standards relating to the availability of  
mine rescue teams; alternate mine  
rescue capability for small and remote  
mines and mines with special mining  
conditions; inspection and maintenance  
records of mine rescue equipment and  
apparatus; physical requirements for  
mine rescue team members and  
alternates; and experience and training  
requirements for team members and  
alternates. The information collection  
requirements contained in 30 CFR part  
49 are used by mine operators, miners,  
and MSHA to formulate an appropriate  
rescue capability within the guidelines  
set forth in these standards. For

Affected Public: Business or other for  
profits (surface coal mines).

Description: 30 CFR 77.1713 requires  
operators of surface coal mines and  
surface facilities to keep records of the  
results of required examinations for  
hazardous conditions. These records  
consist of the nature and location of any  
hazardous condition found and the  
actions taken to abate the hazardous  
condition. The records are used by the  
MSHA inspectors to determine  
compliance with the standard, and that  
any hazards found have either been  
corrected or barricaded. Mine operators  
use these records to identify areas of the  
mine or equipment that present hazards  
to miners and, therefore, must be  
corrected to prevent miner injuries or  
death. Repeated hazardous conditions

in any area or involving a particular  
piece of equipment would indicate to  
the operator the need for modification of  
operating procedures or replacement or  
repair of equipment. For additional  
information, see related notice  
published in the **Federal Register** on  
October 9, 2009, at Vol. 74, page 52260.

provide procedures by which a mine  
operator shall notify MSHA of all  
explosive materials and blasting units  
prior to their use in underground gassy  
metal and nonmetal mines. MSHA uses  
the information provided by the mine  
operator to determine whether  
nonapproved blasting materials and  
explosives and procedures are safe for  
use in a gassy underground metal or  
nonmetal mine. Without such  
determinations, miners may be exposed  
to significant safety risks. For additional

## DEPARTMENT OF LABOR

### Employment and Training Administration

[TA-W-64,668]

#### Tenneco, Inc., Including On-Site Leased Workers From Elite Staffing, Inc., Cozad, NE; Amended Certification Regarding Eligibility To Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In accordance with Section 223 of the  
Trade Act of 1974 (19 U.S.C. 2273), and  
Section 246 of the Trade Act of 1974 (26  
U.S.C. 2813), as amended, the

Department of Labor issued a  
Certification of Eligibility to Apply for  
Worker Adjustment Assistance and  
Alternative Trade Adjustment  
Assistance on January 15, 2009,  
applicable to workers of Tenneco, Inc.,  
Cozad, Nebraska. The notice was  
published in the **Federal Register** on  
February 2, 2009 (74 FR 5871).

At the request of the State agency, the  
Department reviewed the certification  
for workers of the subject firm. The  
workers are engaged in activities related  
to the production of shock absorbers.

New information shows that workers  
leased from Elite Staffing, Inc. were  
employed on-site at the Cozad, Nebraska  
location of Tenneco, Inc.

The Department has determined that  
these workers were sufficiently under  
the control of Tenneco, Inc. to be  
considered leased workers.

The intent of the Department's  
certification is to include all workers of  
the subject firm adversely affected as a  
supplier to a trade certified primary  
firm.

Based on these findings, the  
Department is amending this  
certification to include workers leased  
from Elite Staffing, Inc. working on-site  
at the Cozad, Nebraska location of the  
subject firm.

The amended notice applicable to  
TA-W-64,668 is hereby issued as  
follows:

All workers of Tenneco, Inc., including on-  
site leased workers from Elite Staffing, Inc.,  
Cozad, Nebraska, who became totally or  
partially separated from employment on or  
after December 12, 2007, through January 15,  
2011, are eligible to apply for adjustment  
assistance under Section 223 of the Trade Act  
of 1974, and are also eligible to apply for  
alternative trade adjustment assistance under  
Section 246 of the Trade Act of 1974.

Signed at Washington, DC this 8th day of  
December 2009.

Elliott S. Kushner,

Certifying Officer, Division of Trade  
Adjustment Assistance.
