### Surface Transportation Board

[STB Finance Docket No. 35335]

## Freedom Rail Management, LLC— Acquisition of Control Exemption— Columbia & Reading Railway Co.

Freedom Rail Management, LLC (FRM), a noncarrier, has filed a verified notice of exemption to acquire control of Columbia & Reading Railway Co. (CORY), a class III rail carrier. Pursuant to a Membership Interest Purchase Agreement between FRM and Railway Management, Inc. (RMI),<sup>1</sup> FRM seeks to purchase a 51 percent membership interest in CORY.<sup>2</sup> FRM currently controls Claremont Concord Railroad (CCRR), a Class III rail carrier. CCRR owns 2 miles of rail line in Claremont, NH, and leases 2 miles of rail line in Lebanon, NH, from the New Hampshire Department of Transportation.

The transaction is expected to be consummated on or after January 10, 2010, the effective date of the exemption.

*FRM* states that: (i) The railroads will not connect with each other; (ii) the acquisition of control is not part of a series of anticipated transactions that would connect the railroads with each other; and (iii) the transaction does not involve a Class I carrier. Therefore, the transaction is exempt from the prior approval requirements of 49 U.S.C. 11323. *See* 49 CFR 1180.2(d)(2).

Under 49 U.S.C. 10502(g), the Board may not use its exemption authority to relieve a rail carrier of its statutory obligation to protect the interests of its employees. Section 11326(c), however, does not provide for labor protection for transactions under sections 11324 and 11325 that involve only Class III rail carriers. Because this transaction involves Class III rail carriers only, the Board, under the statute, may not impose labor protective conditions for this transaction.

If the verified notice contains false or misleading information, the exemption is void *ab initio*. Petitions to revoke the exemption under 49 U.S.C. 10502(d) may be filed at any time. The filing of a petition to revoke will not automatically stay the transaction.

An original and 10 copies of all pleadings referring to STB Finance Docket No. 35335 must be filed with the Surface Transportation Board, 395 E Street, SW., Washington, DC 20423– 0001. In addition, a copy of each pleading must be served on Jeffrey O. Moreno, 1920 N Street, NW., Suite 800, Washington, DC 20036.

Board decisions and notices are available on our Web site at *http://www.stb.dot.gov.* 

Decided: December 18, 2009. By the Board, Rachel D. Campbell, Director, Office of Proceedings.

### Federal Highway Administration

Supplemental Draft Environmental Impact Statement: Northwest I–75/I– 575 Corridor, Cobb and Cherokee Counties, GA (Atlanta Metropolitan Area)

**AGENCY:** Federal Highway Administration (FHWA), USDOT. **ACTION:** Notice of intent.

**SUMMARY:** The FHWA is issuing this notice to advise the interested parties (public, agencies and tribal governments) that a supplemental draft environmental impact statement (SDEIS) will be prepared for proposed highway improvements on Interstate 75 and Interstate 575 (I–75/I–575) in Cobb and Cherokee Counties, Georgia. The length of the proposed project is 30.70 miles.

FOR FURTHER INFORMATION CONTACT: Mr. Rodney Barry, Federal Highway Administration, 61 Forsyth Street, Suite 17T100, Atlanta, Georgia, *Telephone:* 404–562–3630, *E-mail:* rodney.barry@fhwa.dot.gov.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with Georgia Department of Transportation (GDOT) will prepare a SDEIS to consider environmental impacts of proposed transportation improvements to I-75 and I–575 in the Atlanta metropolitan area. These improvements are collectively referred to as the Northwest Corridor project and are located within the project area, which extends northwesterly along I-75 in Cobb County from I-285 through Marietta, Kennesaw and into Acworth. Within the project area, I-575 extends from I-75 northeasterly into Cherokee County.

A notice of intent announcing the preparation of an environmental impact statement was published in the **Federal Register** on March 9, 2004. FHWA and GDOT issued the Alternative Analysis/ Draft Environmental Impact Statement (AA/DEIS) in May 2007.

The AA/DEIS evaluated four build alternatives, three design options and two operational options. The build alternatives included the highoccupancy vehicles (HOV) and truck only lanes (TOL) Alternative, the HOV/ TOL/Transportation System Management (TSM) Alternative, the HOV/TOL/Bus Rapid Transit (BRT) Alternative, and the HOV/TOL/Reduced BRT Alternative. The SDEIS will evaluate a proposal that would consist of a two-lane reversible managed alternative and improvements to operations will be analyzed in the SDEIS.

An agency meeting will be held during the development of the SDEIS. Numerous opportunities for public input will be provided. The Northwest Corridor project Web site will be updated to include the SDEIS and there will be outreach to local and state-wide media. Letters describing the new alternative and soliciting comments will be sent to the public, private entities, Federal, State and local agencies. Formal public hearings will take place along the corridor. Public notice will be given announcing the time and place of the public hearings. The SDEIS will be available for public and agency review prior to the public hearings. Comments and questions should be directed to FHWA at the addresses provided above.

## Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), notice is hereby given that the Federal Railroad Administration (FRA) has received a request for a waiver of compliance from certain requirements of its safety standards. The individual petition is described below, including the party seeking relief, the regulatory provisions involved, the nature of the relief being requested, and the petitioner's arguments in favor of relief from the requirements of Title 49 CFR Part 236, as detailed below.

# **Union Pacific Railroad Company**

[Docket Number FRA-2009-0117]

The Union Pacific Railroad (UP) seeks relief from the requirements of the Rules, Standards, and Instructions, Title 49 CFR Part 236. Specifically, UP seeks relief from the requirements of Subpart A, Rules and Instructions: All Systems, Section 236.109 Time releases, timing relays and timing devices; regarding performance of timing duration test on timers with variable settings at an interval of not less than once every 12 months. UP seeks to extend periodic testing requirements of non-adjustable timers from at least once every 12 months to every 4 years after initial testing has been completed at all interlockings, control points, and other signal locations controlled by microprocessor-based equipment. This request for relief proposes to use alternative locking test procedures at signal locations with microprocessorbased equipment after an initial base line time duration test is performed. The following proposed alternative timer tests will be performed every 4 years after initial testing or program change:

• Verification of the Cyclic Redundancy Check/Check Sum/ Universal Control Number of the existing location specific application logic to the previously tested version (baseline testing).

• Testing the duration of any timers with variable settings.

Alternative test descriptions and procedures for timers with variable settings in microprocessor-based equipment would be documented in Carriers Signal Maintenance Standards.

Applicant's justification for relief: The requirement for not less than once every 12 months testing interval at microprocessor controlled signal locations places an unnecessary burden on the carrier and provides no real safety benefit as the application program logic (and timer values) once installed does not change.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number (*e.g.*, Waiver Petition Docket Number FRA–2009–0117) and may be submitted by any of the following methods:

• *Web site:* http:// www.regulations.gov. Follow the online instructions for submitting comments.

• *Fax:* 202–493–2251.

• *Mail:* Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue, SE., W12–140, Washington, DC 20590.

• *Hand Delivery: 1200* New Jersey Avenue, SE., Room W12–140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Communications received within 45 days of the date of this notice will be considered by FRA before final action is taken. Comments received after that date will be considered as far as practicable. All written communications concerning these proceedings are available for examination during regular business hours (9 a.m.–5 p.m.) at the above facility. All documents in the public docket are also available for inspection and copying on the Internet at the docket facility's Web site at http://www.regulations.gov.

Anyone is able to search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the document (or signing the document, if submitted on behalf of an association, business, labor union, etc.). You may review DOT's complete Privacy Act Statement in the **Federal Register** published on April 11, 2000 (65 FR 19477) or at http://www.dot.gov/ privacy.html. Issued in Washington, DC, on December 16, 2009.
