SUPPLEMENTARY INFORMATION: Section 3506 of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35) requires that the Office of Management and Budget (OMB) provide interested Federal agencies and the public an early opportunity to comment on information collection requests. OMB may amend or waive the requirement for public consultation to the extent that public participation in the approval process would defeat the purpose of the information collection, violate State or Federal law, or substantially interfere with any agency's ability to perform its statutory obligations. The Acting Director, Information Collection Clearance Division, Regulatory Information Management Services, Office of Management, publishes that notice containing proposed information collection requests prior to submission of these requests to OMB. Each proposed information collection, grouped by office, contains the following: (1) Type of review requested, e.g., new, revision, extension, existing or reinstatement; (2) Title; (3) Summary of the collection; (4) Description of the need for, and proposed use of, the information; (5) Respondents and frequency of collection; and (6) Reporting and/or Recordkeeping burden. DEPARTMENT OF EDUCATION**Office of Special Education and Rehabilitative Services; Overview Information; Technology and Media Services for Individuals With Disabilities—Steppingstones of Technology Innovation for Children With Disabilities Notice Inviting Applications for New Awards for Fiscal Year (FY) 2010**

Catalog of Federal Domestic Assistance (CFDA) Number: 84.327A.

Note: This notice includes one absolute priority with two phases, and funding information for each phase of the competition.

Dates:

Applications Available: February 2, 2010.

Deadline for Transmittal of Applications: See the chart in the Award Information section of this notice (Chart).

Deadline for Intergovernmental Review: See Chart.

Full Text of Announcement**I. Funding Opportunity Description**

Purpose of Program: The purposes of the Technology and Media Services for Individuals with Disabilities program are to: (1) Improve results for children with disabilities by promoting the development, demonstration, and use of technology; (2) support educational media services activities designed to be of educational value in the classroom setting to children with disabilities; and (3) provide support for captioning and video description that are appropriate for use in the classroom setting.

Priority: In accordance with 34 CFR 75.105(b)(2)(v), this priority is from allowable activities specified in the statute, or otherwise authorized in the statute (see sections 674 and 681(d) of the Individuals with Disabilities Education Act (IDEA)).

Absolute Priority: For FY 2010 and any subsequent year in which we make awards based on the list of unfunded applications from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Technology and Media Services for Individuals With Disabilities—Steppingstones of Technology Innovation for Children With Disabilities**Background**

The Department has made Steppingstones of Technology Innovation for Children with

Disabilities awards for several years under the Technology and Media Services for Individuals with Disabilities program. Awards are made in two phases: (1) Development and (2) research on effectiveness. Abstracts of projects funded under these two phases can be found at <http://publicddb.tadnet.org/>.

Priority

The Steppingstones of Technology Innovation for Children with Disabilities absolute priority requires grantees to develop, implement, and evaluate innovative technology approaches designed to improve results for children with disabilities. Phase 1 projects must develop, refine, and test the feasibility of specific technology-based approaches. Phase 2 projects must subject technology-based approaches to rigorous field-based research to determine their effectiveness.

To be considered for funding under the Steppingstones of Technology Innovation for Children with Disabilities absolute priority, applicants must meet the application requirements contained in the priority. All projects funded under the absolute priority also must meet the programmatic and administrative requirements specified in the priority. The application, programmatic, and administrative requirements are as follows:

(a) In the application, an applicant must—

(1) Describe a technology-based approach for improving the results of (a) early intervention programs, (b) response-to-intervention (RTI) assessment techniques, or (c) preschool, elementary school, middle school, or high school educational programs for children with disabilities. The technology-based approach must be an innovative combination of new technology and additional materials and methodologies that enable the technology to improve early intervention programs, RTI assessment techniques, or educational results for children with disabilities;

(2) Present a justification, based on scientifically rigorous research or theory, that supports the potential effectiveness of the technology-based approach described pursuant to paragraph (a)(1) of this priority for improving results for children with disabilities. The approach must have the potential to improve child outcomes, not just parent or provider outcomes. Child outcomes may include improved academic or pre-academic skills, improved behavioral or social functioning, and improved functional performance, provided that valid and

reliable measurement instruments are employed to assess the outcomes. Technology-based approaches intended for use by providers or parents may not be funded under this priority unless child-level benefits are clearly demonstrated. Technology-based approaches for professional development will not be funded under this priority;

(3) Provide a detailed plan for conducting work in one of the following two phases:

(i) *Phase 1—Development*: Projects funded under Phase 1 must develop and refine a technology-based approach, and test its feasibility for use with children with disabilities. Activities under Phase 1 of the priority may include development, adaptation, and refinement of technology, materials, or methodologies. Activities under Phase 1 of the priority must include a formative evaluation of the technology-based approach's usability and feasibility for use with children with disabilities. Each project funded under Phase 1 must be designed to develop, as its primary product, a promising technology-based approach that is suitable for field-based evaluation of its effectiveness in improving results for children with disabilities.

(ii) *Phase 2—Research on Effectiveness*: Projects funded under Phase 2 must select a promising technology-based approach that has been developed and tested in a manner consistent with the criteria for activities funded under Phase 1, and subject the approach to rigorous field-based research to determine its effectiveness in educational or early intervention settings. Approaches studied under Phase 2 may have been developed with previous funding under Phase 1 of this priority or with funding from other sources. Phase 2 of this priority is primarily intended to produce sound research-based evidence demonstrating that the technology-based approach can improve educational or early intervention results for children with disabilities in a defined range of real world contexts.

Projects funded under Phase 2 of this priority must conduct research that poses a causal question and must seek to answer that question through randomized assignment to treatment and comparison conditions, unless a strong justification is made for why a randomized trial is not possible. If a randomized trial is not possible, the applicant must employ alternatives that substantially minimize selection bias or allow the selection bias to be modeled. These alternatives include appropriately structured regression-discontinuity

designs and natural experiments in which naturally occurring circumstances or institutions (perhaps unintentionally) divide people into treatment and comparison groups in a manner akin to purposeful random assignment. In their applications, applicants proposing to use an alternative system must (1) make a compelling case that randomization is not possible, and (2) describe in detail how the procedures will result in substantially minimizing the effects of selection bias on estimates of effect size. Choice of randomizing unit or units (e.g., students, classrooms, schools) must be grounded in a theoretical framework. Observational, survey, or qualitative methodologies may complement experimental methodologies to assist in the identification of factors that may explain the effectiveness or ineffectiveness of the technology-based approach being evaluated. Applicants must propose research designs that permit the identification and assessment of factors that may have an impact on the fidelity of implementation. Mediating and moderating variables that are both measured in the practice or model condition and are likely to affect outcomes in the comparison condition must be measured in the comparison condition (e.g., student time-on-task, teacher experience, or time in position).

Projects funded under Phase 2 of this priority must conduct comprehensive research in order to provide convincing evidence of the effectiveness or ineffectiveness of the technology-based approach under study, at least within a defined range of settings. Applicants must provide documentation that available sample sizes, methodologies, and treatment effects are likely to result in conclusive findings regarding the effectiveness of the technology-based approach;

(4) Provide a plan for forming collaborative relationships with vendors, other dissemination or marketing resources, or both to ensure that the technology-based approach can be made widely available if sufficient evidence of effectiveness is obtained. Applicants should document the availability and willingness of dissemination or marketing resources to participate. Applicants are encouraged to plan these collaborative relationships early in their projects, even in Phase 1 (if applicable), but should refrain from widespread dissemination of the technology-based approach to practitioners until evidence of its effectiveness is obtained in Phase 2; and

(5) Budget for the project director to attend an annual three-day Project

Directors' meeting in Washington, DC, and another annual two-day trip to Washington, DC to collaborate with the Federal project officer and the other projects funded under this priority to share information, and to discuss findings and methods of dissemination.

(b) The project also must conduct the following activities:

(1) If the project maintains a Web site, include relevant information and documents in a format that meets a government or industry-recognized standard for accessibility.

(2) If the project produces instructional materials for dissemination, produce them in accessible formats (e.g., with captioning, with video description, or complying with the National Instructional Materials Accessibility Standard (NIMAS), as appropriate).

Within this absolute priority, we are particularly interested in applications that address the following invitational priorities.

Invitational Priorities: Under 34 CFR 75.105(c)(1) we do not give an application that meets one of these invitational priorities a competitive or absolute preference over other applications.

These priorities are:

(1) Projects led by a project director or principal investigator who is in the initial phase of his or her career. For purpose of this invitational priority, the initial phase of an individual's career is

considered to be the first three years after the individual completes and graduates from a doctoral program (i.e., for FY 2010 awards, projects may support individuals who completed and graduated from a doctoral program no earlier than the 2006–2007 academic year).

(2) Projects focusing on technology-based approaches for children with disabilities, ages birth to age three.

(3) Projects focusing on technology-based approaches to response-to-intervention assessment techniques.

(4) Projects focusing on technology-based approaches for instruction in science, mathematics, or both for children with disabilities.

Waiver of Proposed Rulemaking: Under the Administrative Procedure Act (APA) (5 U.S.C. 553), the Department generally offers interested parties the opportunity to comment on proposed priorities and requirements. Section 681(d) of IDEA, however, makes the public comment requirements of the APA inapplicable to the priority in this notice.

Program Authority: 20 U.S.C. 1474 and 1481.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education (IHEs) only.

(2) A mail receipt that is not dated by the U.S. Postal Service.

If your application is postmarked after the application deadline date, we will not consider your application.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, you should check with your local post office.

c. *Submission of Paper Applications by Hand Delivery.*

If you submit your application in paper format by hand delivery, you (or a courier service) must deliver the original and two copies of your application by hand, on or before the application deadline date, to the Department at the following address: U.S. Department of Education, Application Control Center, Attention: (CFDA Number 84.327A), 550 12th Street, SW., Room 7041, Potomac Center Plaza, Washington, DC 20202-4260.

The Application Control Center accepts hand deliveries daily between 8:00 a.m. and 4:30:00 p.m., Washington, DC time, except Saturdays, Sundays, and Federal holidays.

If you do not receive this grant notification within 15 business days from the application deadline date, you should call the U.S. Department of Education Application Control Center at (202) 245-6288.

V. *Application Review Information*

1. *Selection Criteria:* The selection criteria for this program are from 34 CFR 75.210 and are listed in the application package.

2. *Review and Selection Process:* In the past, the Department has had difficulty finding peer reviewers for certain competitions, because so many individuals who are eligible to serve as peer reviewers have conflicts of interest. The Standing Panel requirements under IDEA also have placed additional constraints on the availability of reviewers. Therefore, the Department has determined that, for some discretionary grant competitions, applications may be separated into two or more groups and ranked and selected for funding within specific groups. This procedure will make it easier for the Department to find peer reviewers, by ensuring that greater numbers of

individuals who are eligible to serve as reviewers for any particular group of applicants will not have conflicts of interest. It also will increase the quality, independence, and fairness of the review process, while permitting panel members to review applications under discretionary grant competitions for which they also have submitted applications. However, if the Department decides to select an equal number of applications in each group for funding, this may result in different cut-off points for fundable applications in each group.

VI. *Award Administration Information*

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to <http://www.ed.gov/fund/grant/apply/appforms/appforms.html>.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), the Department has established a set of performance measures, including long-term measures, that are designed to yield information on various aspects of the effectiveness and quality of the Technology and Media Services for Individuals with Disabilities program. These measures focus on the extent to which projects are of high quality, are relevant to improving outcomes of

children with disabilities, and contribute to improving outcomes for children with disabilities. We will collect data on these measures from the projects funded under this competition.

Grantees also will be required to report information on their projects' performance in annual reports to the Department (34 CFR 75.590).
