In the Second Report and Order and Further Notice of Proposed Rulemaking, the Commission extended by twelve months the existing 2006 deadline in Section 76.1204(a)(1) prohibiting the deployment of integrated navigation devices by multichannel video programming distributors in order to promote the

retail sale of non-integrated navigation devices. This extension was intended to afford cable operators additional time to investigate and develop a downloadable security solution that will allow common reliance by cable operators and consumer electronics manufacturers on an identical security function without the additional costs of physical separation inherent in the point-of-deployment module, or CableCARD, solution. The rules adopted in this proceeding added information collection requirements to this collection and also were intended to implement Section 629 of the Communications Act of 1934, as amended, 47 U.S.C. § 549.
