

and used automobiles to individual owners at an automotive dealership. The workers of the subject firm did not perform additional, value-added production processes or services directly to any of the certified primary firms during the investigation period. Thus, the subject firm workers are not eligible for TAA as downstream producers under secondary impact. Further, the subject firm is not an upstream supplier because it did not provide services to a TAA-certified firm during the investigation period.

The petitioner also alleged that increased imports of foreign-produced automobiles negatively impacted business of the subject firm and, therefore, workers who perform sales and service of domestic automobiles should be eligible for TAA.

When assessing a worker group's eligibility to apply for TAA, the Department exclusively considers imports of articles like or directly competitive with those manufactured by the subject firm or services like or directly competitive with those supplied by the workers of the subject firm during the relevant period. It was revealed during the initial investigation that the subject firm neither imported services like or directly competitive with the services supplied by worker group nor shifted to or acquired from foreign country services like or directly competitive with the services supplied by worker group.

The petitioners did not supply facts not previously considered and did not provide any documentation indicating that there was either (1) a mistake in the determination of facts previously considered or (2) a misinterpretation of facts or of the law justifying reconsideration of the initial determination.

After careful review of the request for reconsideration, the Department determines that 29 CFR 90.18(c) has not been met.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

On December 23, 2009, the Department issued an Affirmative Determination Regarding Application for Reconsideration applicable to workers and former workers of the subject firm. The notice of affirmative determination was published in the **Federal Register** on January 6, 2010 (75 FR 878).

The initial investigation, initiated on September 8, 2009, resulted in a negative determination, issued on November 5, 2009, that was based on the finding that imports did not contribute importantly to worker separations at the subject firm and no shift in production to a foreign country occurred. The notice of negative determination was published in the **Federal Register** on January 25, 2010 (75 FR 3935).

To support the request for reconsideration, the petitioner supplied additional information to supplement that which was gathered during the initial investigation.

During the reconsideration investigation, the Department carefully reviewed new information provided by the petitioner and contacted the company official for additional information and clarification of previously-submitted information.

The reconsideration investigation revealed that the subject firm is shifting production of articles like or directly competitive with cGMP intermediates and Active Pharmaceutical Ingredients from the subject facility to a foreign country and that this shift on production contributed importantly to worker separations during the relevant period.

After careful review of the additional facts obtained on reconsideration, I determine that workers of Lonza, Inc., Riverside Plant, Lonza Exclusive Synthesis Section, Custom Manufacturing Division, including on-site leased workers of Lab Support, Aerotek, Job Exchange, and Synerfac, Conshohocken, Pennsylvania, who are

engaged in employment related to the production of cGMP intermediates and Active Pharmaceutical Ingredients, meet the worker group certification criteria under Section 222(a) of the Act, 19 U.S.C. 2272(a). In accordance with Section 223 of the Act, 19 U.S.C. 2273, I make the following certification:

All workers of Lonza, Inc., Riverside Plant, Lonza Exclusive Synthesis Section, Custom Manufacturing Division, including on-site leased workers of Lab Support, Aerotek, Job Exchange, and Synerfac, Conshohocken, Pennsylvania, who are engaged in employment related to the production of cGMP intermediates and Active Pharmaceutical Ingredients, who became totally or partially separated from employment on or after September 2, 2008, through two years from the date of this certification, and all workers in the group threatened with total or partial separation from employment on date of certification through two years from the date of certification, are eligible to apply for adjustment assistance under Chapter 2 of Title II of the Trade Act of 1974, as amended.
