BILLING CODE 4510-26-P

DEPARTMENT OF DEFENSE

Department of the Army, Corps of Engineers

33 CFR Part 334

Restricted Areas and Danger Zone at Naval Station Mayport, FL

AGENCY: United States Army Corps of Engineers, Department of Defense.

ACTION: Notice of proposed rulemaking and request for comments.

SUMMARY: The U.S. Army Corps of Engineers (Corps) is proposing to revise the existing regulations for a restricted area and establish a danger zone in the waters adjacent to and within the boundaries of Naval Station (NAVSTA) Mayport in Florida. The NAVSTA is the third largest naval facility in the continental United States and is unique in that it is home to a busy seaport as well as an air facility which conducts more than 135,000 flight operations each year. This amendment to the existing regulation is necessary to enhance the safety of the local community by ensuring safe navigation of the adjacent waterways, to preserve military security force protection measures, and adhere to military munitions regulations.

DATES: Written comments must be submitted on or before February 24, 2010.

ADDRESSES: You may submit comments, identified by docket number COE-2009-0063 by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

publicly available, such as CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form.

FOR FURTHER INFORMATION CONTACT: Mr. David Olson, Headquarters, Operations and Regulatory Community of Practice, Washington, DC at 202-761-4922 or Mr. Jon M. Griffin, U.S. Army Corps of Engineers, Jacksonville District, Regulatory Division, at 904-232-1680.

SUPPLEMENTARY INFORMATION: Pursuant to its authorities in Section 7 of the Rivers and Harbors Act of 1917 (40 Stat. 266; 33 U.S.C. 1) and Chapter XIX of the Army Appropriations Act of 1919 (40 Stat 892; 33 U.S.C. 3) the Corps is proposing to amend the regulations at 33 CFR part 334 by expanding the existing restricted area as well as establishing two new restricted areas and a new danger zone in Florida within the NAVSTA Mayport facilities and along the facility shoreline. The amendment to the existing regulation will allow the Commanding Officer, NAVSTA Mayport to restrict passage of persons, watercraft, and vessels in waters contiguous to his Command to meet Department of Defense directive O-2000.12-H Chapter C22.14 and United States Fleet Forces Antiterrorism Operation Order 3300-09 requirements for Waterside Security and Naval Vessel Protection Zones. The amendment is also intended to address public safety concerns associated with increased vessel traffic in the waterways adjacent to the NAVSTA Mayport facility, especially during munitions movement in and around the munitions wharves.

Procedural Requirements

a. *Review Under Executive Order 12866.* The proposed rule is issued with respect to a military function of the Department of Defense and the provisions of Executive Order 12866 do not apply.

b. *Review Under the Regulatory Flexibility Act.* The proposed rule has been reviewed under the Regulatory Flexibility Act (Pub. L. 96-354) which requires the preparation of a regulatory flexibility analysis for any regulation that will have a significant economic impact on a substantial number of small entities (*i.e.*, small businesses and small governments). Unless information is obtained to the contrary during the comment period, the Corps expects that the proposed rule would have practically no economic impact on the public, or result in no anticipated navigational hazard or interference with

existing waterway traffic. This proposed rule, if adopted, will have no significant economic impact on small entities.

c. *Review Under the National Environmental Policy Act.* Due to the administrative nature of this action and because there is no intended change in the use of the area, the Corps expects that this regulation, if adopted, will not have a significant impact on the quality of the human environment and, therefore, preparation of an environmental impact statement will not be required. An environmental assessment will be prepared after the public notice period is closed and all comments have been received and considered.

d. *Unfunded Mandates Act.* This proposed rule does not contain a Federal mandate that may result in expenditures of \$100 million or more for State, local, and Tribal governments, in the aggregate, or the private sector in any one year. Therefore, this proposed rule is not subject to the requirements of Sections 202 and 205 of the Unfunded Mandates Reform Act (UMRA). The proposed rule contains no regulatory requirements that might significantly or uniquely affect small governments. Therefore, the proposed rule is not subject to the requirements of Section 203 of UMRA.

Additionally, a floating Small Craft Intrusion Barrier will be placed across Sherman Creek just east of the A1A bridge and another will be placed across tributaries to Sherman Creek just north of the Wonderwood Expressway.

(4) *Danger zone.* During periods of munitions movement at wharves Bravo and Charlie, no person or vessel shall be allowed to remain within the 1,250-foot Explosive Safety Quantity-Distance arcs generated by the activity. NAVSTA Mayport will not announce or publish notification prior to enforcing this regulation due to the unacceptable security threat posed by advance public notice of military munitions movements.

(c) *Enforcement.* The regulations in this section shall be enforced by the Commanding Officer, NAVSTA Mayport, Florida and/or such persons or agencies as he/she may designate. Military vessels will patrol the areas identified in this section 24 hours a day, 7 days a week.
