**SUPPLEMENTARY INFORMATION:**

#### I. Background

Section 503 of ERISA requires each employee benefit plan to provide, pursuant to regulations promulgated by the Secretary of Labor, notice in writing to any participant or beneficiary whose claim for benefits under the plan has been denied. The notice must set forth the specific reasons for the denial and must be written in a manner calculated to be understood by the claimant. Plans must also give a participant or beneficiary whose claim has been denied a reasonable opportunity to obtain a full and fair review of any benefit claim denial by the appropriate named fiduciary.

The Department issued a regulation pertaining to benefit claims procedures in 1977 and amended that regulation in a Notice of Final Rulemaking (NFRM) published on November 21, 2000 (65 FR 70246). The regulation pertaining to benefit claims procedures is codified at 29 CFR 2560.503-1. The regulation requires plans to establish reasonable claims procedures that meet specified standards governing the timing and content of notices and disclosures. EBSA submitted an ICR for the information collections in 29 CFR 2560.503-1 to the Office of Management

and Budget (OMB) for review and clearance in connection with publication of the NFRM, and OMB approved the information collections under OMB control number 1210-0053. That approval is scheduled to expire on April 30, 2010. After considering comments received in response to this notice, the Department intends to submit an ICR to OMB to request continuing approval. The public is not required to respond to an information collection unless it displays a valid control number. No change to the existing ICR is being proposed or made at this time.

#### II. Desired Focus of Comments

The Department of Labor (Department) is particularly interested in comments that

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
