

unit that is matched with between two and eight indoor units; for multi-split systems, each of these indoor units shall be designed for individual operation.

(ii) The indoor units shall:

- (a) Represent the highest sales model family, or another indoor model family if the highest sales model family does not provide sufficient capacity (see b);
- (b) Together, have a nominal cooling capacity that is between 95 percent and 105 percent of the nominal cooling capacity of the outdoor unit;
- (c) Not, individually, have a nominal cooling capacity greater than 50 percent of the nominal cooling capacity of the outdoor unit;
- (d) Operate at fan speeds that are consistent with the manufacturer's specifications; and
- (e) Be subject to the same minimum external static pressure requirement.

(C) *Representations.* In making representations about the energy efficiency of its Multi V multi-split products, for compliance, marketing, or other purposes, LG must fairly disclose the results of testing under the DOE test procedure, doing so in a manner consistent with the provisions outlined below:

(i) For Multi V multi-split combinations tested in accordance with this alternate test procedure, LG may make representations based on these test results.

(ii) For Multi V multi-split combinations that are not tested, LG may make representations based on the testing results for the tested combination and which are consistent with either of the two following methods:

(a) Representation of non-tested combinations according to an alternative rating method approved by DOE; or

(b) Representation of non-tested combinations at the same energy efficiency level as the tested combination with the same outdoor unit.

(4) This waiver shall remain in effect from the date of issuance of this Order consistent with the provisions of 10 CFR 431.401(g).

(5) This waiver is conditioned upon the presumed validity of statements, representations, and documentary materials provided by the petitioner. This waiver may be revoked or modified at any time upon a determination that the factual basis underlying the Petition for Waiver is incorrect, or DOE determines that the results from the alternate test procedure are unrepresentative of the basic models' true energy consumption characteristics.

Issued in Washington, DC, on December 8, 2009.

Cathy Zoi,

Assistant Secretary, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[Case No. CD-003]

Energy Conservation Program for Consumer Products: Decision and Order Granting a Waiver to Whirlpool Corporation From the Department of Energy Residential Clothes Dryer Test Procedure (Case No. CD-003)

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Decision and Order.

SUMMARY: The U.S. Department of Energy (DOE) gives notice of the Decision and Order (Case No. CD-003) that grants to the Whirlpool Corporation (Whirlpool) a waiver from the DOE clothes dryer test procedure. The waiver request pertains to Whirlpool's specified single model of condensing residential clothes dryer. The existing test procedure does not apply to condensing clothes dryers. Under today's Decision and Order, Whirlpool shall be not be required to test and rate its specified single model of condensing residential clothes dryer.

DATES: This Decision and Order is effective December 15, 2009.

FOR FURTHER INFORMATION CONTACT: Dr. Michael G. Raymond, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2J, 1000 Independence Avenue, SW., Washington, DC 20585-0121. Telephone: (202) 586-9611, e-mail: AS_Waiver_Requests@ee.doe.gov.

Francine Pinto, or Michael Kido, U.S. Department of Energy, Office of General Counsel, Mail Stop GC-72, 1000 Independence Avenue, SW., Washington, DC 20585-0103, (202) 586-9507; e-mail: Francine.Pinto@hq.doe.gov or Michael.Kido@hq.doe.gov.

SUPPLEMENTARY INFORMATION: In accordance with Title 10 of the Code of Federal Regulations (10 CFR) 430.27(l), DOE gives notice of the issuance of its Decision and Order as set forth below. The Decision and Order grants Whirlpool a Waiver from the applicable residential clothes dryer test procedure at 10 CFR part 430 subpart B, appendix

D, for its single model of condensing clothes dryer.

Issued in Washington, DC, on December 8, 2009.

Cathy Zoi,

Assistant Secretary, Energy Efficiency and Renewable Energy.

Decision and Order

In the Matter of: Whirlpool Corporation. (Case No. CD-003)

Background

Title III of the Energy Policy and Conservation Act (EPCA) sets forth a variety of provisions concerning energy efficiency. Part A of Title III provides for the "Energy Conservation Program for Consumer Products Other Than Automobiles." (42 U.S.C. 6291-6309) Part A includes definitions, test procedures, labeling provisions, energy conservation standards, and the authority to require information and reports from manufacturers. Further, Part A authorizes the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results which measure energy efficiency, energy use, or estimated operating costs, and that are not unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)).

Today's notice involves residential products under Part A. Relevant to the current Petition for Waiver, the test procedure for residential clothes dryers is contained in 10 CFR Part 430, subpart B, appendix D.

DOE's regulations contain provisions allowing a person to seek a waiver from the test procedure requirements for covered consumer products, when the petitioner's basic model contains one or more design characteristics that prevent testing according to the prescribed test procedure, or when they may evaluate the basic model in a manner so unrepresentative of its true energy consumption characteristics as to provide materially inaccurate comparative data. 10 CFR 430.27(a)(1). Petitioners must include in their petition any alternate test procedures known to the petitioner to evaluate the basic model in a manner representative of its energy consumption characteristics. 10 CFR 430.27(b)(1)(iii).

The Assistant Secretary for Energy Efficiency and Renewable Energy (the Assistant Secretary) may grant a waiver subject to conditions, including adherence to alternate test procedures. 10 CFR 430.27(l). Waivers remain in effect pursuant to the provisions of 10 CFR 430.27(m).

The waiver process also allows any interested person who has submitted a petition for waiver to file an application

for interim waiver of the applicable test procedure requirements. 10 CFR 430.27(a)(2). The Assistant Secretary will grant an interim waiver request if it is determined that the applicant will experience economic hardship if the interim waiver is denied, if it appears likely that the petition for waiver will be granted, and/or the Assistant Secretary determines that it would be desirable for public policy reasons to grant immediate relief pending a determination on the petition for waiver. 10 CFR 430.27(g).

On May 12, 2008, Whirlpool filed a petition for waiver from the test procedures applicable to its single model (WCD7500VW) of condensing clothes dryer. The applicable test procedures are contained in 10 CFR Part 430, subpart B, appendix D—Uniform Test Method for Measuring the Energy Consumption of Clothes Dryers. Whirlpool seeks a waiver from the applicable test procedures for its WCD7500VW basic product model because, Whirlpool asserts, design characteristics of this model prevent testing according to the currently prescribed test procedures. DOE previously granted Miele Appliance, Inc. (Miele), a waiver from test procedures for two similar condenser clothes dryer models (T1565CA and T1570C). (60 FR 9330 (Feb. 17, 1995)) Whirlpool claims that its condenser clothes dryers cannot be tested pursuant to the DOE procedure and requests that the same waiver granted to Miele in 1995 be granted for Whirlpool's WCD7500VW model.

In support of its petition, Whirlpool claims that the current clothes dryer test procedures apply only to vented clothes dryers because the test procedures require the use of an exhaust restrictor on the exhaust port of the clothes dryer during testing. Because condenser clothes dryers operate by blowing air through the wet clothes, condensing the water vapor in the airstream, and pumping the collected water into either a drain line or an in-unit container, these products do not use an exhaust port like a vented dryer does. Whirlpool plans to market a condensing clothes dryer for situations in which a conventional vented clothes dryer cannot be used, such as high-rise apartments and condominiums, neither of whose construction permits the use of external venting.

Assertions and Determinations

Whirlpool's Petition for Waiver

On May 12, 2008, Whirlpool filed a Petition for Waiver from the test procedure applicable to residential

clothes dryers set forth in 10 CFR Part 430, subpart B, appendix D for a particular model of condensing clothes dryer. On April 8, 2009, DOE published Whirlpool's Petition for Waiver and granted Whirlpool an interim waiver from the current test procedure. 74 FR 15959. DOE did not receive any comments on the Whirlpool petition.

DOE previously granted Miele a waiver from test procedures for condensing clothes dryers after determining that the clothes dryer test procedure was not applicable to the company's condenser clothes dryers because of the lack of an exhaust port for mounting the required exhaust restrictor, which is an element of the test procedure. 60 FR 9332 (February 17, 1995). Subsequently, in 2008, DOE granted LG a similar waiver for its DLEC733W condenser clothes dryer. 73 FR 66641 (Nov. 10, 2008).

Therefore, for the reasons discussed above and in light of the long-standing waiver granted to Miele, and the recent waiver to LG, DOE grants Whirlpool's Petition for Waiver from testing of its condenser clothes dryers.

Consultations With Other Agencies

DOE consulted with the Federal Trade Commission (FTC) staff concerning the Whirlpool Petition for waiver. The FTC staff did not have any objections to granting a waiver to Whirlpool.

Conclusion

After careful consideration of all the material that was submitted by Whirlpool and consultation with the FTC staff, it is ordered that:

- (1) The "Petition for Waiver" submitted by Whirlpool Corporation (Case No. CD-003) is hereby granted as set forth in the paragraphs below.
- (2) Whirlpool shall not be required to test or rate its WCD7500VW condensing clothes dryer product on the basis of the test procedures at 10 CFR Part 430, subpart B, appendix D.
- (3) This waiver shall remain in effect from the date of this Decision and Order consistent with the provisions of 10 CFR 430.27(m).
- (4) This waiver is conditioned upon the presumed validity of statements, representations, and documentary materials provided by the petitioner. This waiver may be revoked or modified at any time upon a determination that the factual basis underlying the Petition for Waiver is incorrect.

Issued in Washington, DC, on December 8, 2009.

Cathy Zoi,

Assistant Secretary, Energy Efficiency and Renewable Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

[Case No. CD-004]

Energy Conservation Program for Consumer Products: Publication of the Petition for Waiver and Granting of the Application for Interim Waiver of the General Electric Company From the Department of Energy Clothes Dryer Test Procedures

AGENCY: Office of Energy Efficiency and Renewable Energy, Department of Energy.

ACTION: Notice of petition for waiver, granting of application for interim waiver, and request for comments.

SUMMARY: This notice announces receipt of and publishes the General Electric Company's (GE's) Petition for Waiver (hereafter, "petition") from the U.S. Department of Energy (DOE) test procedure for determining the energy consumption of residential clothes dryers. The waiver request pertains to GE's specified single model line of condensing residential clothes dryers. The existing test procedure does not apply to condensing clothes dryers. In addition, today's notice grants GE an interim waiver from the DOE test procedures applicable to residential clothes dryers. DOE solicits comments, data, and information with respect to GE's petition.

DATES: DOE will accept comments, data, and information with respect to GE's Petition until, but no later than January 14, 2010.

ADDRESSES: You may submit comments, identified by case number CD-004, by any of the following methods:

- *Federal eRulemaking Portal:* <http://www.regulations.gov>. Follow the instructions for submitting comments.
- *E-mail:*

AS Waiver Requests@ee.doe.gov. Include either the case number [CD-004], and/or "GE Clothes Dryer Petition" in the subject line of the message.

- *Mail:* Ms. Brenda Edwards, U.S. Department of Energy, Building Technologies Program, Mailstop EE-2], Petition for Waiver Case No. CD-004, 1000 Independence Avenue, SW., Washington, DC 20585-0121.

Telephone: (202) 586-2945. Please submit one signed original paper copy.

- *Hand Delivery/Courier:* Ms. Brenda Edwards, U.S. Department of Energy,
