

hand-cut. About 870 acres of ground-based yarding and 440 acres of cable yarding have been identified. The majority of the project area includes existing roads that can be used to accomplish proposed activities. About two miles of temporary roads would be constructed. Some new landings may be required.

Responsible Official

Patricia A. Grantham, Forest Supervisor, Klamath National Forest, 1312 Fairlane Road, Yreka, CA 96097.

Nature of Decision To Be Made

The responsible official will decide whether to adopt and implement the proposed action, an alternative to the proposed action, or take no action to make changes to existing conditions in the Johnny O'Neil Late-Successional Reserve.

Scoping Process

Public participation will be especially important at several points during the analysis. The Forest Service will be seeking information, comments, and assistance from federal, state, and local agencies and other individuals or organizations who may be interested in or affected by the proposed action.

Members of the Johnny O'Neil Team have been meeting informally with interested individuals, adjacent landowners and residents, and organizations to discuss the need for treatment of the Johnny O'Neil LSR and various possible ways to treat the area.

The draft EIS is expected to be filed with the Environmental Protection Agency (EPA) and to be available for public review by November 2010. EPA will publish a notice of availability of the draft EIS in the **Federal Register**. The comment period on the draft EIS will extend 45 days from the date the EPA notice appears in the **Federal Register**. At that time, copies of the draft EIS will be distributed to interested and affected agencies, organizations, and members of the public for their review and comment. It is very important that those interested in the management of the Klamath National Forest participate at that time.

The final EIS is scheduled to be completed in March 2011. In the final EIS, the Forest Service will respond to comments received during the comment period that are: Within the scope of the proposed action; specific to the proposed action; have a direct relationship with the proposed action; and include supporting reasons for the responsible official to consider. Submission of comments to the draft EIS is a prerequisite for eligibility to

participate in the pre-decisional objection process under the 36 CFR part 218 regulations.

Comment Requested

This Notice of Intent initiates the scoping process which guides the development of the environmental impact statement.

Early Notice of Importance of Public Participation in Subsequent Environmental Review: A draft EIS will be prepared for comment. The comment period on the draft EIS will be 45 days from the date the EPA publishes the notice of availability in the **Federal Register**.

At this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of draft EISs must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions. *Vermont Yankee Nuclear Power Corp. v. NRDC*, 435 U.S. 519, 553 (1978). Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts. *City of Angoon v. Hodel*, 803 F.2d 1016, 1022 (9th Cir. 1986) and *Wisconsin Heritages, Inc. v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980). Because of these court rulings, it is very important that those interested in this proposed action participate by the close of the 45-day comment period so that comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

To assist the Forest Service in identifying and considering issues and concerns on the proposed action, comments on the draft EIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the draft EIS. Comments may also address the adequacy of the draft EIS or the merits of the alternatives formulated and discussed in the statement. Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

Comments received, including the names and addresses of those who comment, will be considered part of the public record on this proposal and will be available for public inspection.
