Environmental Mailing List

The environmental mailing list includes federal, state, and local agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. This list also includes all affected landowners (as defined in the Commission's regulations) who are potential right-of-way grantors, whose property may be used temporarily for project purposes, or who own homes within certain distances of aboveground facilities, and anyone who submits comments on the project. We will update the environmental mailing list as the analysis proceeds to ensure that we send the information related to this environmental review to all individuals, organizations, and government entities interested in and/or potentially affected by the proposed project.

If the EA is published for distribution, copies will be sent to the environmental mailing list for public review and comment. If the EA is published for distribution, copies will be sent to the environmental mailing list for public review and comment. If you would prefer to receive a paper copy of the document instead of the CD version or

would like to remove your name from the mailing list, please return the attached Information Request (appendix 2).

Becoming an Intervenor

In addition to involvement in the EA scoping process, you may want to become an "intervenor," which is an official party to the Commission's proceeding. Intervenors play a more formal role in the process and are able to file briefs, appear at hearings, and be heard by the courts if they choose to appeal the Commission's final ruling. An intervenor formally participates in the proceeding by filing a request to intervene. Instructions for becoming an intervenor are included in the User's Guide under the "e-filing" link on the Commission's Web site.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-R04-OAR-2010-0019; FRL-9114-2]

Adequacy Status of the North Carolina Portion of the Charlotte-Gastonia-Rock Hill Bi-State Area Reasonable Further Progress Plan 8-Hour Ozone Sub-Area Motor Vehicle Emission Budgets for Transportation Conformity Purposes

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Adequacy.

SUMMARY: EPA is notifying the public that it has found that the sub-area motor vehicle emissions budgets (MVEBs) for the North Carolina portion of the

Charlotte-Gastonia-Rock Hill bi-state area (hereafter referred to as the Charlotte bi-state area) in the 1997 8-Hour Ozone Reasonable Further Progress (RFP) plan, submitted on November 30, 2009, by the North Carolina Department of Air Quality (NC DAQ), are adequate for transportation conformity purposes. The bi-state Charlotte moderate 1997 8-hour ozone area is comprised of Charlotte-Gastonia in North Carolina; and Rock Hill (a portion of York County), South Carolina. The North Carolina portion of the Charlotte bi-state area is comprised of the following sub-areas or counties: Cabarrus, Gaston, partial of Iredell (Davidson and Coddle Creek Townships), Lincoln, Mecklenburg, Rowan, and Union. North Carolina's RFP plan includes the required MVEBs for volatile organic compounds (VOC), and voluntary MVEBs for nitrogen oxides (NO_x). This action relates only to the North Carolina portion of the Charlotte bi-state area. EPA is considering South Carolina's RFP for the applicable portion of York County in a separate action. As a result of EPA's finding, which is being announced in this notice, the North Carolina portion of the Charlotte bi-state area must use the sub-area MVEBs for future conformity determinations for the 1997 8-hour ozone standard.

DATES: These sub-area MVEBs are effective March 8, 2010.

FOR FURTHER INFORMATION CONTACT: Dianna Smith, U.S. Environmental Protection Agency, Region 4, Air Planning Branch, 61 Forsyth Street, SW., Atlanta, Georgia 30303. Ms. Smith can also be reached by telephone at (404) 562-9207, or via electronic mail at smith.dianna@epa.gov. The finding is available at EPA's conformity Web site: <http://www.epa.gov/otaq/stateresources/transconf/currps.htm>.

SUPPLEMENTARY INFORMATION: This notice is simply an announcement of a finding that EPA has already made. EPA Region 4 sent a letter to NC DAQ on January 12, 2010, stating that the sub-area MVEBs identified for the North Carolina portion of the Charlotte bi-state area in the 1997 8-hour ozone RFP plan, submitted on November 30, 2009, are adequate and must be used for transportation conformity determinations in the North Carolina portion of the Charlotte bi-state area.

EPA posted the availability of the sub-area MVEBs contained in the North Carolina RFP plan on EPA's Web site on December 3, 2009, as part of the adequacy process, for the purpose of soliciting comments. EPA's adequacy comment period ran from December 3,
