SUPPLEMENTARY INFORMATION: *Purpose and Activity:* CIPAC facilitates interaction between government officials and representatives of the community of owners and/or operators for each of the critical infrastructure and key resources (CIKR) sectors defined by Homeland Security Presidential Directive 7 (HSPD–7) and identified in the National Infrastructure Protection Plan (NIPP). The scope of activities covered by CIPAC includes planning; coordinating among government and CIKR owner/operator security partners; implementing security program initiatives; conducting operational activities related to critical infrastructure protection security measures, incident response, recovery, infrastructure resilience, reconstituting CIKR assets and systems for both man-made as well as naturally occurring events; and sharing threat, vulnerability, risk mitigation, and infrastructure continuity information and best practices.

Organizational Structure: CIPAC members are organized into 18 CIKR sectors. Within all of the sectors containing private sector CIKR owners/operators, there generally exists a Sector Coordinating Council (SCC) that includes CIKR owners and/or operators or their representative trade

associations. Each of the sectors also has a Government Coordinating Council (GCC) whose membership includes a lead Federal agency that is defined as the Sector Specific Agency (SSA), and all relevant Federal, State, local, tribal, and/or territorial government agencies (or their representative bodies) whose mission interests also involve the scope of the CIPAC activities for that particular sector.

CIPAC Membership: CIPAC Membership includes (i) CIKR owner and/or operator members of an SCC; CIKR owners and operators own and invest in infrastructure assets or in the systems and processes to secure them.
