**Air Way Automation, Inc., Grayling, MI;  
Notice of Affirmative Determination  
Regarding Application for  
Reconsideration**

By application dated August 20, 2009, a company official requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on August 3, 2009. The Notice of Determination was published in the **Federal Register** on September 22, 2009 (74 FR 48304).

The initial investigation resulted in a negative determination based on the finding that imports of parts feeding and assembly equipment did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred.

In the request for reconsideration, the petitioner provided additional information regarding customers of the subject firm and increasing foreign competition in the bidding process.

The Department has carefully reviewed the request for reconsideration and the existing record and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

**Conclusion**

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 21st day of October 2009.

**General Electric Company,  
Transportation Division, Erie, PA;  
Notice of Affirmative Determination  
Regarding Application for  
Reconsideration**

By application dated October 28, 2009, the petitioners requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on October 8, 2009. The Notice of Determination will soon be published in the **Federal Register**.

The initial investigation resulted in a negative determination based on the finding that imports of locomotives, locomotive parts, marine and stationary engines, and various propulsion systems did not contribute importantly to worker separations at the subject firm. The investigation revealed that the subject firm did not shift production of locomotives, locomotive parts, marine and stationary engines, and various propulsion systems to foreign countries during the period under investigation.

In the request for reconsideration, the petitioner alleged that General Electric reduced employment levels at the subject facility as a direct result of shifts in production to Brazil, China and Kazakhstan.

The Department has carefully reviewed the request for reconsideration and the existing record and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

**Conclusion**

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the U.S. Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 16th day of November 2009.
