

However, given the relatively small amount of spearfishing that seems to occur in GRNMS, and the indication from surveys that most spearfishing activity already occurs outside of the sanctuary, a prohibition on spearfishing is not likely to result in significant changes in fishing activities in or outside of the sanctuary.

32. *Comment:* Size limits could address the problem of spearfishing selectively targeting larger fish.

Response: NOAA interprets the comment to mean that rather than banning spearfishing altogether, NOAA should consider banning the take of large fish by spearfishing (*i.e.*, maximum size limit). The suggestion provided by the commenter would not address the powerhead ban enforcement issue, which is one of the purposes of this action.

33. *Comment:* NOAA should limit fishing to only those fish species that are not at risk (*e.g.*, king mackerel) to address the mandate to protect resources while allowing compatible uses.

Response: This comment is suggesting that NOAA should restrict all kinds of fishing activities and gear, limiting them only to fish species that are not at risk. This is beyond the scope of this action (*see response to comments #20, 21, 22*).

34. *Comment:* NOAA should postpone a decision on the proposed rule and work with spearfishermen to thoroughly research the issue.

Response: NOAA postponed its previous decision to ban spearfishing in 2006, for the purpose of gathering further socioeconomic information on the impact of a possible ban on all spearfishing in GRNMS. In addition, NOAA has thoroughly researched the possible detrimental effects to the natural marine resources of GRNMS that NOAA is mandated to protect. Therefore, NOAA is satisfied with the level of information on natural marine resources as well as socioeconomic impact used as a basis for this action.

Synopsis

1. On November 7, 2008, the Commission released *Closed Captioning of Video Programming, Closed Captioning Requirements for Digital Television Receivers*, CG Docket No. 05-231, ET Docket No. 99-254, Declaratory Ruling, Order, and Notice of Proposed Rulemaking, FCC 08-255 (*2008 Closed Captioning Order*), published at 74 FR 1594, January 13, 2009, which, among other things, requires video programming distributors to provide the Commission with contact information for the handling of immediate closed captioning concerns and written closed captioning complaints. Specifically, in a new § 79.1(i)(3) of its rules, the Commission required video programming distributors to file the required contact information with the Chief of the Disability Rights Office, Consumer and Governmental Affairs Bureau, or by sending the information to CLOSEDCAPTIONS_POC@fcc.gov.

2. In anticipation of a large number of submissions and volume of information the Commission expects to receive, it has established an electronic webform as an additional method by which video programming distributors may submit their contact information to the Commission. To submit their contact information in this manner, video programming distributors will enter contact information in specific fields and, once submitted, this information will be available almost immediately for online searching by the public. This approach will promote compliance with the rule by facilitating the submission and availability of complete and accurate contact information. While video programming distributors may use any of the three methods described in § 79.1(i)(3), the Commission encourages video programming distributors to submit their contact information through this online, self-service webform. Because this additional method of providing contact information was not provided for in the *2008 Closed Captioning Order* or in § 79.1(i)(3) of the Commission's rules, the Commission is amending § 79.1(i)(3)
