DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Passenger Facility Charge (PFC) Approvals and Disapprovals

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Monthly Notice of PFC Approvals and Disapprovals. In October 2009, there were nine applications approved. This notice also includes information on six applications, approved in September 2009, inadvertently left off the September 2009 notice. Additionally, 15 approved amendments to previously approved applications are listed.

SUMMARY: The FAA publishes a monthly notice, as appropriate, of PFC approvals and disapprovals under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Pub. L. 101-508) and Part 158 of the Federal Aviation Regulations (14

CFR Part 158). This notice is published pursuant to paragraph d of § 158.29.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief.

CSX Transportation, Inc.

[Docket Number FRA-2007-26965]

The CSX Transportation, Inc. (CSXT) seeks an extension of the relief previously granted under Docket Number FRA-2007-26965. The original request granted conditional approval on January 18, 2008, for relief from the requirements of the Rules, Standards and Instructions, Title 49 CFR part 236, § 236.586—Daily or after trip test. Specifically, CSXT requested that a

visual inspection not be required as part of the daily or after trip test performed on locomotives equipped with microprocessor equipment during a proposed test period. For purposes of most effective monitoring, clarity of the remaining required cab signal testing and associated record-keeping, as well as consistency with a similar request from another railroad, FRA granted CSXT relief from the requirement of performing the test prescribed by § 236.586 on microprocessor-based automatic cab signal, train stop, and train control systems for a 2-year test period.

Applicant's justification for the extension: Over the past 18 months, CSXT has not seen any notable increase or decrease in locomotive shoppings as a result of not performing a daily or after-trip test prior to entering equipped territory.

CSXT further request that they be allowed to conduct the currently required quarterly performance review on a semi-annual basis, with all other conditions of the January 18, 2007, letter to be abided with.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before

the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (e.g., Waiver Petition Docket Number FRA-2007-26965) and may be submitted by any of the following methods:
