LRY, LLC D.B.A. Lake Railway (LRY), a noncarrier, has filed a verified notice of exemption under 49 CFR 1150.31 to lease from Lake County, OR (Lake County), and to operate 54.45 miles of railroad on the Lakeview Branch, extending from milepost 458.60 at Alturas, CA, to milepost 513.05, at Lakeview, OR.¹ That line had been previously leased to Modoc Railway and Land Company, LLC (MR&L), and operated by Modoc Northern Railroad Co (MNRR). According to LRY, Lake County has terminated that lease and filed an adverse discontinuance application with the Board, which was granted.²

This transaction is related to a concurrently filed verified notice of exemption in STB Finance Docket No. 35250, *LRY, LLC D.B.A. Lake Railway—Lease and Operation Exemption—Union Pacific Railway Company*, wherein LRY seeks to lease and operate 62.21 miles of UP's lines of railroad, consisting of: (1) Part of the Modoc Subdivision, extending from milepost 445.6 near MacArthur, CA, to milepost 506.1 near Perez, CA; and (2) part of the Lakeview

¹ The notice had stated that the line extended from milepost 458.60 at Alturas, CA, to milepost 512.30, at Lakeview, OR, for a total distance of 53.70 miles. On December 14, 2009, LRY filed a pleading amending its notice to reflect the correct milepost and distance.

² See *Lake County, Oregon—Adverse Discontinuance of Rail Service—Modoc Railway and Land Company, LLC and Modoc Northern Railroad Company*, STB Docket No. AB-1035 (STB served Nov. 17, 2009).

Branch, extending from milepost 456.89 to milepost 458.60 at Alturas, CA.

The transaction cannot be consummated until January 1, 2010, the effective date of the exemption (30 days after the exemption is filed).³

LRY certifies that, as a result of this transaction, its projected revenues will not exceed those that would qualify it as a Class III carrier.

Pursuant to the Consolidated Appropriations Act, 2008, Public Law No. 110-161, § 193, 121 Stat. 1844 (2007), nothing in this decision authorizes the following activities at any solid waste rail transfer facility: Collecting, storing or transferring solid waste outside of its original shipping container; or separating or processing solid waste (including baling, crushing, compacting, and shredding). The term "solid waste" is defined in section 1004 of the Solid Waste Disposal Act, 42 U.S.C. 6903.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the effectiveness of the exemption. Petitions to stay must be filed by no later than December 24, 2009 (at least 7 days before the exemption becomes effective).

An original and 10 copies of all pleadings, referring to STB Finance Docket No. 35250 (Sub-No. 1) must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423-0001. Federal Aviation Administration

Receipt of Noise Compatibility Program Update and Request for Review for Modesto City-County Airport, Modesto, CA

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program update that was submitted for Modesto City-County Airport under the provisions of 49 U.S.C. 47501 *et seq.* (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR part 150 by City of Modesto. This program was submitted subsequent to a determination by FAA that associated noise exposure maps submitted under 14 CFR part 150 for Modesto City-County Airport were in compliance with applicable requirements, effective January 9, 2009 (74 FR 4499). The proposed noise compatibility program update will be approved or disapproved on or before June 6, 2010.

DATES: *Effective Date:* The effective date of the start of FAA's review of the noise compatibility program update is

December 9, 2009. The public comment period ends February 8, 2010.

FOR FURTHER INFORMATION CONTACT:

Camille Garibaldi, Environmental Protection Specialist, Federal Aviation Administration, Western-Pacific Region, San Francisco Airports District Office, 831 Mitten Road, Suite 210, Burlingame, California 94010. Telephone number: (650) 876-2778, extension 613.

Comments on the proposed noise compatibility program update should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program update for Modesto City-County Airport which will be approved or disapproved on or before June 6, 2010. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses.

The FAA has formally received the noise compatibility program update for Modesto City-County Airport, effective on December 6, 2009. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a noise compatibility program under section 47504 of the Act. Preliminary review of the submitted material indicates that it conforms to FAR Part 150 requirements for the submittal of noise compatibility programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before June 6, 2010.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR part 150, section 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety or create an undue burden on interstate or foreign commerce, and whether they are reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the

introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments relating to these factors, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the noise exposure maps and the proposed noise compatibility program update are available for examination at the following locations:

Questions may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT.**

Issued in Hawthorne, California on December 9, 2009.

Acting Manager, Airports Division, Western-Pacific Region, AWP-600.
