

Regulatory Organizations.²⁴ In the Concept Release, the Commission states that: "Given the inherent tension between an SRO's role as a business and as a regulator, there undoubtedly is a temptation for an SRO to fund the business side of its operations at the expense of regulation."²⁵ In order to address this potential conflict, the Commission proposed in the Governance Release rules that would require an SRO to direct monies collected from regulatory fees, fines, or penalties exclusively to fund the regulatory operations and other programs of the SRO related to its regulatory responsibilities.²⁶ The Exchange has designed the ORF to generate revenues that, when combined with all of the Exchange's other regulatory fees, will approximate the Exchange's regulatory costs, which is consistent with the Commission's view that regulatory fees be used for regulatory purposes and not to support the Exchange's business side.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act²⁷ and paragraph (f)(2) of Rule 19b-4²⁸ thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and

arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

comments on all elements of the agreement in order to develop U.S. negotiating positions.

DATES: Written comments are due by January 25, 2010.

SUPPLEMENTARY INFORMATION:

1. Background

USTR is observing the relevant procedures of the Bipartisan Trade Promotion Authority Act of 2002 (19 U.S.C. 3804), which apply to agreements entered into before July 1, 2007, with respect to notifying and consulting with Congress regarding the TPP trade agreement negotiations. These procedures include providing Congress with 90 days advance written notice of the President's intent to enter into negotiations and consulting with appropriate Congressional committees regarding the negotiations. To that end, on December 14, 2009, after having consulted with relevant Congressional committees, the USTR notified Congress that the President intends to enter into negotiations of the agreement with the TPP countries with the objective of shaping a high-standard, 21st century agreement with a membership and coverage that provides economically significant market access opportunities for America's workers, farmers, ranchers, service providers, and small businesses. Our initial TPP negotiating partners include Australia, Brunei Darussalam, Chile, New Zealand, Peru, Singapore and Vietnam. The U.S. objective is to expand on this initial group to include additional countries throughout the Asia-Pacific region.

In addition, under the Trade Act of 1974, as amended (19 U.S.C. 2151, 2153), in the case of an agreement such as the proposed TPP trade agreement, the President must (i) afford interested persons an opportunity to present their views regarding any matter relevant to the proposed agreement, (ii) designate an agency or inter-agency committee to hold a public hearing regarding the proposed agreement, and (iii) seek the advice of the U.S. International Trade Commission (ITC) regarding the
