

moist-soil habitat would include developing complete water control capability on all moist-soil acres and use of periodic disturbance to set back succession. Further, the Service would pursue cooperative projects to improve habitat quality on 500 acres of open water. Waterfowl usage and shorebird response to habitat management would be monitored.

The two significant enhancements in the public use program would be development of an environmental education center on the refuge and the addition of a park ranger (visitor services) to the staff. These enhancements would greatly increase our capability and opportunity to conduct environmental education and interpretation programs, and to better utilize qualified volunteers in support of Holla Bend NWR's mission and objectives. One responsibility of the park ranger would be to develop a plan for recruiting and effectively managing volunteer support. Wildlife-dependent recreation activities would be the same as under Alternative A.

This alternative would include the construction of a fishing pier at Lodge Lake to be accessible by disabled individuals; development of a bird observation trail north of the refuge office; improvements to the Lodge Lake Trail and the loop to the Levee Trail; and selective vegetation management along refuge roads to improve wildlife viewing opportunities. Information kiosks, direction signs, parking lots, and other visitor use facilities also would be improved to the extent feasible. We would determine the maximum number of archery hunters that refuge resources could support, and we would evaluate the feasibility of adding a dove season.

We would pursue opportunities to purchase or exchange priority tracts within the refuge acquisition boundary, which includes 1,703 acres in private ownership distributed in numerous small tracts around the perimeter of the refuge.

The staff would include a refuge manager, deputy refuge manager, heavy equipment operator, and office assistant, and would be increased to also include a biologist and biological science technician, a park ranger (visitor services), a park ranger (law enforcement), an operations specialist, and a heavy equipment mechanic.

#### Next Step

After the comment period ends, we will analyze the comments and address them.

#### Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

#### Authority

This notice is published under the authority of the National Wildlife Refuge System Improvement Act of 1997, Public Law 105–57.

Dated: October 15, 2009.

**BILLING CODE P****DEPARTMENT OF THE INTERIOR****Minerals Management Service****Outer Continental Shelf Civil Penalties**

**AGENCY:** Minerals Management Service (MMS), Interior.

**ACTION:** Notice summarizing review of the maximum daily civil penalty assessment.

**SUMMARY:** The Outer Continental Shelf Lands Act requires the MMS to review the maximum daily civil penalty assessment for violations of regulations governing oil and gas operations in the Outer Continental Shelf at least once every 3 years. This review ensures that the maximum penalty assessment reflects any increases in the Consumer Price Index as prepared by the Bureau of Labor Statistics, U.S. Department of Labor. After conducting the required review in August 2009, the MMS determined that no adjustment is necessary at this time.

**FOR FURTHER INFORMATION CONTACT:** Joanne McCammon, Safety and Enforcement Branch at (703) 787-1292 or e-mail at [Joanne.McCammon@mms.gov](mailto:Joanne.McCammon@mms.gov).

**SUPPLEMENTARY INFORMATION:** The goal of the MMS Outer Continental Shelf (OCS) Civil Penalty Program is to ensure safe and clean operations on the OCS. By assessing and collecting civil penalties, the program is designed to encourage compliance with OCS statutes and regulations. Not all regulatory violations warrant a review to initiate civil penalty proceedings; however, violations that cause injury, death, or environmental damage, or pose a threat to human life or the environment, will trigger such review.

The Oil Pollution Act of 1990 (OPA 90) (Pub. L. 101-380) expanded and strengthened MMS's authority to impose penalties for violating regulations promulgated under the OCS Lands Act. Section 8201 of OPA 90, which amended section 24(b) of the OCS Lands Act, 43 U.S.C. 1350(b), directs the Secretary of the Interior to adjust the maximum civil penalty amount at least once every 3 years to reflect any increases in the Consumer Price Index (CPI). The purpose of this adjustment is to ensure that punitive assessments keep up with inflation. If an adjustment is necessary, MMS informs the public through publication in the **Federal Register** of the new maximum amount. The MMS uses Office of Management and Budget (OMB) guidelines for determining how penalty amounts should be rounded.

The MMS published regulations adjusting the civil penalty assessment to \$25,000 per violation per day on August 8, 1997 (62 FR 42667); to \$30,000 on October 29, 2003 (68 FR 61622); and to \$35,000 on February 28, 2007 (72 FR 8897). In August 2009, MMS performed computations to determine if it should increase the current maximum civil penalty amount of \$35,000 per violation per day. After running the computations, the MMS determined that the CPI did not increase enough to warrant raising the maximum civil penalty amount at this time. The MMS will monitor the CPI, and when the computations justify raising the maximum civil penalty amount, the MMS will publish a Notice in the **Federal Register** to notify the public of the increase.

**Authority:** 43 U.S.C. 1350.

Dated: January 4, 2010.

**DEPARTMENT OF THE INTERIOR****Bureau of Land Management**

[LLWY-920000-L143000000-ET0000; WYW 109115]

**Notice of Proposed Withdrawal Extension and Opportunity for Public Meeting; WY**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice.

**SUMMARY:** The Assistant Secretary of the Interior—Land and Minerals

Management proposes to extend the duration of Public Land Order (PLO) No. 6797 for an additional 20-year term. PLO No. 6797 withdrew 9,609.74 acres of public mineral estate from location or entry under the United States mining laws (30 U.S.C. Ch.2), to protect the Whiskey Mountain Bighorn Sheep Winter Range in Fremont County. This notice also gives an opportunity to comment on the proposed action and to request a public meeting.

**DATES:** Comments and requests for a public meeting must be received by April 8, 2010.

**ADDRESSES:** Comments and meeting requests should be sent to the BLM Wyoming State Director, P.O. Box 1828, Cheyenne, Wyoming 82003-1828.

**FOR FURTHER INFORMATION CONTACT:** Janelle Wrigley, BLM Wyoming State Office, 307-775-6257, or at the above address.

**SUPPLEMENTARY INFORMATION:** The withdrawal created by PLO No. 6797 (55 FR 37878 (1990)) will expire September 13, 2010, unless extended. PLO No. 6797 is incorporated herein by reference. The BLM has filed a petition/application to extend PLO No. 6797 for an additional 20-year term. The withdrawal was made to protect the bighorn sheep winter range and capital investments on the land described in the PLO at 55 FR 37878 (1990). The area aggregates 9,609.74 acres in Fremont County, Wyoming.

The purpose of the proposed extension is to continue the withdrawal created by PLO No. 6797 for an additional 20-year term to protect the Whiskey Mountain Bighorn Sheep Winter Range and capital investments in the area.

The use of a right-of-way, interagency, or cooperative agreement would not adequately constrain nondiscretionary uses which could result in the permanent loss of significant values and irreplaceable resources of the range.

There are no suitable alternative sites since the lands described herein contain the area that has historically been used as bighorn sheep winter range, due to its physical characteristics, and because of the local weather conditions.

No water rights would be needed to fulfill the purpose of the requested withdrawal extension.

Records relating to the application may be examined by contacting Janelle Wrigley at the above address or by phone at 307-775-6257 or by contacting the BLM Field Manager, Lander Field Office, 1335 Main Street, Lander, Wyoming 82520 or by phone at 307-332-8400.
