notice. Depending on the nature of the comments and the number of Letters of Interest submitted, the DOT may invite applications without publishing a supplemental notice. If the DOT decides to proceed with the pilot program, qualified applicants that have responded to this notice would become eligible to pay an upfront fee to offset the entire cost of providing TIFIA credit assistance.

Lassen Valley Railway LLC— Acquisition and Operation Exemption—Union Pacific Railroad Company

Lassen Valley Railway LLC (LVR), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to acquire and operate approximately 22.34 miles of rail line owned by Union

Pacific Railroad Company (UP): (1) the Flanigan Industrial Lead, between milepost 338.33 near Flanigan, NV, and milepost 360.10 near Wendel, CA, and (2) the Susanville Industrial Lead, between milepost 358.68 and milepost 359.25, near Wendel.¹

This transaction is related to a concurrently filed verified notice of exemption in STB Finance Docket No. 35307, *Kern W. Schumacher—Continuance in Control Exemption—Lassen Valley Railway LLC*, wherein Kern W. Schumacher seeks to continue in control of LVR, upon LVR becoming a Class III rail carrier.

The transaction is expected to be consummated on or shortly after December 17, 2009 (the effective date of the exemption).

LVR certifies that its projected annual revenues as a result of the transaction will not result in its becoming a Class II or Class I rail carrier and further certifies that its projected annual revenue will not exceed \$5 million.

Pursuant to the Consolidated Appropriations Act, 2008, Public Law 110–161, § 193, 121 Stat. 1844 (2007), nothing in this decision authorizes the following activities at any solid waste rail transfer facility: collecting, storing or transferring solid waste outside of its original shipping container; or separating or processing solid waste (including baling, crushing, compacting and shredding). The term “solid waste” is defined in section 1004 of the Solid Waste Disposal Act, 42 U.S.C. 6903.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions for stay must be filed no later than December 10, 2009 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 35306, must be filed with

¹ According to LVR, the rail lines involved were the subject of an abandonment petition in *Union Pacific Railroad Company—Abandonment Exemption—in Lassen County, CA, and Washoe County, NV*, STB Docket No. AB–33 (Sub-No. 230X) (STB served Jan. 26, 2007). An offer of financial assistance (OFA) was filed by Robert Alan Kemp d/b/a Nevada Central Railroad to acquire a 220-foot segment of UP’s Flanigan Industrial Lead (beginning at milepost 338.33). The OFA was rejected by decision served September 19, 2008. On September 29, 2008, Mr. Kemp filed an appeal of the Board’s decision, which was denied by decision served January 27, 2009. It is indicated that Mr. Kemp has petitioned for judicial review of the Board’s January 27 decision, and that petition is pending before the United States Court of Appeals for the Ninth Circuit.
