

preliminary results of an administrative review within 245 days after the last day of the anniversary month of an order for which a review is requested. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the 245 day time period for the preliminary results up to 365 days.

The Department has determined it is not practicable to complete this review within the statutory time limit because we require additional time to collect and analyze information needed for our preliminary results. Accordingly, the Department is extending the time limits for completion of the preliminary results of this administrative review until no later than May 31, 2010, which is 365 days from the last day of the anniversary month of these orders. We intend to issue the final results in this review no later than 120 days after publication of the preliminary results.

This notice is issued and published in accordance with sections 751(a)(3)(A) and 777(i)(1) of the Act.

Dated: January 7, 2010.

John M. Andersen,

Acting Deputy Assistant Secretary for Antidumping and Countervailing Duty Operations.

RIN 0648-XT68

North Pacific Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings of the North Pacific Fishery Management Council Ecosystem Committee.

SUMMARY: The North Pacific Fishery Management Council (Council) Aleutian Islands Fishery Ecosystem Plan Team (AI Ecosystem Team) will meet in Seattle, WA, in the NMML conference room (room 2039), from 9 a.m. to 5 p.m., January 27-28, 2010. The Council's Ecosystem Committee will meet jointly with the AI Ecosystem Team on January 28 from 1 p.m. to 5 p.m.

DATES: The meetings will be held on January 27-28, 2010.

ADDRESSES: The meetings will be held at the Atlantic Fisheries Science Center

(AFSC), 7600 Sand Point Way NE, Building 4, NMML conference room (room 2039), Seattle, WA.

Council address: North Pacific Fishery Management Council, 605 W. 4th Ave., Suite 306, Anchorage, AK 99501-2252.

FOR FURTHER INFORMATION CONTACT: Diana Evans, Council staff, telephone: (907) 271-2809.

SUPPLEMENTARY INFORMATION: The agenda is as follows:

AI Ecosystem Team agenda (January 27-28):

Review new information on AI ecosystem; Review FEP interactions and update as appropriate; Plan for further updates and amendments to the FEP.

Joint Ecosystem Committee and AI Ecosystem Team agenda (January 28, 1-5 p.m.):

Discuss AI Fishery Ecosystem Plan updates, and further action; Discuss NOAA's marine spatial planning framework, and provide recommendations for the Council.

The Agenda is subject to change, and the latest version will be posted at <http://www.alaskafisheries.noaa.gov/npfmc/>

Although non-emergency issues not contained in this agenda may come before this group for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), those issues may not be the subject of formal action during this meeting. Actions will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Gail Bendixen at (907) 271-2809 at least 7 working days prior to the meeting date.

Dated: January 7, 2010.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

New England Fishery Management Council; Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of a public meeting.

SUMMARY: The New England Fishery Management Council (Council) will hold a 3-day Council meeting to consider actions affecting New England fisheries in the exclusive economic zone (EEZ).

DATES: The meeting will be held on Tuesday, January 26 through Thursday, January 28, 2010. The meeting will begin at 8:30 a.m. on each of the 3 meeting days.

ADDRESSES: The meeting will be held at the Sheraton Harborside Hotel, 250 Market Street, Portsmouth, NH 03801; telephone: (603) 431-2300 and fax: (603) 433-5649.

Council address: New England Fishery Management Council, 50 Water Street, Mill 2, Newburyport, MA 01950.

FOR FURTHER INFORMATION CONTACT: Paul J. Howard, Executive Director, New England Fishery Management Council; telephone: (978) 465-0492.

SUPPLEMENTARY INFORMATION:

Tuesday, January 26, 2010

Following introductions and any announcements, the Council will receive a series of brief reports from the Council Chairman and Executive Director, the NOAA Fisheries Northeast Regional Administrator, Northeast Fisheries Science Center and Mid-Atlantic Fishery Management Council liaisons, NOAA General Counsel, representatives of the U.S. Coast Guard and the Atlantic States Marine Fisheries Commission, as well as NOAA Enforcement. These reports will be followed by a review of any experimental fishery permit applications that have been received since the last Council meeting. During the morning session the Council also will review sector implementation as developed in the Northeast Multispecies (Groundfish) Fishery Management Plan (FMP) as part of a report to be provided by the National Marine Fisheries Service Regional Office staff from Gloucester, MA. After a lunch break, the Council will review and provide feedback to the Northeast Fisheries

Science Center on their performance monitoring and evaluation plan concerning existing and future catch share programs. The Council's Herring Committee will present an overview of the management measures proposed in Amendment 4 to the Atlantic Herring FMP, including the establishment of annual catch limits and accountability measures, and select final measures before submitting the action to NMFS. NOAA leadership will present a briefing on its Catch Shares Policy and conduct a question and answer session following the presentation.

Wednesday, January 27, 2010

The second day of the Council meeting will begin with a discussion about and possible reconsideration of Framework 21 to the Atlantic Sea Scallop FMP. Pending the outcome of this agenda item, the Council also may revisit Framework 44 to the Northeast Multispecies FMP to change the yellowtail flounder allocation to the scallop fleet in that action. Later, the Groundfish Committee will ask for approval of alternative rebuilding strategy options for the Georges Bank yellowtail flounder stock. The Chairman of the Scientific and Statistical Committee (SSC) will report on the committee's comments concerning a model developed by the Habitat Plan Development Team (PDT) to analyze alternatives to minimize adverse impacts of fishing activities. The SSC also will report on the process-related issues addressed at the last SSC meeting as well as the comments of SSC members on the published proposed rule concerning practices and procedures related to National Standard 2. The Habitat Committee will comment, where appropriate, about the model developed by its PDT, as well as on President Obama's Interagency Ocean Policy Task Force Report: *Interim Framework for Effective Coastal and Marine Spatial Planning*.

Thursday, January 28, 2010

The Council will begin the last day of the meeting with a discussion of several outstanding issues related to work priorities for 2010. The Northeast Fisheries Science Center staff will follow with two reports, one on the status of projected observer days-at-sea for the upcoming year in accordance with the Council's Standard Bycatch Reporting Methodology rules and another on the Vessel Calibration Workshop held late last year. The Council also intends to approve a range of alternatives to be analyzed in Amendment 3 to the Red Crab FMP. The action will include annual catch limits

and accountability measures, and possibly a total allowable catch for the fleet. The day will conclude with an open period for public comments about items not listed on the agenda but related to Council business and any other outstanding issues that were postponed until the end of the meeting.

Although other non-emergency issues not contained in this agenda may come before this Council for discussion, those issues may not be the subjects of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided that the public has been notified of the Council's intent to take final action to address the emergency.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Paul J. Howard (see **ADDRESSES**) at least 5 days prior to the meeting date.

Dated: January 11, 2010.

Tracey L. Thompson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

RIN 0648-XT69

Fisheries of the Atlantic; Southeast Data, Assessment, and Review (SEDAR); Atlantic croaker and Atlantic menhaden; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR Review Workshop for Atlantic croaker and Atlantic menhaden.

SUMMARY: The SEDAR assessment review of the Atlantic stocks of croaker and menhaden will be conducted at a Review Workshop. This is the twentieth SEDAR. See **SUPPLEMENTARY INFORMATION**.

DATES: The Review Workshop will take place March 8-12, 2010. See **SUPPLEMENTARY INFORMATION** for specific dates and times.

ADDRESSES: The Review Workshop will be held at the Hilton Garden Inn, 5265 International Boulevard, North Charleston, SC 29418; (800) 782-9444 or (843) 308-9330.

FOR FURTHER INFORMATION CONTACT: Dale Theiling, SEDAR Coordinator, 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405; (843) 571-4366.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. The SEDAR 20 Review Workshop will be an independent peer review of the products from assessments of Atlantic stocks of croaker and menhaden conducted by the Atlantic States Marine Fisheries Commission (ASMFC). Products to be reviewed are reports from the ASMFC Data Workshop and ASMFC Stock Assessment Workshop for each stock. The Data Workshop Reports compile and evaluate potential datasets and recommend which datasets are appropriate for assessment analyses. The Stock Assessment Workshop Reports describe the fisheries, evaluate the status of the stock, estimate biological benchmarks, project future population conditions, and recommend research and monitoring needs. The product of the Review Workshop is a Peer Review Evaluation Report documenting Panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for the SEDAR 20 Review Workshop are appointed by the Atlantic States Marine Fisheries Commissions, NOAA Fisheries Southeast Fisheries Science Center, and the NOAA Center for Independent Experts. Review Workshop participants may include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; international experts; and staff of Councils, Commissions, and state and federal agencies.
