

supporting evidence of their status as rural and low income.

A rural and low-income LEA is an LEA in which (a) all of the schools served by the LEA are designated with a locale code of 6, 7, or 8 as determined by the Department's National Center for Education Statistics (NCES); and (b) 20 percent or more of the children ages 5 through 17 years served by the LEA are from families with incomes below the poverty line. The Department maintains a list of these LEAs at www.ed.gov/programs/reaprlisp/eligibility.html.

Note: Applicants wishing to be considered under this factor must be both rural and low-income

VI. Award Administration Information

1. *Award Notices:* If your application is successful, we notify your U.S. Representative and U.S. Senators and send you a Grant Award Notification (GAN). We may notify you informally, also.

If your application is not evaluated or not selected for funding, we notify you.

2. *Administrative and National Policy Requirements:* We identify administrative and national policy requirements in the application package and reference these and other requirements in the *Applicable Regulations* section of this notice.

We reference the regulations outlining the terms and conditions of an award in the *Applicable Regulations* section of this notice and include these and other specific conditions in the GAN. The GAN also incorporates your approved application as part of your binding commitments under the grant.

3. *Reporting:* At the end of your project period, you must submit a final performance report, including financial information, as directed by the Secretary. If you receive a multi-year award, you must submit an annual performance report that provides the most current performance and financial expenditure information as directed by the Secretary under 34 CFR 75.118. The Secretary may also require more frequent performance reports under 34 CFR 75.720(c). For specific requirements on reporting, please go to www.ed.gov/fund/grant/apply/appforms/appforms.html.

4. *Performance Measures:* Under the Government Performance and Results Act of 1993 (GPRA), three measures have been developed for evaluating the overall effectiveness of the Grants to Reduce Alcohol Abuse program. They are: (1) The percentage of grantees whose target students show a measurable decrease in binge drinking; (2) the percentage of grantees that show

a measurable increase in the percentage of target students who believe that alcohol abuse is harmful to their health; and (3) the percentage of grantees that show a measurable increase in the percentage of target students who disapprove of alcohol abuse.

These three measures constitute the Department's indicators of success for this program. Consequently, applicants for a grant under this program are advised to give careful consideration to these three measures in conceptualizing the design, implementation, and evaluation of their proposed project. If funded, applicants will be asked to collect and report data in their annual performance reports about progress toward these goals.

Federal Energy Regulatory Commission

[Docket No. PF09-14-000]

Turtle Bayou Gas Storage Company, LLC; Amended Notice of Intent To Prepare an Environmental Assessment for the Planned Turtle Bayou Natural Gas Storage Project and Request for Comments on Environmental Issues

February 23, 2010.

As previously noticed on November 20, 2009, and amended herein, the staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Turtle Bayou Natural Gas Storage Project involving construction and operation of facilities by Turtle Bayou Gas Storage Company, LLC (Turtle Bayou) in Liberty County, Texas. This EA will be used by the Commission in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of a second scoping period (due to pipeline route changes in the project design) the Commission will use to gather input from the public and interested agencies on the project. Your input will help the Commission staff determine what issues need to be evaluated in the EA. Please note that the scoping period will close on March 25, 2010.

This notice is being sent to the Commission's current environmental mailing list for this project, which includes newly identified affected landowners along the revised pipeline route; landowners who would no longer be affected by Turtle Bayou's previous pipeline route; federal, state, and local government representatives and agencies; elected officials; environmental and public interest groups; Native American Tribes; other interested parties; and local libraries and newspapers. State and local government representatives are asked to notify their constituents of this planned project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, you may be contacted by a pipeline company representative about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the project is approved by the Commission, that approval conveys with it the right of
