Department of the Army

Preparation of a Programmatic Environmental Impact Statement (PEIS) for the Stationing and Operation of Joint High Speed Vessels (JHSV's)

AGENCY: Department of the Army, DoD.

ACTION: Notice of intent.

SUMMARY: The Army intends to prepare a PEIS for the proposed stationing and operation of up to 12 JHSV's. The JHSV is a strategic transport vessel that is designed to support the rapid transport of Army Soldiers, other military personnel and equipment in the U.S. and abroad. The PEIS will assess the potential environmental impacts associated with the proposed stationing of JHSV's at the following military port locations: Virginia Tidewater area; San Diego, CA area; Seattle-Tacoma, WA area; Pearl Harbor, HI area; and Guam. These locations were selected based on the following criteria: sites have existing military port facilities that do not require new infrastructure construction or improvements; sites have existing maintenance facilities for up to, but not including, depot level facilities for major JHSV repairs and maintenance; and sites are capable of supporting the strategic needs of the nation's Combatant Commanders. Not all of the proposed ports will receive JHSV's and other viable locations raised during public scoping may be considered as stationing sites. The Army's Record of Decision will make the determination as to which of the potential sites will serve as home port locations.

The Army intends to consider the following alternatives in the PEIS: (1) The stationing and operation of an Army-wide total of five JHSV's at military port facilities in the U.S. or U.S. territories, with up to three JHSV's at any one of the aforementioned locations; (2) The stationing and operation of an Army-wide total of up to 12 JHSV's at military port facilities in the U.S. or U.S. territories and overseas locations operated by the U.S. military, with up to three JHSV's being stationed at any one location; and (3) The no action alternative which retains the Army's existing transport fleet and does not equip the Army with JHSV's. Under the no action alternative, the Army would not be able to increase its expeditionary capability as discussed as a key requirement in the Quadrennial Defense Review (QDR) nor would it meet the rapid deployment goals of Army Transformation.

The JHSV will require fueling-at-sea training; aviation training (helicopter);
