Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and § 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy

of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Electronic Tariff Filings; Notice of Date for Submission of Transitional Schedules

December 1, 2009.

Take notice that the submission of proposed transitional schedules for making baseline electronic tariff filings should be made by January 22, 2010.

In Order No. 714,¹ the Commission adopted regulations requiring that tariff and tariff related filings must be made

¹ *Electronic Tariff Filings*, Order No. 714, 73 FR 57,515 (Oct. 3, 2008), 124 FERC ¶ 61,270, FERC Stats. & Regs [Regulations Preambles] ¶ 31,276 (2008) (Sept. 19, 2008).

electronically. The Commission provided that the conversion to electronic tariff filings would begin April 1, 2010, with pipelines and utilities filing baseline tariffs according to a six-month staggered filing schedule worked out between staff and industry. Standard notice and comment periods will apply to these baseline filings. Once an oil or gas pipeline or electric utility has made its baseline filing, all subsequent tariff-related filings must be made electronically.

At the Commission staff technical conference held on November 20, 2009, staff indicated that, from its perspective, a filing schedule would be acceptable as long as the baseline filings are reasonably dispersed throughout the six month period. Having to process many baseline applications at the same time would slow Commission processing time and would work to the disadvantage of both the companies and the Commission. Customers in comments on the Notice of Proposed Rulemaking in this proceeding and at the conference expressed concern that filings be staggered reasonably so that customers would not have to review a large number of baseline filings at the same time. Interest was expressed at the conference in providing the various industries an opportunity to meet with their customer groups to develop a staggered schedule that would balance the baseline filings longitudinally and perhaps geographically.

Commission staff will honor a consensus agreement so long as the filings are generally spread over the six-month transition period. Commission staff will issue a Notice of the filing schedule after reviewing the comments received.

[Project No. 12107-003-MT; Flint Creek Hydroelectric Project]

Granite County, MT; Notice of Availability of Environmental Assessment

December 2, 2009.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed the application for an original license (Major Project) for the Flint Creek Hydroelectric Project (project), and has prepared an Environmental Assessment (EA). The proposed project would be located on Flint Creek at the existing Georgetown Lake Dam, in the Upper Clark Fork River basin near Philipsburg, in Granite County and Deer Lodge County, Montana. The proposed project would occupy a total of 2,857.5 acres, of which 1,243.3 acres (1,243 reservoir acres and 0.3 land acre) are within the Beaverhead-Deer Lodge National Forest, administered by the U.S. Forest Service (Forest Service); 1,605.4 reservoir acres owned by Granite County, Montana; and 8.8 acres of private lands.

The EA contains the staff's analysis of the potential environmental impacts of the project and concludes that licensing the project would not constitute a major Federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
