

have a monetary value equivalent to the substantial benefits to exporters who can fill their raw cane sugar allocations under the TRQ. CQEs have always been carefully handled as secure documents, and issued only to foreign government-approved certifying authorities. The Department does not plan to make CQEs available electronically in order to prevent a potential proliferation of invalid CQEs, which could undermine the integrity of the TRQ system.

Signed at Washington, DC, on February 1, 2010.

John D. Brewer,

Administrator, Foreign Agricultural Service.

BILLING CODE 3410-10-P

DEPARTMENT OF AGRICULTURE

Forest Service

Angeles National Forest, California; Tehachapi Renewable Transmission Project, Supplemental Draft EIS

AGENCY: Forest Service, USDA.

ACTION: Notice of intent to prepare a supplemental environmental impact statement.

SUMMARY: The Forest Service will prepare a Supplemental Draft Environmental Impact Statement (SDEIS) to assess the impacts of the Station Fire and other project changes affecting National Forest System (NFS) lands. After the public review period for the SDEIS, the Forest Service will issue its Final EIS. Following release of the Final EIS, the Forest Service will issue a Record of Decision (ROD) to document the decision to either approve or deny the requested Special Use authorization for the Project in response to the application received from Southern California Edison for construction of a series of transmission system improvements to deliver electricity from new wind energy projects in eastern Kern County. The proposed project would be located in Kern, Los Angeles, and San Bernardino counties. The purpose of the project is to provide the electrical facilities necessary to reliably interconnect and integrate in excess of 700 megawatts (MW) and up to approximately 4,500 MW of new wind generation in the Tehachapi Wind Resource Area, currently being planned or expected in the future, thereby assisting SCE and other California utilities to comply with California's Renewables Portfolio Standard (RPS) goals in an expedited manner. It would also further address the reliability needs of the California Independent System

Operator (CATS 0) controlled grid due to projected load growth in the Antelope Valley, and address existing constraints in the transmission system south of the Lugo Substation in Hesperia, California. As the NEPA Lead Agency for the project, the USDA Forest Service will conduct a detailed review of the impacts of the Station Fire which burned approximately 251 square miles of NFS lands in the Angeles National Forest between August 26, 2009 and October 16, 2009. The burned area includes portions of Segments 6 and 11 of the project. An estimated 75% of the project area on National Forest lands was affected.

Changes to the affected environment will be addressed to assess the impacts of the Station Fire. In addition, project changes affecting NFS lands, which may include new helicopter landing/staging sites (a.k.a. fly-yards), pulling/splicing locations, alternate access roads, and changes in tower design will be analyzed in the SDEIS. The USDA Forest Service is providing notice of this analysis so that interested and affected individuals are aware of how they may participate and contribute to the final decision on the TRTP by the Forest Service.

DATES: The SDEIS is expected to be published May 1, 2010. A 45-day comment period will occur following publication of an NOA in the **Federal Register**. Based on this schedule, comments on the information contained in the SDEIS would need to be received by June 15, 2010. The Final EIS is anticipated in September 2010. Project scoping was held in 2007. No additional scoping effort will occur as part of the SDEIS preparation process.

ADDRESSES: To request a copy of the SDEIS or Final EIS and/or to send written comments, please write to the Angeles National Forest, c/o Aspen Environmental Group, 30423 Canwood Street, Suite 215, Agoura Hills, CA 91301. Alternately, electronic comments may be sent to TRTP@aspeneg.com. Electronic comments must be submitted as part of the actual e-mail message, or as an attachment in plain text (.txt), Microsoft Word (.doc), rich text format (.rtf), or portable document format (.pdf). Information about the Supplemental EIS and the environmental review process will be posted on the Internet at: <http://www.fs.fed.us/r5/angeles/projects/>. This site will be used to post links to all public documents during the Supplemental EIS process.

FOR FURTHER INFORMATION CONTACT:

Justin Seastrand, Special Uses Coordinator, Forest Service, Angeles

National Forest, 701 N. Santa Anita Ave., Arcadia, CA 91006, phone: (626) 574-5278. For additional information related to the project on non-NFS lands, contact John Boccio, California Public Utilities Commission (CNJC), .505 Van Ness Avenue, San Francisco, CA 94102; phone: (415) 703-2641. Project information can also be requested by leaving a voice message or sending a fax to the Project Information Hotline at (888) 331-9897.

Responsible Official: The responsible official will be Jody Noiron, Forest Supervisor, Angeles National Forest, 701 North Santa Anita Avenue, Arcadia, CA, 91006.

SUPPLEMENTARY INFORMATION: Lead and Cooperating Agencies. The USDA Forest Service is the lead agency, in accordance with 40 CFR 1501.5(b), and is responsible for the preparation of the SDEIS and Final EIS. The Army Corps of Engineers is a cooperating agency.

Comment. A SDEIS will be prepared and available for public comment. The comment period on the SDEIS will be 45 days from the date the Environmental Protection Agency publishes the Notice of Availability (NOA) in the **Federal Register**. To assist the Forest Service in identifying and considering issues and concerns on the analysis of the changed environmental conditions due to the Station Fire and project changes since the publication of the Draft EIS, comments on the SDEIS should be as specific as possible. It is also helpful if comments refer to specific pages or chapters of the SDEIS.

Comments may also address the adequacy of the SDEIS. Comments received on the SDEIS, including names and addresses of those who comment, will be considered part of the public record and will be available for public inspection. Comments submitted anonymously will be accepted and considered; however, those who submit anonymous comments will not have standing to appeal the subsequent decision under 36 CFR parts 215 and 217. Additionally, pursuant to 7 CFR 1.27(d), any person may request the agency to withhold a submission from the public record by showing how the Freedom of Information Act (FOIA) permits such confidentiality. Persons requesting such confidentiality should be aware that, under FOIA, confidentiality may be granted in only very limited circumstances, such as to protect trade secrets. The Forest Service will inform the requester of the agency's decision regarding the request for confidentiality, and where the request is denied, the agency will return the submission and notify the requester that

the comments may be resubmitted with or without name and address within a specified number of days.

The Forest Service believes, at this early stage, it is important to give reviewers notice of several court rulings related to public participation in the environmental review process. First, reviewers of a draft EIS must structure their participation in the environmental review of the proposal so that it is meaningful and alerts an agency to the reviewer's position and contentions [Vermont Yankee Nuclear Power Corp. v. NRDC, 435 U.S. 519, 553 (1978)]. Also, environmental objections that could be raised at the draft EIS stage but that are not raised until after completion of the final EIS may be waived or dismissed by the courts [*City of Angoon v. Harris*, 490 F. Supp. 1334, 1338 (E.D. Wis. 1980)]. Because of these court rulings, it is very important that those interested in this process participate by the close of the 45-day comment period so that substantive comments and objections are made available to the Forest Service at a time when it can meaningfully consider them and respond to them in the final EIS.

Reviewers may wish to refer to the Council on Environmental Quality Regulations for implementing the procedural provisions of the National Environmental Policy Act at 40 CFR 1503.3 in addressing these points.

In the final EIS, the Forest Service is required to respond to substantive comments received during the comment period for the draft and supplemental draft EIS's. The Forest Service is the lead agency and the responsible official is the Forest Supervisor, Angeles National Forest. The responsible official will decide whether and how to issue Special Use authorizations for the proposed project or alternatives. The responsible official will also decide how to mitigate impacts of these actions and will determine when and how monitoring of effects will take place.

The Tehachapi Renewable Transmission Project decision and the reasons for the decision will be documented in the record of decision. That decision will be subject to Forest Service Appeal Regulations (35 CFR part 215).

Dated: January 27, 2010.

Marty Dumpis,

Deputy Forest Supervisor.

BILLING CODE P

AGENCY FOR INTERNATIONAL DEVELOPMENT

Notice of Meeting

Pursuant to the Federal Advisory Committee Act, notice is hereby given of a meeting of the Advisory Committee on Voluntary Foreign Aid (ACVFA).

Date: Wednesday, March 31, 2010 (9 a.m. to 3 p.m., times may be adjusted).

Location: Jack Morton Auditorium, Media and Public Affairs Building, George Washington University, 805 21st Street, NW., Washington, DC 20052.

Please note that this is the anticipated agenda and is subject to change.

Keynote: The Administrator will present an update from the front office of USAID, presenting his vision of USAID's role in the development world, plus an update on the Haiti humanitarian efforts.

The primary focus of the meeting will be on development partnerships and what USAID can do better in working with its development partners. There will be a panel discussion on this topic.

Stakeholders. The meeting is free and open to the public. Persons wishing to attend the meeting can register online at http://www.usaid.gov/about_usaid/acvfa or with Ben Hubbard at bhubbard@usaid.gov or 202-712-4040.

Dated: January 29, 2010.

Deborah Lewis,

Office of the Chief Operating Officer, U.S. Agency for International Development.

BILLING CODE 6116-01-P

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

Request for Public Comment on a Commercial Availability Request Under the U.S.-Singapore Free Trade Agreement

February 2, 2010.

AGENCY: Committee for the Implementation of Textile Agreements (CITA).

ACTION: Request for public comments concerning a request for modification of the U.S.-Singapore Free Trade Agreement (USSFTA) rules of origin for certain apparel articles

SUMMARY: On October 29, 2008, the Government of the United States received a request from the Government of Singapore for consultations under Article 3.18.4(a)(i) of the USSFTA. Singapore is seeking agreement to revise the rules of origin for certain apparel articles to address availability of supply

of certain fabrics in the territories of the Parties. The President may proclaim a modification to the USSFTA rules of origin for textile and apparel products after reaching an agreement with the Government of Singapore on the modification. CITA hereby solicits public comments on this request, in particular with regard to whether certain fabrics can be supplied by the domestic industry in commercial quantities in a timely manner. Comments must be submitted by March 10, 2010 to the Chairman, Committee for the Implementation of Textile Agreements, Room 3001, United States Department of Commerce, Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Jim Bennett, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

SUPPLEMENTARY INFORMATION:

Authority: Section 202(o)(2) of the United States—Singapore Free Trade Agreement Implementation Act (19 U.S.C. 3805 note) (USSFTA Implementation Act); Executive Order 11651 of March 3, 1972, as amended.

Background

Under the USSFTA, the Parties are required to progressively eliminate customs duties on originating goods. *See* Article 2.2. The USSFTA provides that, after consultations, the Parties may agree to revise the rules of origin for textile and apparel products to address issues of availability of supply of fibers, yarns, or fabrics in the free trade area. *See* Article 3.18.4. In the consultations, each Party must consider data presented by the other party showing substantial production in its territory of the particular good. Substantial production has been shown if domestic producers are capable of supplying commercial quantities of the good in a timely manner. *See* Article 3.18.4.

The USSFTA Implementation Act provides the President with the authority to proclaim modifications to the USSFTA rules of origin as are necessary to implement the Agreement after complying with the consultation and layover requirements of Section 103 of the USSFTA Implementation Act. *See* Section 202(o)(2). Executive Order 11651 established CITA to supervise the implementation of textile trade agreements and authorizes the Chairman of CITA to take actions or recommend that the United States take actions necessary to implement textile trade agreements. 37 FR 4699 (March 4, 1972).

On October 29, 2008, the Government of the United States received a request from the Government of Singapore,
