

maintaining an adaptive management program, appropriate research and management activities will be implemented in a timely manner to achieve recovery of the Rio Grande silvery minnow. Lastly, recovery actions also include designing and implementing public awareness and education programs about this species.

Section 4(f) of the Act requires that we provide public notice and an opportunity for public review and comment during recovery plan development. In fulfillment of this requirement, we made the draft revision of the recovery plan for Rio Grande silvery minnow available for public comment from January 18, 2007, through April 18, 2007 (January 18, 2007; 72 FR 2301). We also conducted peer review at this time. Revised recovery criteria were developed in response to public and peer review comments on the original draft plan. We released these revised criteria for a second round of public comment from April 9, 2009, through May 26, 2009 (April 9, 2009; 74 FR 16232). We also conducted additional peer review. After consideration of comments received during both public and peer review comment periods, the recovery plan has been updated and finalized.

Authority: The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: January 15, 2010.
