Abstract: The current OMB package requests a three month extension for the clearance for data collection instruments to be used in the Study of the Program for Infant Toddler Care (PITC). This study is one of the rigorous research studies of REL West (the Regional Educational Laboratory—West) and will measure the impact of the PITC on child care quality and children's development. The evaluation is conducted by Berkeley Policy Associates in partnership with the University of Texas at Austin and SRM Boulder. Evaluation measures include baseline and follow-up questionnaires for parents, programs, and caregivers; baseline and follow-up program observations; and two rounds of child observations/interviews to measure children's language, social and cognitive development. Baseline data collection took place 2007; follow-up data collection took place in 2008, 2009, and will be completed in 2010.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The goals of this program are to identify and disseminate information about exemplary and effective alcohol or other drug abuse prevention programs implemented on college campuses. Through this grant competition, the U.S. Department of Education (ED) also will recognize colleges and universities whose programs, while not yet exemplary or effective, show evidence that they are promising.

Priority: This priority is from the notice of final priority, definitions, requirements, and selection criteria for this competition, published in the **Federal Register** on April 1, 2008 (73 FR 17867).

Absolute Priority: For FY 2010 and any subsequent year in which we make awards based on the list of unfunded

applicants from this competition, this priority is an absolute priority. Under 34 CFR 75.105(c)(3) we consider only applications that meet this priority.

This priority is:

Exemplary, Effective, and Promising Alcohol or Other Drug Abuse Prevention Programs on College Campuses.

Under this priority the Department provides funding to institutions of higher education (IHEs) that have implemented an exemplary, effective, or promising alcohol or other drug abuse prevention program on their campus. To meet the priority, in its application, an applicant must:

1. Describe the program that has for at least two full years been implemented on its campus, including the structure and content of the program, the student population that is targeted by the program, and any unique features of the program;

2. Provide a detailed theoretical basis for the program's effectiveness;

3. Provide data to demonstrate the program's impact on the target student population, including evidence of cognitive or behavioral changes, or both, among the target population; and

4. Consent to a site visit to clarify information in the application and verify evaluation data.

Under this competition, the Department selects an IHE for recognition as having an exemplary, effective, or promising program based on the recommendation from the two peer reviewers who conduct the site visit. Therefore, note that selection for a site visit does not ensure recognition as an exemplary, effective, or promising program by the Department.

Recognition Types

Contingent upon the quality of data provided by the applicant and the recommendation of site visitors, an applicant may earn one of three levels of recognition. Level 1 is recognition as an exemplary program. An IHE whose program is designated as exemplary must:

1. Within 30 days of receiving an award, provide to the Department a plan to disseminate information about its program to other IHEs;

2. Upon approval by the Department, implement its dissemination plan; and

3. Enhance and further evaluate the exemplary program during the project period of the grant award.

Level 2 is recognition as an effective program. An IHE whose program is designated as effective must:

1. Within 30 days of receiving an award, provide to the Department a plan to disseminate information about its program to other IHEs;

2. Upon approval by the Department, implement its dissemination plan; and
 3. Enhance and further evaluate the effective program during the project period of the grant award.

Level 3 is designation as a promising program. An IHE whose program is recognized as promising must:

1. Within 30 days of receiving an award, submit to the Department a plan to enhance and further evaluate its program;
2. Upon approval by the Department, implement its enhancement and evaluation plan; and
3. Within 12 months of award, provide to the Department a report detailing the results of its evaluation.

Definitions

1. *Exemplary program* means a program that has a strong theoretical base and demonstrated effectiveness in reducing alcohol or other drug abuse among college students or reducing problems resulting from alcohol or other drug use among college students, using a research design of the highest quality. For the purpose of this grant competition, a research design of the highest quality means an experimental design in which students are randomly assigned to participate in a project being evaluated (treatment group) or not participate in the project (control group). The effect of the project is the difference in outcomes between the treatment and control groups.

If strong, experimentally determined evidence of the effectiveness of a program already exists, and the program was implemented on the applicant's campus with fidelity to the research, then a quasi-experimental evaluation of the program's implementation on the applicant's campus may be an acceptable research design. For the purpose of this grant competition, quasi-experimental designs include several designs that attempt to approximate a random assignment design.

2. *Effective program* means a program that has a strong theoretical base and has been evaluated using either an experimental or quasi-experimental research design, with the evaluation results suggesting effectiveness in reducing alcohol or other drug abuse among college students, reducing problems resulting from alcohol or other drug use among college students, reducing risk factors, enhancing protective factors, or resulting in some combination of those impacts.

3. *Promising program* means a program that has a strong theoretical base and for which evidence has been obtained, using limited research methods, that the program may reduce

alcohol or other drug abuse among college students, reduce problems resulting from alcohol or other drug use among college students, reduce risk factors, enhance protective factors, or result in some combination of those impacts. For the purpose of this grant competition, limited research methods are methods that include a pre- and post-treatment measurement of the effects of a treatment on a single subject or group of single subjects.

Program Authority: 20 U.S.C. 7131.

Applicable Regulations: (a) The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 81, 82, 84, 85, 86, 97, 98, and 99. Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education only.

II. Award Information

Type of Award: Discretionary grants.

Estimated Available Funds: \$825,000.

Contingent upon the availability of funds and the quality of applications, we may make additional awards later in FY 2010 and in subsequent years from the list of unfunded applicants from this competition.

Estimated Range of Awards: \$125,000–\$175,000.

Estimated Average Size of Awards: \$137,500.

Project Period: Up to 24 months. No continuation awards will be provided.

III. Eligibility Information

1. *Eligible Applicants:* IHEs that offer an associate or baccalaureate degree.

Limitations on Eligibility

(a) *Exemplary or effective programs.* The length of time an IHE is ineligible for a subsequent award after receiving recognition for an exemplary or effective program is three years.

(b) *Promising programs.* Programs recognized as promising may be eligible for a new award when their current grant is no longer active. A grant is considered active until the end of the grant's project or funding period, including any extensions of those periods that extend the grantee's
