Certain Lined Paper Products from India: Notice of Final Results of Antidumping Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: On October 7, 2009, the Department of Commerce (the Department) published in the **Federal Register** the preliminary results of the antidumping duty administrative review for certain lined paper products from India (CLPP). See *Certain Lined Paper Products From India: Notice of Preliminary Results of Antidumping Duty Administrative Review*, 74 FR 51558 (October 7, 2009) (*Preliminary Results*). This review covers 25 manufacturers and exporters of the subject merchandise.¹ As a result of our

analysis of the comments received, these final results differ from the *Preliminary Results*.

For our final results, we continue to find that Navneet and Blue Bird made sales of subject merchandise at less than normal value (NV). In addition, based on the final results for Navneet, we have determined a weighted-average margin for those companies that were not selected for individual review.

DATES: *Effective Date:*

February 22, 2010.

FOR FURTHER INFORMATION CONTACT:

Stephanie Moore (Navneet, and non-selected companies) and Cindy Robinson (Blue Bird), AD/CVD Operations, Office 3, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230; telephone: (202) 482-3692, (202) 482-3797, respectively.

SUPPLEMENTARY INFORMATION:

Background

On November 25, 2008, the Department selected Kejriwal and Blue Bird as companies to be individually examined in this second administrative review of the antidumping duty order on CLPP from India. See Memorandum to Melissa Skinner from George McMahon titled "Certain Lined Paper Products from India: Selection of Respondents for Individual Review" (Respondent Selection Memo), dated November 25, 2008. On December 22, 2008, both Kejriwal and petitioner timely withdrew their requests for a review of Kejriwal. On January 9, 2009, after we determined that we would rescind the review with respect to Kejriwal, we selected Navneet as a mandatory respondent.

On October 7, 2009, the Department published the *Preliminary Results*. As noted in the *Preliminary Results*, Blue Bird withheld requested information, significantly impeded the proceeding, and failed to cooperate to the best of its ability. Therefore, pursuant to sections 776(a)(2)(A) and (C) and 776(b) of the Tariff Act of 1930, as amended (the Act), the Department preliminarily determined that the use of facts available for Blue Bird was appropriate, and assigned a rate of 72.96 percent, which was based on the highest margin

preliminarily calculated for Navneet in this review.

Comments from Interested Parties

We invited parties to comment on our *Preliminary Results*. Case briefs were filed November 20, 2009, by Navneet, and Blue Bird; November 24, 2009, by petitioner; and on November 25, 2009, by IScholar, Inc., an importer of subject merchandise from respondent Blue Bird. On December 4, 2009, petitioner and Navneet filed rebuttal briefs.

Scope of the Order

The scope of this order includes certain lined paper products, typically school supplies (for purposes of this scope definition, the actual use of or labeling these products as school supplies or non-school supplies is not a defining characteristic) composed of or including paper that incorporates straight horizontal and/or vertical lines on ten or more paper sheets (there shall be no minimum page requirement for loose leaf filler paper) including but not limited to such products as single- and multi-subject notebooks, composition books, wireless notebooks, loose leaf or glued filler paper, graph paper, and laboratory notebooks, and with the smaller dimension of the paper measuring 6 inches to 15 inches (inclusive) and the larger dimension of the paper measuring 8-3/4 inches to 15 inches (inclusive). Page dimensions are measured size (not advertised, stated, or "tear-out" size), and are measured as they appear in the product (*i.e.*, stitched and folded pages in a notebook are measured by the size of the page as it appears in the notebook page, not the size of the unfolded paper). However, for measurement purposes, pages with tapered or rounded edges shall be measured at their longest and widest points. Subject lined paper products may be loose, packaged or bound using any binding method (other than case bound through the inclusion of binders board, a spine strip, and cover wrap). Subject merchandise may or may not contain any combination of a front cover, a rear cover, and/or backing of any composition, regardless of the inclusion of images or graphics on the cover, backing, or paper. Subject merchandise is within the scope of this order whether or not the lined paper and/or cover are hole punched, drilled, perforated, and/or reinforced. Subject merchandise may contain accessory or informational items including but not limited to pockets, tabs, dividers, closure devices, index cards, stencils, protractors, writing implements, reference materials such as mathematical tables, or printed items

For a six-inch by nine-inch stenographic pad, the ruling would be located approximately three inches from the left of the book), measuring 6 inches by 9 inches;

Also excluded from the scope of this order are the following trademarked products:

- TM Fly lined paper products: A notebook, notebook organizer, loose or glued note paper, with papers that are printed with infrared reflective inks and

readable only by a FlyTM pen-top computer. The product must bear the valid trademark FlyTM (products found to be bearing an invalidly licensed or used trademark are not excluded from the scope).

- ZwipesTM: A notebook or notebook organizer made with a blended polyolefin writing surface as the cover and pocket surfaces of the notebook, suitable for writing using a specially-developed permanent marker and erase system (known as a ZwipesTM pen). This system allows the marker portion to mark the writing surface with a permanent ink. The eraser portion of the marker dispenses a solvent capable of solubilizing the permanent ink allowing the ink to be removed. The product must bear the valid trademark ZwipesTM (products found to be bearing an invalidly licensed or used trademark are not excluded from the scope).

- FiveStar[®] AdvanceTM: A notebook or notebook organizer bound by a continuous spiral, or helical, wire and with plastic front and rear covers made of a blended polyolefin plastic material joined by 300 denier polyester, coated on the backside with PVC (poly vinyl chloride) coating, and extending the entire length of the spiral or helical wire. The polyolefin plastic covers are of specific thickness; front cover is 0.019 inches (within normal manufacturing tolerances) and rear cover is 0.028 inches (within normal manufacturing tolerances). Integral with the stitching that attaches the polyester spine covering, is captured both ends of a 1” wide elastic fabric band. This band is located 2–3/8” from the top of the front plastic cover and provides pen or pencil storage. Both ends of the spiral wire are cut and then bent backwards to overlap with the previous coil but specifically outside the coil diameter but inside the polyester covering. During construction, the polyester covering is sewn to the front and rear covers face to face (outside to outside) so that when the book is closed, the stitching is concealed from the outside. Both free ends (the ends not sewn to the cover and back) are stitched with a turned edge construction. The flexible polyester material forms a covering over the spiral wire to protect it and provide a comfortable grip on the product. The product must bear the valid trademarks FiveStar[®] AdvanceTM (products found to be bearing an invalidly licensed or used trademark are not excluded from the scope).

- FiveStar FlexTM: A notebook, a notebook organizer, or binder with plastic polyolefin front and rear covers joined by 300 denier polyester spine cover extending the entire length of the

spine and bound by a 3-ring plastic fixture. The polyolefin plastic covers are of a specific thickness; front cover is 0.019 inches (within normal manufacturing tolerances) and rear cover is 0.028 inches (within normal manufacturing tolerances). During construction, the polyester covering is sewn to the front cover face to face (outside to outside) so that when the book is closed, the stitching is concealed from the outside. During construction, the polyester cover is sewn to the back cover with the outside of the polyester spine cover to the inside back cover. Both free ends (the ends not sewn to the cover and back) are stitched with a turned edge construction. Each ring within the fixture is comprised of a flexible strap portion that snaps into a stationary post which forms a closed binding ring. The ring fixture is riveted with six metal rivets and sewn to the back plastic cover and is specifically positioned on the outside back cover. The product must bear the valid trademark FiveStar Flex (products found to be bearing an invalidly licensed or used trademark are not excluded from the scope).

Assessment Rates

Pursuant to these final results, the Department has determined, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries. Pursuant to 19 CFR 351.212(b)(1), we calculated importer-specific *ad valorem* duty assessment rates based on the ratio of the total amount of the antidumping margins calculated for the examined sales to the total entered value of the examined sales for that importer. Where the assessment rate is above *de minimis*, we will instruct CBP to assess duties on all entries of subject merchandise by that importer. Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the assessment rate is *de minimis* (i.e., less

than 0.50 percent). The Department intends to issue assessment instructions directly to CBP 15 days after publication of the final results of this review.

The Department clarified its "automatic assessment" regulation on May 6, 2003. See *Antidumping and Countervailing Duty Proceedings: Assessment of Antidumping Duties*, 68 FR 23954, (May 6, 2003) (*Assessment Policy Notice*). This clarification applies to POR entries of subject merchandise produced by companies examined in this review (i.e., companies for which a dumping margin was calculated) where the companies did not know that their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the 3.91 percent all-others rate for India if there is no company-specific rate for an intermediary company(ies) involved in the transaction. See *Notice of Amended Final Determination of Sales at Less Than Fair Value: Certain Lined Paper Products from the People's Republic of China; Notice of Antidumping Duty Orders: Certain Lined Paper Products from India, Indonesia and the People's Republic of China; and Notice of Countervailing Duty Orders: Certain Lined Paper Products from India and Indonesia*, 71 FR 56949 (September 28, 2006) (*Lined Paper Orders*). See also *Assessment Policy Notice*, 68 FR at 23954.

Cash Deposit Requirements

The following deposit requirements will be effective upon publication of these final results for all shipments of CLPP from India entered, or withdrawn from warehouse, for consumption on or after the publication date of the final results of this administrative review, as provided by section 751(a) of the Act: (1) for companies covered by this review, the cash deposit rate will be the rate listed above; (2) for previously reviewed or investigated companies other than those covered by this review, the cash deposit rate will be the company-specific rate established for the most recent period; (3) if the exporter is not a firm covered in this review, a prior review, or the less-than-fair-value investigation, but the producer is, the cash deposit rate will be the rate established for the most recent period for the manufacturer of the subject merchandise; and (4) if neither the exporter nor the producer is a firm covered in this review, a prior review, or the investigation, the cash deposit rate will be 3.91 percent, the all-others rate established in the less-than-fair-value investigation. These deposit

requirements, when imposed, shall remain in effect until further notice.

Reimbursement of Duties

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping and/or countervailing duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in the presumption that reimbursement of antidumping and/or countervailing duties occurred and the subsequent increase in antidumping duties by the amount of antidumping and/or countervailing duties reimbursed.

This notice also serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this POR. Failure to comply with this requirement could result in the Secretary's presumption that reimbursement of antidumping duties occurred and the subsequent assessment of doubled antidumping duties. See 19 CFR 351.402(f)(3).

Administrative Protective Order

This notice also serves as a reminder to parties subject to administrative protective orders (APO) of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3), which continues to govern business proprietary information in this segment of the proceeding. Timely written notification of the return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply with the regulations and the terms of an APO is a sanctionable violation.

We are issuing and publishing this notice in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce ("Department") published its preliminary results of changed circumstances review for saccharin from the People's Republic of China in ("PRC") on December 1, 2009.¹ We invited interested parties to comment on our preliminary results. No parties commented on our preliminary results. Therefore, the preliminary results are hereby adopted as the final results.

SUPPLEMENTARY INFORMATION:

Background

On July 9, 2003, the Department published in the **Federal Register** an antidumping duty order on saccharin from the PRC.² On June 8, 2009, the Department published in the **Federal Register** the notice of continuation of antidumping duty order on saccharin from the PRC.³ On June 4, 2009, the Department received a request on behalf of PMC Specialties Group, Inc. ("PMCSG") for a changed circumstances review to revoke the antidumping duty order on saccharin from the PRC. PMCSG claimed that, as the sole domestic producer of saccharin, it no longer had an interest in the *Saccharin Order*. As part of its submission, PMCSG requested that the Department combine the notice of initiation with the preliminary results to revoke the *Saccharin Order*.

On July 9, 2009, the Department received a letter opposing the request for a changed circumstances review from Kinetic Industries ("Kinetic").⁴ Kinetic claimed that it produces saccharin through a third party toller in the United States and that both parties, Kinetic and its toll producer, are interested parties as domestic producers of saccharin. Both Kinetic and its toll producer requested that the Department not issue expedited preliminary results in this changed circumstances review.

On July 23, 2009, the Department published in the **Federal Register** a notice of initiation of changed circumstances review for saccharin from the PRC. On July 23, 2009, the Department also issued questionnaires to PMCSG, Kinetic, and Kinetic's toller to solicit relevant information and fully evaluate the request to revoke the *Saccharin Order*, as well as the arguments against revocation. On July 24, 2009, the Department issued a letter to Kinetic and its toller notifying them that the Department could not grant

³ See *Continuation of Antidumping Duty Order on Saccharin from the People's Republic of China*, 74 FR 27089 (June 8, 2009).

⁴ Although Kinetic filed a letter opposing PMCSG's request for changed circumstances review on July 2, 2009, the Department rejected that letter because it did not contain the appropriate certifications. The Department requested that Kinetic re-file its submission by July 10, 2009. On July 9, 2009, Kinetic refiled its submission with the appropriate certifications.

proprietary treatment to the toll producer's name if the toll producer wished to be an interested party to the proceeding, and that, should the toller wish to continue as an interested party, the toller would need to submit a revised notice of appearance without its name bracketed. The toller did not submit a revised notice of appearance.

On August 17, 2009, the Department received questionnaire responses from Kinetic and Kinetic's toller. The Department has not received any response from PMCSG. In addition, PMCSG indicated to the Department that it would not respond to the questionnaire.⁵

On September 4, 2009, Kinetic submitted a letter urging the Department to issue expedited negative preliminary results of the changed circumstances review and determine that domestic producers have affirmatively expressed an interest in maintaining the *Saccharin Order*. On October 26, 2009, PMCSG submitted a letter stating that it determined not to respond to the Department's July 23, 2009, questionnaire, and that it is PMCSG's position that the record contains substantial evidence that it is a commercial producer and accounts for all U.S. production.

On December 1, 2009, the Department published its preliminary results. No parties commented on our preliminary results.

Scope of the Order

The product covered by this antidumping duty order is saccharin. Saccharin is defined as a non-nutritive sweetener used in beverages and foods, personal care products such as toothpaste, table top sweeteners, and animal feeds. It is also used in metalworking fluids. There are four primary chemical compositions of saccharin: (1) Sodium saccharin (American Chemical Society Chemical Abstract Service ("CAS") Registry 128-44-9); (2) calcium saccharin (CAS Registry 6485-34-3); (3) acid (or insoluble) saccharin (CAS Registry 81-07-2); and (4) research grade saccharin. Most of the U.S.-produced and imported grades of saccharin from the PRC are sodium and calcium saccharin, which are available in granular, powder, spray-dried powder, and liquid forms. The merchandise subject to this order is currently classifiable under subheading 2925.11.00 of the *Harmonized Tariff Schedule of the United States*
