Abstract: The Helen Keller National Center for Deaf-Blind Youths and Adults (HKNC) provides services designed to equip clients to live independently in their communities and/or to enhance their ability to secure meaningful employment. The HKNC evaluation will provide RSA with independent and objective information by which to draw conclusions about the effectiveness, including cost effectiveness, of the Center. The evaluation will identify characteristics of the populations served by HKNC and the extent to which HKNC effectively serves clients with different needs. The

evaluation will also examine the relationship between HKNC and vocational rehabilitation (VR) agencies and how well HKNC meets the needs of the agencies. Finally, this evaluation will include recommendations to improve HKNC programs and service delivery, including measures that could be used to assess ongoing performance of the Center, its regional staff and functions, and its national training program.

The evaluation scope of work is identified in the following objectives:

- * Provide RSA with reliable and valid information on program effectiveness, including cost effectiveness.

- * Identify both the characteristics of the populations served by HKNC and the strengths and weaknesses of the program that have an impact on its effectiveness in serving these populations.

- * Examine the relationship between HKNC and VR agencies and the effectiveness of direct services, technical assistance, and training activities provided by the Center's headquarters and regional programs in meeting the needs of VR agencies.

- * Make recommendations for program adjustments or improvements based on study findings, including measures that could be implemented to assess ongoing performance.
